

### Easy to give

WelliChews™ are easy to give when you are on the go and can fit perfectly into your daily life. Soft chews are often more appealing to pets than traditional pills or capsules, making them a convenient pet supplement with versatile health benefits.

### Great taste

Our soft chews are a smart way for modern pet parents to give their furry friends something tasty that supports their well-being. Many pets enjoy the taste and texture of soft chews, making it a perfect choice to provide necessary supplements.

### High-quality ingredients

WelliChews™ are based on veterinary and pharmaceutical expertise. We use only well-known and high-quality active ingredients with proven effectiveness. The unique formulation and balanced combinations provide targeted wellness from head to tail.

# WelliChews™

## Wellness in every bite

Your pet will fall head-over-paws for WelliChews™! A new tasty and functional soft chew loaded with health benefits for happy wagging tails. Easy to give with a taste your pet will adore, WelliChews™ is targeted wellness for everyday good life.

From head to tail, securing your pet's health is at the heart of being a pet parent, and it should always be safe and hassle-free. WelliChews™ enhance joint health, support the digestive system, boost the immune system, promote overall health, and improve the vitality of senior dogs. With these different health benefits, it is now easy to do good while you play, train, or just want to show your pet some extra love.

Targeted wellness

## DIGESTION

### Supports Digestive System

WelliChews™ Digestion Soft Chews offer the ideal solution for promoting your pet's digestion and overall well-being. Crafted with a powerful Triple-Action Prebiotic, Inulin, and Psyllium Husk Powder, these chews provide a holistic approach to boost gut health, enhance nutrient absorption, and maintain regular bowel movements. WelliChews™ Digestion ensures reliable digestive support for your cat or dog.

## MULTIVITAMIN

### Promotes overall well-being

### Boosts Immune System

WelliChews™ Multivitamin Soft Chews support your pet's well-being and promote vitality and overall health. Loaded with essential vitamins A, C, D, E, B-complex, Magnesium, and Zinc for optimal nutrition. They boost the immune system, strengthen bones, support skin health, aid energy and nerve function, promote muscle health, and strengthen immunity and skin for a healthy, happy companion.

## JOINTS & MOBILITY

### Enhances Joint Health

WelliChews™ Joints & Mobility Soft Chews are a specially formulated solution to promote joint health and mobility in pets. Each chew contains Glucosamine, MSM, and Chondroitin to support cartilage structure, collagen formation, and cartilage protection. WelliChews™ Joints & Mobility provides reliable support for your pet's joints and mobility.

## CALMING

### Relieves stress & anxiety

WelliChews™ Calming Soft Chews are advanced soft chews for relieving stress and anxiety in pets. Formulated with L-Tryptophan to boost serotonin, L-Arginine for nitric oxide production, and Passion & Chamomile Flower to soothe the nervous system. These soft chews offer consistent relief from stress, separation, or travel anxiety. WelliChews™ Calming is the ultimate stress relief solution for dogs and cats.

## SENIOR HEALTH

### Vitality for senior pets

WelliChews™ Senior Soft Chews sustain your pet's vitality by boosting immunity, cardiovascular health, and providing natural joint support. Omega 3 EPA+DHA, Green Lipped Mussel, and Glucosamine support joint health, coat condition, and overall well-being. WelliChews™ Senior provides flexibility and mobility for ageing or arthritic dogs and cats.
