## Company Overview

Essentech is a global leader in providing valuable and creative brass products for HVAC, Construction, Motor and gas industry.

Since 1985, based on high quality raw material "Brass One" (Asia number ONE brass bar brand owned by its mother company - Daechang), Essentech has been engaged in developing and manufacturing a wide range of brass products including special valve for HVAC industry as well as construction, motor and gas industry.

Having integrated production process from raw materials and all the way up to final assembled products, one stop solution makes it possible to deliver high quality products and on-time delivery. These commitments have been proved through long term business relationships with global customers. We will continuously challenge towards the future based on the belief of ethics with the goal of becoming a leading global company.

## Products Introduction

### Ball Valves for Refrigeration Systems

Shut-off valves suitable for bi-directional flow of Liquid, Suction and Hot-Gas line in all Refrigeration and Air-conditioning System

### Magnetic Type Check Valve

Essen Magnetic check valve prevents reverse flow of refrigerant when operation stops and protects seat surface from particle by inner mesh screen

### SB1 (Most advanced connect fitting)

No Torch, No Tool, No Problem  
Work Safer, Faster and Easier  
Increase Productivity, Save time and Labor costs
