

# Quantum-secure email system to protect your business

 **10.000+**  
Business customers

 **Quantum-resistant  
encryption**

 **Made in Germany,  
Hosted in Germany**

 **Zero Access  
Architecture**

Tuta is the world's first fully encrypted, quantum-secure service for email, calendars, contacts, and file storage. Thanks to quantum-secure cryptography, enforced two-factor authentication, outstanding spam and phishing protection, and a zero-access architecture, Tuta is the best solution to keep your business data safe.

**TUTA SOLUTIONS:** Desktop clients and mobile apps for Android and iOS with automatic updates.

## Tuta Mail

Encrypted email service that automatically protects subject lines, content, & attachments.

✦ Key functions:

- Quantum-resistant, end-to-end encryption
- Encrypted emails to anyone
- Archiving
- API for business software
- Shared mailboxes
- Schedule send
- One-click import

## Tuta Calendar

Fully encrypted calendar – seamlessly integrated into Tuta Mail.

✦ Key functions:

- Encrypted appointments, metadata & notifications
- Confidential invitations
- Central team calendars
- Multi-calendar view
- Cross-device synchronization
- Mobile apps with widget (Android & iOS)

## Tuta Drive

Encrypted cloud storage & secure file storage.

✦ Key functions:

- Quantum-resistant, end-to-end encrypted file storage
- Securely share business secrets and personal data
- Fast and secure sync across devices

- **Zero Access Architecture**
- **Quantum-secure cryptography**
- **Two-factor authentication**
- **One-Click Migration**
- **GDPR compliance**
- **Hosting exclusively in Germany**

# Why Tuta is perfect for your business

- Full control & digital sovereignty
- Maximum security & data protection
- Full migration in one day

## YOUR SOLUTION FOR SOVEREIGN COMMUNICATION

# 1

### CONTROL & DIGITAL SOVEREIGNTY

- Data ownership remains with the company
- Hosting & legal services fully in Germany

Full control over sensitive data - without relying on non-European cloud providers or legal grey areas.

# 2

### SECURITY & COMPLIANCE WITHOUT ADDITIONAL COST

- End-to-end encryption
- Quantum-secure (future proof)
- GDPR & GoBD compliant

Highest security and compliance standards - without additional tools or complex configuration.

# 3

### QUICK TO SET UP & EASY TO USE

- Migration in one day
- Minimal training required
- Clients for all devices
- Central administration

All data is securely encrypted and hosted in Germany - no need for your own mail server

PROBLEM	TUTA SOLUTION
Migration takes months.	One-click migration from Microsoft 365 or Google Workspace.
Company data must not be stored in the cloud.	All data is encrypted end-to-end before being uploaded to Tuta servers, so that only you can access it.
The software needs to send automated emails.	We offer a modern interface and are happy to assist with the integration of your software.

You are just one click away from your quantum-secure future.

# Embracing Sustainability: Tuta's Commitment to a Greener Future

 **10.000+**  
Business customers

 **Quantum-resistant encryption**

 **Made & hosted in Germany**

 **Zero Access Architecture**

Tuta is committed to making the web a better place, not just in terms of security but also when it comes to sustainability. That's why every step we take at Tuta is not only measured by how users' privacy is protected, but also by how we can achieve this with as little impact on the environment as possible.

## WHAT TUTA DOES TO BE SUSTAINABLE

### **With <1g CO2/user/year Tuta is almost CO2-neutral**

Tuta is the perfect choice if you strive to have as little impact on the environment as possible. All data is stored on our own secure servers powered with 100% renewable energy.

### **Investing into a greener future**

Taking on responsibility: Our offices' electricity comes from a renewable energy provider that actively invests into building new facilities for producing renewable energy.

 You are just one click away from your quantum-secure future.

# Your email infrastructure for digital sovereignty

 **10.000+**  
Business customers

 **Quantum-resistant encryption**

 **Made & hosted in Germany**

 **Zero Access Architecture**

Tuta was launched in 2014 in Hanover, Germany, as the first end-to-end encrypted email provider. Since then, Tuta has pushed the boundaries for secure, sovereign communication, becoming an established European alternative to Big Tech communication platforms. By combining quantum-resistant encryption with strict location policies, Tuta makes sure your business data is stored securely and inline with your data protection guidelines.

## **TUTA MAIL, TUTA CALENDAR, AND TUTA DRIVE ENABLE YOU TO COMMUNICATE WITH FULL CONTROL AND DIGITAL SOVEREIGNTY.**

- End-to-end encryption guarantees that data sovereignty remains with the company
- Tuta owns the servers that are located in ISO 27001 certified data centers located in Germany
- Tuta is its own ISP and not dependent on US services
- Hosting and legal matters lie entirely in Germany
- GDPR-compliant

Full control over sensitive data - without dependence on non-European cloud providers or legal gray areas.

You are just one click away from your quantum-secure future.
