

## StreamKit1955

Dante-enabled reference platform for faster embedded audio product development

### Benefits

#### Comprehensive software

Powered by StreamSDK with support for all major music streaming services.

#### Fast-time-to-market

Stream1955 and StreamSDK handle the most complex parts of connected device development.

### Applications

#### Pro audio

Active speakers, streaming receivers

#### Immersive systems

Multichannel soundbars & installations

#### Smart products

Home automation, Wi-Fi IoT devices

#### Installed audio

Public spaces, venues, custom setups

### Stream1955 Module Features

#### Processing & Memory

Quad ARM Cortex-A53 (1.8 GHz)

8 GB DDR4 Memory

32 GB eMMC (16 GB pSLC mode)

2× 80-pin Connector Interface

#### Connectivity & Audio

Wi-Fi 6 (2×2 MIMO)

3D Audio Decoding (no external DSP)

MEMS Microphone Compatibility (PDM)

2× 80-pin Connector Interface

Up to 2 USB OTG Ports

Control via I<sup>2</sup>C, SPI, UART
