

SPOTTING SCOPE ADAPTERS

The **MAGVIEW® S1 and S1 Mini** now features **SYNC™** — our self-aligning magnetic system that aligns your phone with your optic for faster, more accurate digiscoping. Built-in rare-earth magnets seamlessly connect your device without the need for bulky adapters or cases. Flip open the cap, connect your device, and SYNC takes care of the alignment—so you're always ready to capture the moment.

When not in use, the optic adapter shields the eyepiece from dust and moisture, keeping your glass clean and clear.

The S1 or S1 Mini kit includes:

- **S1 or S1 Mini Optic Adapter**
- **Universal Phone Plate (x1)**
- **SYNC Self-Centering Disc**
- **Mounting Hardware**
- **No Additional Phone Adapters Needed**
