

SPECIAL PIE

E2 Bluetooth Ear Protector

Model: E2

Product Description

The E2 Bluetooth Ear Protector is developed specially for use in live fire environments, which offers top-tier hearing protection and advanced features, all while prioritizing comfort and convenience for extended wear. Bluetooth function enable E2 headset to wirelessly connect to the phone for communication and audio playback, which can work with the noise-cancelling pick-up function at the same time without bothering each other. Also, it supports customizing your national flag or club logo on the ear cups.

Product Features

1. Unmatched Comfort for Long-Term Wear

Equipped with gel ear pads, the E2 reduces pressure on the ears, ensuring comfort even during long shooting sessions. The larger ear cup size accommodates the entire ear, eliminating any discomfort from earcups pressing against the ear.

2. Personalized Options

Stylish, simple, and available in a variety of colors. There are stickers on both sides of the headset. Customize your ear protector with your national flag or club logo on the side of the ear cup.

3. Clear Voice Tracking & Noise Reduction

Effectively reduces harmful noise while ensuring clear voice communication, providing shooters with both safety and efficiency.

4. Integrated Control

One-key operation for the power button and volume control ensures quick response, which is set on the left side of the ear cup. Since most shooters are right-handed, the left-side button is more convenient to adjust. No need to put down your firearm to adjust.

5. Portability & Ease of Use

Lightweight and foldable, the E2 is easy to carry when not in use and perfect for transport.

6. Bluetooth & Aux Connection

Stay connected via Bluetooth to listen to music or take phone calls, and use the auxiliary port to connect to interphones via PTT (optional).

7. Instant-Connect NFC

Tap your phone on the NFC mark to make the Bluetooth connection more convenient.

8. Long-lasting Battery & Easy Monitoring

The built-in lithium battery provides up to 48 hours of continuous use, with five LED indicators to easily check the power status. Charging is fast and simple with the USB-C port.

Technical Parameters

Brand	Products Name	Bluetooth Ear Protector	
 SPECIAL PIE	Product Model	E2/E2 Pro	
	NRR	27dB	
	Color	Black/Gray/Olive Green/Orange /Blue
