SPECIALIST IN COLLAPSIBLE PLYWOOD BOXES FOR INDUSTRIAL USE

## YOUR NEEDS

- > **Protect your products** under all circumstances and make sure they are in perfect condition when they reach your customers
- > Find an innovative and environmentally-friendly **packaging solution**
- > **Control and optimise costs** related to packaging, packing and shipping
- > Present an **image of quality** while your products are in transit
- > Be able to count on a supplier for assistance and expertise when looking for **packaging that best meets your needs**

## OUR SOLUTIONS

> A full range of **collapsible plywood boxes**:

- 1 Single-use export box (Ref. EXBOX STD)
- 2 Box for storage (Ref. EXBOX BLN)
- 3 Reusable pallet box for shuttle purposes (Ref. ISIBOX 61)
- 4 Export box (Ref. ISIBOX 66)

## YOUR SOLUTION FOR CUSTOMISED PACKAGING

- > An **eco-friendly solution**: sustainable development in general and recycling in particular are accorded special attention at NO-NAIL BOXES, which has earned the company various certifications (PEFC, CSR, ISO 14001, SuperDrecksKëscht fir Betriber)
- > A local, responsive and relevant technical sales team
- > An engineering department is available to assist you with your search for specific packaging: specifications analysis, proposal for a custom solution, testing by an accredited organisation, etc.)

## WHY CHOOSE A COLLAPSIBLE PLYWOOD BOX?

- > **3 times lighter** than a traditional wooden box with the same dimensions
- > Flat delivery = 90% storage space savings and **reduced shipping costs**
- > Fast one-person assembly and the use of an **integrated locking system** thanks to metal tongues
- > High drop/impact **resistance** during handling and high moisture resistance
- > Plywood enhances your company's **brand image**
- > Useable for **any type of shipping**: air-land-sea
- > **Customisable**: logo printing, pictograms, etc.
- > **Wide range of accessories** available: lifting straps, metal handles, sealing system, aerator, toggle latches/hinges, etc.

## Our team is here to assist you

Packaging is an integral part of your production and distribution cycle.

A successful project involves thoroughness at every step along the way:

- > analysing the nature of the product to be packaged (dimensions, weight, type of handling, etc.)
- > choice of box model that best suits your needs (reusable packaging, export, etc.)
- > drafting a price offer
- > providing technical materials (videos, certifications, assembly drawing, etc.)
- > after-sales service to address any queries you may have

Our in-house mastery of all of these skills ensures responsiveness on a daily basis so that you can remain 100% operational.
