FACTORY
PetDreamHouse

Brief Story of

PetDreamHouse

2000 Children Toy Manufacturer

Back in 2000, the family started a plastic injection factory in China, making high quality children toys for EU and US customers.

2011 Pet Product Wholesaler

In 2011, we set up a pet product wholesale business in the UK, distributing premium brands to independent pet specialists as well as major stores.

2015 PetDreamHouse Marketplace

After four years of trading, PetDreamHouse B2B Marketplace was born as a FREE online platform providing seamless marketing and wholesale experience to the UK pet trade.

2018 PetDreamHouse Factory

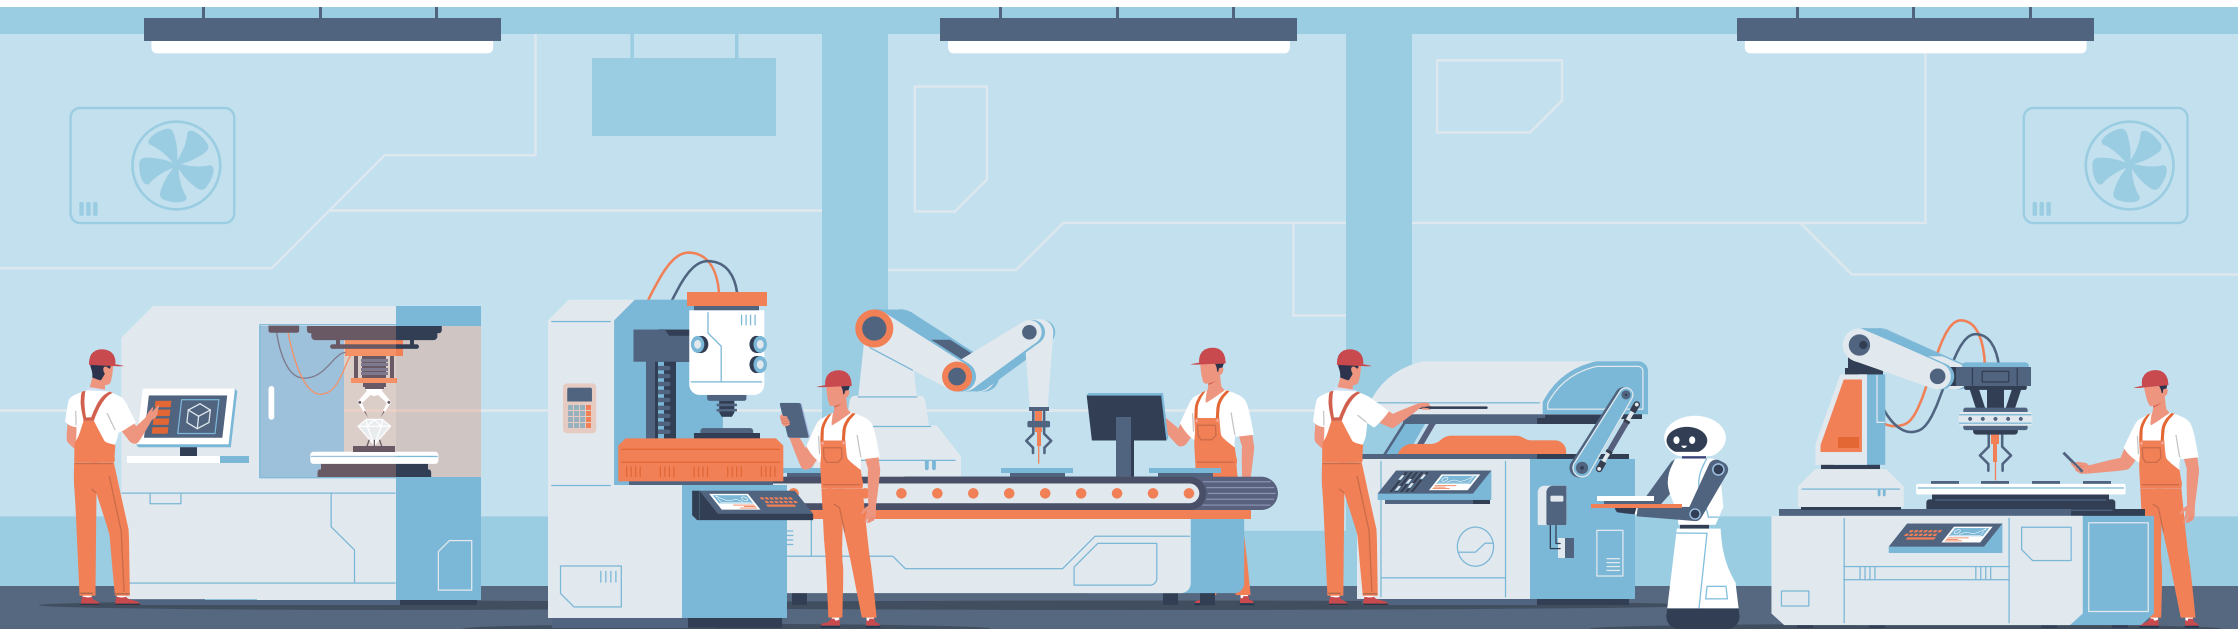

With the increasing demand of pet product manufacturing, PetDreamHouse Factory was founded and began to offer human quality customised pet products to our client.

2020 Our Own Brand

We launched our own brand - focusing on fun and interactive pet products that can benefit physical and mental health for pets. On Feb 2020, we were awarded as the winner of PATS Dog Accessories and Toys in the UK.

2024 Complete NPD Service

Bring our home brand expertise in product design, branding, manufacturing, logistics, and distribution directly to you. Experience the efficiency and simplicity of a comprehensive, middleman-free service.

Discover Our Range of NPD Solutions

1

Retail Ready

Ideal for

- ✓ Quick stock replenishment
- ✓ Utilizing existing designs

You will get

- ▶ Ready-to-market product lines
- ▶ In stock (limited items) *
- ▶ Flexible MOQ
- ▶ Branded as PetDreamHouse Factory

Lead Time

5 – 30 days 

2

White Labeling

Ideal for

- ✓ Minor design adjustments
- ✓ Personalization

You will get

- ▶ Customized colour/packaging
- ▶ Design modifications (selected ranges)
- ▶ Graphic design support
- ▶ Branded as per your requested

Lead Time

30 – 60 days 

3

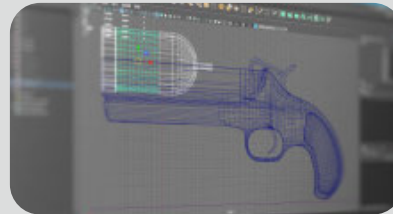

Conceptual Design

Ideal for

- ✓ Higher flexibility
- ✓ Adjustment on CAD files

You will get

- ▶ Drafting and 3D rendering
- ▶ Cost estimation
- ▶ Manufacturing to your standard
- ▶ Early feedback from UK pet shop buyers

Lead Time

2 – 4 months 

4

Customized OEM

Ideal for

- ✓ Developing new product ideas
- ✓ Refining existing designs

You will get

- ▶ All features from [3](#)
- ▶ Extensive market research
- ▶ Execution ideas from multiple roles
- ▶ Logistics and distribution support

Lead Time

4 months+ 

Have an Eureka Moment?

Transform Your Pet Product Ideas into Reality with
PetDreamHouse

Idea & Concept

Multi-Perspective Insights

Executing idea isn't the most pleasing step but it's probably the most important one. With first hand experience in the pet industry in the pet industry, we can provide a multi-role (designer, manufacturer, distributor, brand owner) feedbacks that shape your ideas for a higher chance to success.

Cost Estimation

Transparent Pre-Prototype Costing

Answering 'what is your order quantity' before knowing costs can be frustrating. Drawing on our extensive manufacturing experience, we offer an early cost estimation, including tooling, unit costs, and MOQ details, even before prototyping begins.

Manufacturing

amfori BSCI, ISO9001:2015 Certified

We specialize in quality products with high safety standard such as kids' toys, baby cutleries, pet feeders, dog chew toys, etc. With decades of experience, we ensure top-quality production that adheres to ethical and sustainable practices.

Global Logistics

Direct to Your Warehouse

We offer shipment quotes and can arrange direct delivery to your warehouse, simplifying your international shipping needs.

Marketing Assets

Professional Marketing Materials Support

Boost your marketing with our professional assets, including highquality images, videos, and detailed product spec sheets, all crafted to PetDreamHouse's high standards.

Product Launch Support

- ☒ www.petdreamhouse.co.uk
- ☒ Home brand global distribution network

Leverage our exclusive distribution support to amplify your product's reach, creating a significant buzz in the pet industry through our UK Marketplace, which connects with over 6,000 pet trade businesses.

Your product is ready-to-launch

Crafted through the same meticulous process that shapes our home brand.

Material Cost Insight

Please be aware that the estimated raw material costs are just initial insights and do not reflect the final price of the product.

Gas-phase Silicone

Quality begins with the right material. Different from precipitated silicone, gas-phase silicone refers to a process in silicone production, offering enhanced durability, increased elasticity, and maintains its quality under a broader range of temperatures, making it perfect for products designed for diverse uses.

		Size(cm)	Weight	Est. Material Cost
	Bowl Placement	58 x 35 x 0.1	200g	\$ 1.20
	Food Can Lid	Ø 9 x 1	70g	\$ 0.50

Thermoplastic Elastomers

TPE(Thermoplastic Elastomers) material is renowned for its flexibility, recyclability, and long-lasting durability. Ideal for a range of products including pet toys, chewable and feeding accessories. Our products are crafted from FDA compliance TPE ensuring safety and reliability.

		Size(cm)	Weight	Est. Material Cost
	Dental Toy	13 x 5 x 3	100g	\$ 0.60
	Grooming Brush	12 x 9 x 3	59g	\$ 0.35

100% Natural Rubber

Natural, Durable, Eco-Friendly.

Our products are crafted from 100% Natural Rubber, striking the perfect balance between durability and respect for the environment. Noted for its resilience and longevity, Natural Rubber is also biodegradable, making our products a sustainable choice that doesn't compromise on quality.

		Size(cm)	Weight	Est. Material Cost
	Chew Toy	Ø 12 x 1.5	90g	\$ 0.60
	Tug Toy	32 x 10 x 2	300g	\$ 1.75

Hard Plastic

We specialize in a wide array of hard plastic products, utilizing materials like PP/PE, ABS, Nylon, and PET. Each offers unique properties to perfectly suit your needs. Additionally, we use recycled materials whenever feasible, minimizing our environmental footprint.

		Size(cm)	Weight	Est. Material Cost
	Slow Feeder	Ø 20 x 4	250g	ABS: \$ 0.75 PP: \$ 0.38
	Poop Bag Holder	Ø 5 x 15	50g	ABS: \$ 0.15 PP: \$ 0.08

PetDreamHouse

ABOUT US

At PetDreamHouse, we're passionate about helping pets live their best lives with innovative products that are enjoyable and beneficial to their health and mental stimulation. Our Interactive Feeding System (IFS) focuses on creating engaging feeding accessories that make mealtime captivating.

Introducing the PAW range, our delightful paw-shaped feeders, perfect for raw feeding! These creative designs encourage slower eating, reducing bloating risk. The range also includes enticing lick pads that promote active licking, alleviating stress and improving digestion.

Our dynamic SPIN range offers a modular interactive feeder system, allowing pet owners to effortlessly upgrade and swap inner spinners for an exciting and cost-effective pet feeding experience. These vibrant pet bowls inspire natural behaviours like sniffing, licking, and problem-solving, resulting in a slower eating pace and minimizing potential hazards associated with fast eating.

At PetDreamHouse, we're committed to developing imaginative pet products that fuse fun, health benefits, and mental stimulation, ensuring pets' happiness and well-being while providing an enjoyable and interactive experience for pets and their owners alike.

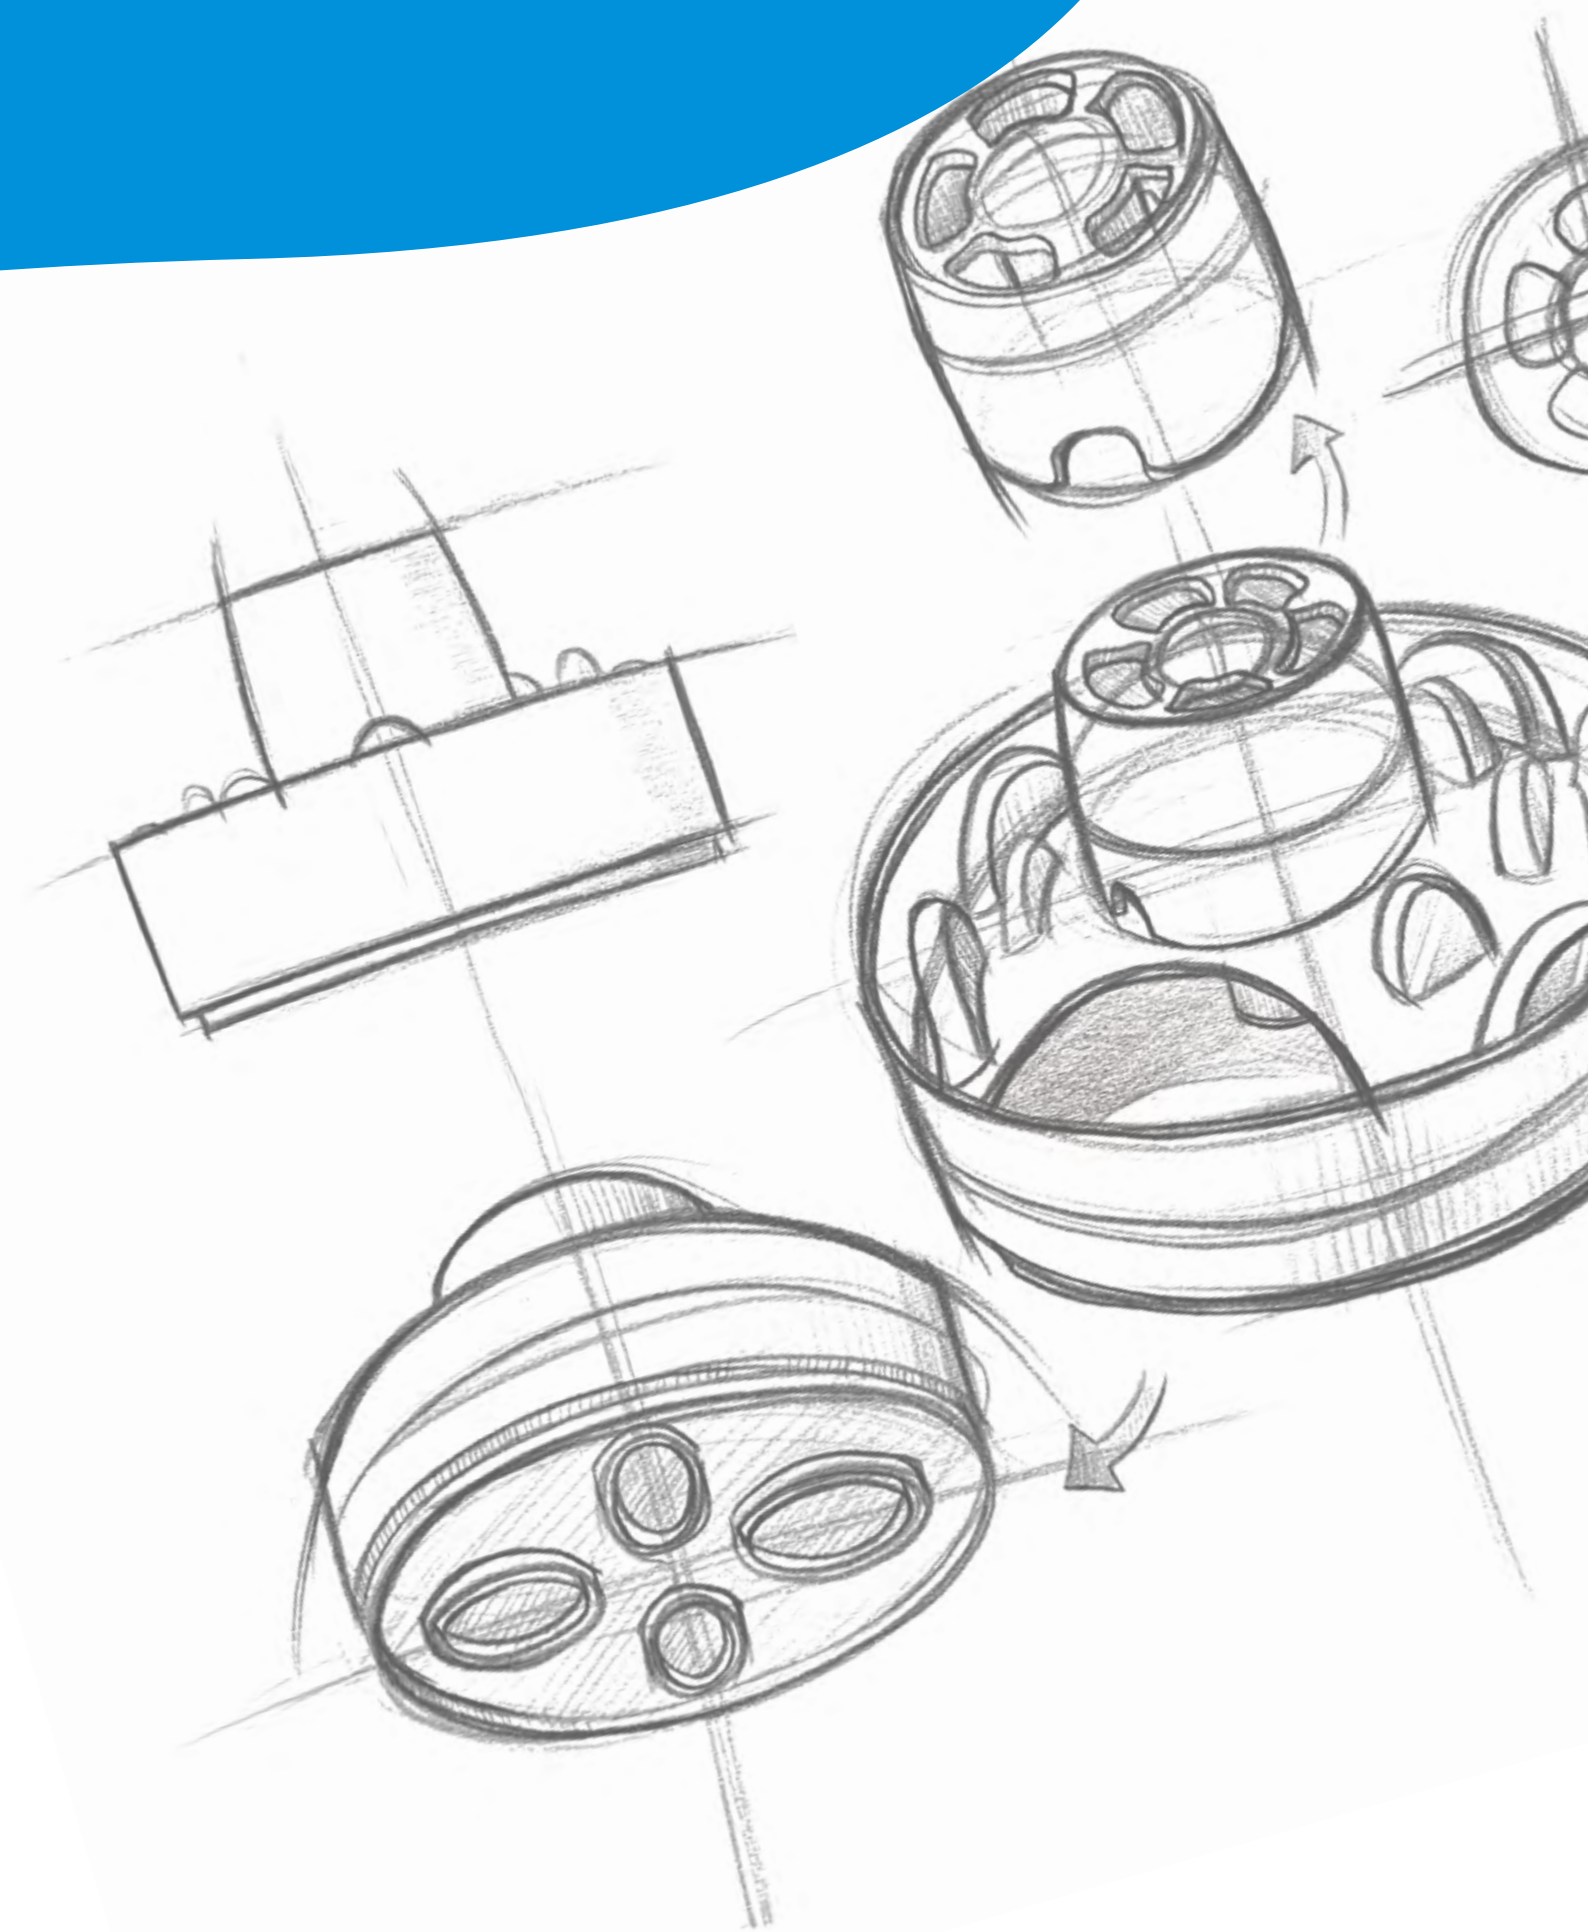

OUR PHILOSOPHY

PetDreamHouse offers dynamic, functional, and eco-friendly products that prioritize the well-being of your four-legged family members. Manufactured exclusively in our family-owned factory, all PetDreamHouse products adhere to the ISO 9001:2015 standard and use high-quality, FDA-compliant materials, including recycled plastic that is both environmentally responsible and safe for pets.

Our dedication to environmental responsibility goes beyond premium materials – our SPIN feeders are thoughtfully designed with separate bases and functional components.

By embracing a modular approach, PetDreamHouse encourages customers to purchase only the accessories they need for additional feeding games, making it a cost-effective and eco-conscious solution. This innovative design saves up to 50% of plastic usage, showcasing our commitment to reducing plastic pollution and ensuring a more sustainable future for our planet.

PAW

- PAW SLOW FEEDER
- PAW LICK PAD
- PAW 2-IN-1
- PAW 2-IN-1 for Cats & Small Dogs

Serve Up Homemade Recipes with a Creative Twist!

Interactive

Fun

Healthy

● PAW SLOW FEEDER

A delightful and innovative feeding plate that separates food into multiple mini-bowls, encouraging a slower eating pace and reducing the risk of bloating. We believe in transforming mealtime into an enjoyable slow feeding experience, rather than simply making it challenging to eat.

An Eye-Catching PAW

Slow feeder paw-shaped platter for dogs designed for stimulation and paced eating. Come with two sizes: Large 36x30x3cm. Small 20x18x3cm

Interactive:

The PAW Slow Feeder slows eating by dividing up a dog or cat's food into multiple shallow compartments where food is dispersed wide vs deep.

Anti-Skid

Featuring four large anti-skid rings, our design offers superior stability compared to standard rubber dot designs, ensuring a secure and fuss-free mealtime experience for your pet.

Non-Tip

There is no lip or edge that the dog could use to flip the PAW Slow Feeder.

High Quality

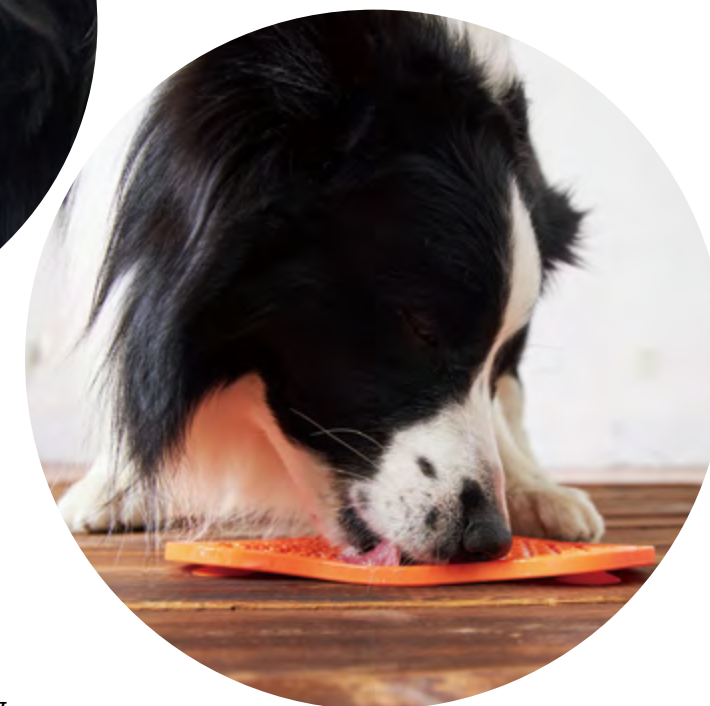

Human standard food-grade materials, BPA-Free, PVC-Free. Dishwasher safe (top rack). Freezer friendly.

● PAW PAD

Active licking keeps the pet calm and entertained. It can also stimulate saliva production to improve digestive health. Spoil your four-legged friends with a healthy food licking game using the soft PAW Pad. It is perfect for sticky treats like yogurt, gravy, soggy biscuits or peanut butter.

Active Licking

Smear wet food or sticky treats on the PAW Pad to encourage active licking it's another great way of slow feeding your pets!

Suction Cup Base

Each unit comes with three suction cup feet at the back and can also be used vertically as a distraction pad.

High Quality

Food-grade TPE materials, BPA-Free, PVC-Free. Dishwasher safe (top rack). Freezer friendly.

Reduce anxiety

Apart from the yummy taste, licking also stimulates the release of endorphin (the "feel good" hormone) which gives a feeling of comfort and pleasure to reduce anxiety.

Distract

With three suction cups on the back of every lick pad, pets are sure to be entertained making grooming a breeze! Stick the pad to a variety of surfaces like windows, fridge door, walls or bathtub.

● PAW 2-IN-1

PAW SLOW FEEDER &
PAW PAD

The PAW 2-in-1 combines a slow-feeding dish with an interchangeable lick pad, promoting healthy eating habits and reducing bloat risk. The feeder accommodates various food types and the lick pad helps alleviate anxiety, entertain during bath time, and cool down pets on hot days.

The PAW 2-in-1 Mini is a lively, compact feeding solution your feline friends will love! This clever design merges a whisker-friendly slow-feeding dish with an interchangeable lick pad, encouraging healthy eating habits while reducing bloat risk. Suitable for various food types, the lick pad also eases anxiety and keeps your kitty engaged. Make mealtime delightful and engaging with the PAW 2-in-1 Mini Slow Feeder & Lick Pad!

Spin

Interchangeable Parts

Spinners: Mix
& Match for
Endless Fun

SPIN is a dynamic pet bowl that turns meals into fun and interactive slow feeding games. The patent-pending system encourages behaviours such as sniffing, licking, problem-solving during meals, which naturally slow the eating down and prevent choking or other potential hazards from fast eating.

SPIN

WINNER of Dog
Accessories and Toys

Interactive

Unlike stationary slow-feeders, pets actively engage with the bowl's moving and interchangeable components providing a moderately different feeding experience at each meal. These game-like feeders keep dogs/cats entertained during meals while also exercising their minds.

Multi-function

The functional parts can be fixed or adjusted in height to offer more variations. Or simply flip it over to create a whole new option!

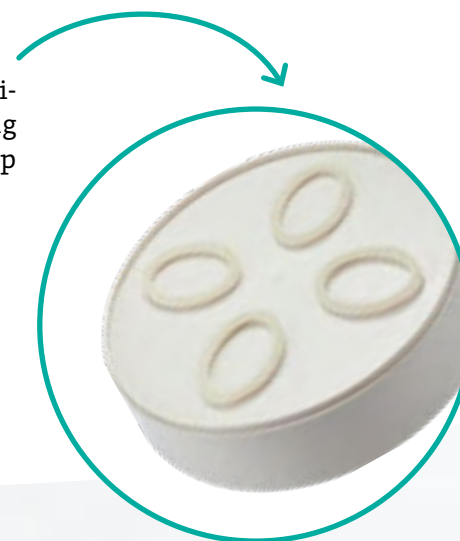

Interchangeable Parts

The rotating parts can be easily replaced with new designs. Not only your money is saved from buying another complete unit, but also up to 50% plastic used are saved from making them!

Anti-skid and suction cup base

Experience superior stability with SPIN's four large anti-skid rings, designed to keep the bowl in place during mealtime. Each SPIN also includes a double suction cup with added security.

High Quality

Human standard food-grade materials, BPA-Free, PVC-Free. Dishwasher safe (top rack). Freezer friendly.

SPIN UFO Maze

SPIN UFO Maze is an advanced interactive food dispenser. By rotating the disc underneath, food can be gradually released via gravity from the two adjustable openings of the storage cap. The connection between **action**(rotating the disc), **reward**(food released from the openings when rotating) and **challenge** creates a fun feeding game and excises dog's mind.

Make a Difference

50% Recycled Plastic

The hard plastic used in the SPIN Accessorie ranges is made with 50% recycled PCR-ABS from LG Chem - a GRS-certificated materials supplier.

GRS Certificated Number: [N23905-G4-2021-00460200](#)

100% Recyclable

The recycled plastic is also fully recyclable and as safe as the virgin ABS resin, passing the human food grade standard test such as FDA & CA65.

Sustainable Design

Each SPIN accessory provides a unique interactive feeding game when added to the SPIN base. Since we only produce the compatible functional unit and reuse the SPIN base for every new game we develop, it significantly reduces the total plastic usage and price per unit.

Our Commitment

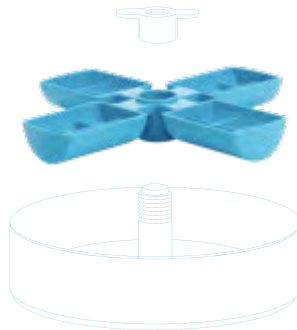

We focused on using sustainable recycled plastic to play a positive impact in protecting the environment. We also take measures on various aspects to reduce consumption of CO2, energy and other resources.
