

"Supporting Creatives,
Create without limits!" -

Supporting Creatives, Across Every Discipline

At Meitrade, we support creatives & makers — from creative individuals to professional producers — with reliable cordage and material solutions. Our brands Paracord.eu, PawTex, and Leadr Rope serve a wide range of applications, from pet and equestrian products to furniture and technical use.

Rooted in maker communities but built for scale, we combine product expertise with dependable supply. Whether crafting by hand or producing at volume, we help makers create, improve, and build.

DOG LEASH ROPE

Paracord.eu is a world-leading supplier of genuine paracord, coated webbing, leather, and hardware, trusted by makers at every stage – from hobbyists to growing brands. With over 15 years of experience, we combine deep product expertise with one of the most complete ranges of cord, webbing, and hardware available online, all ready for direct shipment from our own stock and production.

As our customers grow, so do we. We support the journey from first project to professional production, offering materials that scale with your ambition.

We don't just supply materials – we enable makers to create, improve, and build.

PawTex

PawTex was born from a simple observation: pet accessory makers needed an affordable coated webbing material that could keep up with daily use, outdoor conditions, and the demands of working animals. Durable, vegan, waterproof, and available in a wide range of colours – we built it.

Lead Rope

Lead Rope is our signature rope line for dog lead makers, offering an extensive range of colours and patterns. Designed for both performance and visual appeal, it gives makers the freedom to create products that stand out.

The result is a lead that looks and feels like serious kit – because it is. Tightly braided, cleanly finished, and built to handle whatever your dog pulls you into. At the same time, the nylon offers a smooth, flexible feel in hand, making it comfortable to use even during longer walks.

Custom patterns and bespoke designs are available for those who want to go further.

We'd love to hear from you. Whether you have a question, feedback, or need support, feel free to reach out using the contact details below. Our team is ready to help and will get back to you as soon as possible.
