

‘Kakato’ is the New Zealand Maori word for ‘delicious’. Thanks to its high-quality ingredients, natural flavours, and human consumable elements, Kakato® premium pet food is more popular among pets and their owners than other tinned pet foods sold in the market during the same period.

To continue the concept of pets healthy eating, Kakato® has launched a collection of dry foods and snacks to provide pets with a balanced diet and nutrition throughout the day.

Kakato® Freeze dried snacks use high-quality pure meat through freeze-drying technology, preserving the nutrition and freshness of the ingredients for both cats and dogs.

Papai® is a brand from New Zealand specially designed to take good care of pet health and total well-being. ‘Papai’ means ‘Good Quality’ in Māori language in New Zealand. Our professional collections are developed and formulated by worldwide veterinarians and microbiologists. Dedicated to bring excellent and trusted quality products including pet health supplements and advanced cat litter, Papai® safeguards the total health and well-being of pets, providing ultimate protection and care with scientific and innovative technologies.

Papai® Nano Anti-Bacterial Cat Litter redefines a higher standard of cat litter with exclusive innovative technology. Manufactured with our unique Nano anti-bacterial technology, its anti-bacterial efficacy is tested over 90%, certified by the Hong Kong Standards and Testing Center. This advanced and professional anti-bacterial cat litter is made from edible 80% pea flour and corn starch which is natural, flushable, biodegradable and environmentally friendly. Excellent odour control, outstanding water absorption ability and higher durability, Papai® Nano Anti-Bacterial Cat Litter represents the ideal choice for your cat.
