**CONTINENTAL EXTERIOR FILMS**

**WE MAKE YOUR HOUSE FEEL LIKE A HOME.**

## WE ARE ALL ABOUT LIVING SURFACES

WITH US, HOME IS MORE THAN JUST A PLACE - IT'S A FEELING

Home is more than just a building with four walls and a roof. It is a place full of small and big moments. From your child's first step to relaxing on the sofa at the end of a long day.

The surface around you play a big role to feel comfortable at home. Not only for the interior of your house, but also the exterior such as facade, doors and windows. These elements define the look and character of your house more than anything else.

## WOODEC & MATTEX ... AND IT FEELS LIKE HOME

WE MAKE WINDOWS AND FACADES STAND OUT

Being at home means feeling good. For our woodec decors, we are inspired by nature. Our Scandinavian-style wood decors stand out with their natural look and vibrant colors.

Deeply embossed and very matte, the surfaces look like real wood. The perfect partner for woodec: the matt-sandy mattex surfaces. They add significant value to building components and have the look and feel of powder-coated aluminum.

## COOL COLORS TECHNOLOGY

WITH US YOU ALWAYS KEEP A COOL HEAD

Black, grey and bronze - if you like dark window profiles, you'll love the cool colors technology. At Continental Exterior Films, we have developed the cool colors technology to reduce the heat build up of window profiles. Thus it protects the functionality of the window especially when using dark colors and decors. This considerably extends the service life of the windows and preserves their appearance for a long time.

### HOW COOL COLORS WORKS

Watch our video on cool colors!

## DIVERSITY MAKES THE DIFFERENCE

FROM FACADE TO OUTDOOR KITCHEN,  
WE MAKE ANYTHING POSSIBLE

A home must meet many different needs, both emotional and practical. Our products are just as versatile. Whether used for façades, window profile coatings, garage doors, or even outdoor kitchens, they always look stylish. Plus, they're easy to maintain and can be cleaned with just water and dish soap.

Here are the key benefits of Continental outdoor films:

- › A perfect mix of design and function
- › Durable, recyclable, and weather-resistant
- › Minimal cleaning and maintenance needed

## SURFACES FOR TODAY. AND TOMORROW.

WITH US, WINDOWS GET A SECOND CHANCE

Since 2021, we've partnered with Rewindo, a network promoting material recycling. In 2023, we helped recycle over 43,000 tons of old windows, shutters, and doors in Germany. Window profiles coated with Continental exterior films can be recycled directly without any extra processing.
