Kaindl and Kronospan at HOLZ-HANDWERK 2024

Experience HOLZ-HANDWERK from 9 – 22 March 2024 in Nuremberg! In addition to the highest product quality, the focus will be on functionality, formats, designs and surfaces. Discover comprehensive solutions and look forward to our extremely attractive range that leaves nothing to be desired.

When it comes to breaking new ground, the traditional Salzburg-based company has always demonstrated an innovative spirit when it comes to decorative wood-based materials. At HOLZ HANDWERK, Kaindl will be presenting the expansion of its anti-fingerprint collection, new plain colors with a matt-natural surface as well as bestsellers from the BOARDS Collection such as EVOKE oak and the veneered boards from the REALwood product line. The versatile combination possibilities of KAINDL products enable interior designers to create rooms as they wish and thus create a feel-good atmosphere.

Matt masterpiece - Ultra-matt surfaces in the spotlight

In the kitchen with the family, in the restaurant or in the hotel - annoying fingerprints can be found on surfaces everywhere. Cleanliness is crucial in all areas of life, and hygiene is becoming increasingly important. Customers are looking for practical solutions that require less maintenance but still offer perfection in terms of feel and appearance. KAINDL anti-fingerprint products reliably minimize fingerprints and are also highly resistant to mechanical and chemical influences. This makes them hard-wearing, easy to clean and maintain.

2190 OF Schwarz/Black

BOARDS. FLOORS. IDEAS.

In addition to the well-proven OPTIBOARD composite board with glued top layer laminate and the laminate laminate, the highly resistant KAINDL anti-fingerprint surface is now also available as OPTIFACED BOARD with direct coating in the format 2800x2070x19 mm in 10 trendy colors. Like the composite board, OPTIFACED has a high-quality MDF core board.

Produktaufbau | Product construction

OPTIBOARD

2790 x 1300 x 19 mm

Nature in its most elegant form.

As authentic as nature itself. The REALwood collection combines original wood veneer with high-quality processing to bring out the diverse spectrum of modern natural wood panels. The basis is formed by a large selection of core boards in combination with the 28 different veneers from the OAK, SOFT and HARDwood collection. The results are high-quality architectural and design objects that remain true to their natural origins and contribute to a positive indoor climate.

Endless variety

Kaindl boards are suitable for practically all areas of application in modern interior design. The WOODline CLASSIC & NATURAL decor panel product range represents the entire spectrum of what a wood decor can achieve - and a little bit more. The perennial favorite "Oak Evoke" with NATURAL TOUCH surface is also part of this decor family. In addition to the tried-and-tested natural colors, KAINDL presents the almost black "Infinity", which picks up on the current trend for dark wood tones, and the bright, youthful "Light", which with its pronounced color contrasts is perfect for combining with many plain colors.

But variety is also the order of the day when it comes to worktops. With the KAINDL worktop configurator, you can easily create your dream worktop in the best quality. Whether it's a kitchen unit, island solution, niche back panel, table top or side panels.

Responsibility starts directly in the forest

KAINDL products are ecologically valuable, conserve resources and offer a high degree of freedom in design and processing. Wood is the natural basis of our ideas. We mainly process local woods into high-quality and sustainable products. Our responsibility towards the environment starts right in the forest.

Save the date "19.-22.03.2024" HOLZ HANDWERK trade fair. We look forward to welcoming you in March in hall 12.0 / stand number 12.0-919.
