

Dog Bed à la Mattress

Exhibited at Interzoo 2026 | Hall 3, Booth 3-501

Architectural Purity for "Space-Seekers"

The **à la Mattress** is designed for dogs who prefer a firm, stable base and love to stretch out. Characterized by clean lines and a structured form, this bed acts as a sophisticated designer solitaire that complements the interior lines of any modern home. It is more than a pet accessory; it is a piece of furniture that defines a curated lifestyle.

Advanced Core: Premium Shredded Foam Technology

At the heart of the à la Mattress is our signature **high-density shredded premium polyurethane foam**.

- **Engineered Stability:** Unlike standard block foam, our shredded filling provides a dynamic support system that adapts to the dog's weight while maintaining a firm surface.
 - **Long-Term Shape Retention:** Specifically developed to be highly resistant to sagging and compression ("*proležaniu*"), the bed retains its original architectural silhouette even after years of intensive use.
 - **Pressure Relief:** Engineered to prevent elbow calluses and provide orthopaedic support for heavier breeds by ensuring the dog never touches the hard floor.
