

VMC domestic

NEW PRODUCT
RUCTS EVO - mc/h 25/60
Decentralized heat recovery unit.

NEW PRODUCT
RDCD20SK - mc/h 140/190
Centralized heat recovery unit.

RDCD25(E) - mc/h 160-150
Centralized heat recovery unit.

RDCD25SK(E) - mc/h 180-160
Standard and enthalpic centralized heat recovery unit.

RDCD25SKC(E) - mc/h 180-160
Standard and enthalpic centralized heat recovery unit.

RDCD25SKH(E) - mc/h 250-220
Standard and enthalpic centralized heat recovery unit.

RDCD25SKHC(E) - mc/h 250-220
Standard and enthalpic centralized heat recovery unit.

RDCD40-50SK(E) - mc/h 320-450
Standard and enthalpic centralized heat recovery unit.

RDCD40-50SKC(E) - mc/h 320-450
Standard and enthalpic centralized heat recovery unit.

NEW PRODUCT
RDCD30-35SK(E) - mc/h 250-350
Standard and enthalpic centralized heat recovery unit.

RDCD70SH - mc/h 570
Centralized heat recovery unit.

EH
Unit internal housing module on the wall.

RDCD300HCHN - mc/h 300
Heat recovery unit with dehumidification system with climate function.

RDCD500HCH - mc/h 500
Heat recovery unit with dehumidification system with climate function.

VMC accessories - domestic

NECKGALAXY
Grilles housing plenum box.

PLUGPVMCSH6
Distribution plenum with 4, 6 and 10 connections.

PLUGPVMSH
Grilles housing plenum box.

PLUGPVMCMR
Distribution plenum box supply/return.

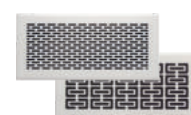

NEW PRODUCT
UNIVERSE
Multidirectional distribution plenum box.

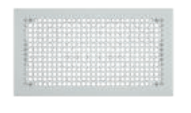

VMC grille

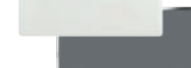

NEW PRODUCT
GRIGLIE VMC DESIGN MOON COLLECTION
ABS grille.

GRIGLIE VMC DESIGN
Steel grille.

VMBQ
Grille.

GRIGLIE MOON IN ABS
Grille.

FUTURE
Retractable grille.

LAF10VMC
Grille.

BROFER GROUP

The Brofer Group, through branches and affiliates, operates a network of strategic logistics hubs, ensuring efficiency, rapid delivery, and qualified technical support. Each location includes a showroom with training rooms and a 24/7 HUB24 service to support professionals and installers.

jannonedst

Naples

A company that joined the Group in 2021 moved immediately to a new facility in Volla, centrally located with respect to the entire Campania area. A flexible organisation combined with strong proximity to all customer needs are the distinctive traits of this important distribution company.

Affiliate

1000 m²
warehouse space
7
qualified professionals available
700
items ready for delivery

Steam.com

Rome

Originating from a business unit of a historic company from the Lazio region, it joined the Brofer Group in March 2026. STEAM offers customers a complete service, providing the components required for the construction of aeraulic systems along with design support.

Affiliate

3600 m²
warehouse space
17
qualified professionals available
2500
items ready for delivery

brofermi

Milan

The Milan branch, active since 2017, holds a strategic position for the entire Lombardy market. Efficient organisation combined with tailor-made technical solutions distinguishes this important local hub.

Branch

1600 m²
warehouse space
6
qualified professionals available
600
items ready for delivery

erregi

Cuneo

A company that joined the Group in 2024 has already launched a major expansion of the site, which will be completed in January 2025. A long-standing presence built on expertise is the distinctive feature of this leading distributor of air-handling products in North-West Italy.

Affiliate

BROFER VMC

BROFER STEEL

Brofer is an Italian company with over 40 years of experience, founded in 1981 and now a national and international benchmark in aeraulic solutions sector. Driven by continuous technological research, Brofer develops and manufactures components and accessories for ventilation and air conditioning, constantly expanding its range with innovative solutions. Its vision looks toward a future of healthy, sustainable air, while its mission is to improve people's wellbeing in domestic and professional environments. The distinctive value? Flexible products-also custom-made-capable of meeting the requirements of any project.

30.000 m²
across offices, production and warehousing
+180
employees, aeraulic specialists
4
sites in Italy, 3 dedicated to logistics

42
countries where Brofer is present
43 mln
turnover for the entire Brofer Group
1
Engineering & Testing LAB

Brofer VMC was born from Brofer's experience as a division dedicated to Mechanical Ventilation with Heat Recovery (MVHR/VMC) and indoor air quality. A journey focused on innovative solutions for air sanitisation and the improvement of air quality in domestic, professional and school environments. Brofer VMC promotes energy efficiency, the reduction of indoor pollution and awareness of the importance of breathing healthy air, making a concrete contribution to the wellbeing of people and the spaces where they live and work.

Brofer Steel is the division specialised in sheet-metal processing, equipped with a large and advanced technology fleet of machines. Through integrated punching, cutting, bending and welding systems, Brofer Steel guarantees precision, efficiency and production flexibility. The available technologies enable the management of complex processes and the manufacture of custom components, meeting high quality and production standards.

DIFFUSIONE

AQN
Four-way multidirectional diffusers with removable central section.

AQNP
Four-way multidirectional diffusers on 595 x 595 mm panel with removable central section.

AODPM
Multidirectional diffusers on panel with removable center section.

AQNT
Multidirection diffuser with 4 ways on 595x595mm panel and closed central plug.

UDM7
Supply and extraction multidirectional diffuser with removable filter.

DCA
Curved blades air diffusers with 1, 2, 3 or 4 throw directions.

BQF
Perforated face return grilles.

BQFSMF - Perforated face grille. Removable core for filter insertion and removal.

BQFP60
Perforated face square diffusers without frame 595x595mm.

BQC
Perforated face square diffusers with central plug, 595x595mm overall size.

DPI
Multidirectional high induction diffuser on panel with perforated plate and with flow diverter.

BOE
Swirl diffusers with adjustable throws.

BOS
Swirl diffusers.

BQSN
Swirl diffusers.

DMQN
Diffusers with adjustable nozzles on panel.

GUR
Diffusers with adjustable nozzles on panel.

GUC
Diffusers with adjustable micro nozzles arranged for circular duct.

GURG
Nozzle diffuser on plate.

PESP
Polystyrene plenum for panel diffuser.

PESPS
Plenum in plastic material for diffusers and grilles 595x595mm.

AOP
Oval spigot for flexible hose.

CFCRC
Circular diffusers with fixed cones, removable central core and butterfly damper.

DCSN-DCSNP
Circular diffusers with adjustable cones.

DEE
Fixed geometry circular diffusers with helical-effect.

DEES
Fixed geometry circular diffusers with helical-effect and circular perforated plate.

DCG
Variable geometry circular diffusers.

DU
Long-throw nozzle diffusers adjustable up to a maximum angle of 30°.

DUC
Long-throw nozzle diffusers adjustable up to a maximum angle of 30°.

VIP
Supply and return air valves.

EAV
Steel supply and return air valves with mounting collar.

DLF
Linear slot diffusers with blade deflector.

PDT
Multifunctional plenum kit for linear slot diffusers DLF / DLN.

DLN
Linear slot diffusers with drop profile deflector.

DLPCB
Linear slot diffusers with aerodynamic profile rotating deflector for large flow rates.

DLPCN
Linear slot diffusers with airfoil section rotating deflector.

DLDT
Linear slot diffusers with profile deflector adjustable.

DLDC
Linear slot diffusers for concealed installation.

DLAS - Linear diffuser single slot with deflector, frameless, with concealed installation, for wall or ceiling installation.

DLFL - Linear single slot diffusers with deflector, without frame for hidden installation, for wall or ceiling installation.

DLFFP
Filter linear slot diffusers.

ID
Inductive effect micro perforated duct.

GRIGLIE

BMA
Supply grilles with adjustable blades 20mm pitch in aluminium.

LAF
Grilles with fixed blades with 0° or 15° deflection.

LAFSMF
Fixed bars grilles with removable core for filter insertion and removal.

FUTURE
Fixed bar grille with retractable frame and removable central core.

BMC1
Grilles for circular ducts 20mm pitch.

GRA
Return grilles with fixed and 45° inblined bars 25mm pitch, in aluminium.

GRASMF
Return filter grille (bers inclined 45°). Removable core for filter insertion and removal.

GMA
Egg crate grilles 13x13mm pitch.

GMASMF
Egg crate grille. Removable core for filter insertion and removal.

GTA
Transit grilles.

SSA-SSE
Wall-mounted overpressure dampers 50mm pitch.

SSIA-SSIE
SWall-mounted overpressure dampers 100mm pitch.

GRP
Floor grilles composed of horizontal fixed bars with 12,5mm pitch.

GRPZ
Floor grilles composed of horizontal fixed bars with 12,5mm pitch, with frame.

GRPWF
Floor slot diffuser.

FTD
Floor twist diffuser.

GCAM
Round aluminium grilles. For flush-fitting. With mesh.

GCPP
Edill Series. Round universal plastic grilles with springs.

GCI
Round universal stainless steel grilles with springs.

GQI
Square and rectangular grilles surface-mounted.

PBZ
Galvanized steel plenum for suply and return grilles.

PBZU
Multifunctional plenum for grilles made of galvanized steel. Certified Class A according to EN 1751.

PBP
Polycarbonate plenum box with quick coupling.

CTFS
Modular couterframe for grilles.

BMAI
High volume industrial grilles with adjustable blades 50mm pitch, in aluminium.

GRAI
Industrial return grilles grilles with fixed and 45° inclined bars 60mm pitch, in aluminium.

AT
Tower for fresh air/exhaust air flow.

SPG
Sand-proof grilles for air intake in dusty environments.

FILTRAZIONI E SILENZIATORI

GTA
Sound proof transit grille.

GA1
Aphonic grille.

SRA10050
Sound attenuators.

SRAF50
Flexible circular sound attenuators.

SET
Aphonic splitters.

SO
Circular sound attenuators.

FMS
Filtering media.

FPF
Polyester flat filters.

FOMZA
Wavy metallic.

NTE
Rigid pocket filters.

FTFVA
Soft pocket filters.

FPMZ
High-efficiency filter panels.

PFAFLT
HEPA filters.

PFA
Plenum box for HEPA filter with low-turbulence air distribution.

PFANG60
HEPA filter plenum box with low-turbulence air distribution.

FANS

BVA
Fan boxes.

BVT
Fan boxes with trasmission.

CKM
In-line duct fans.

TCO
Centrifugal roof fans with horizontal discharge.

VCC
In-line centrifugal fans.

LA
Air curtains.

SMT
The centrifugal roof fans.

BVE 8 10 15 PLUS
Wall axial fans.

SPIRAL DUCTS AND CONNECTIONS

TS
Circular cross-section, galvanised sheet pipe.

B9-4 RC T IL PS V VF Bends 90°/45°, Reducer, T-Connection, Take-Off, Saddles, Coupling of ducts, Coupling of ducts.

EAPIB
Inspection flaps for square/round ducts.

EAN
Moulded pipe clamps for air ducts.

EAR
One-piece collar for air ducts.

CM
Commands for dampers to regulate air-flows in ventilation ducts.

INSULATORS AND ACCESSORIES

IPL
Polyethylene with adhesive.

BFLEX
Rubber insulation sheets.

NAL
Aluminium self-adhesive tapes for fixing, protecting insulation.

NAR
Aluminium self-adhesive tapes for fixing, protecting insulation.

NAC
Anticondensation tape.

GA
Damping pads.

PHD20
Sandwich panel 20,5 mm thickness.

CA
Aluminium tap-in collars.

REGULATION

SRC50
Volume control dampers.

SRC100
Volume control dampers.

SSZC100
Duct overpressure dampers 100 mm pitch.

EFI
Iris damper.

DBS
Circular Shut-off damper leakage. CLASS 4 ACCORDING TO EN 1751.

BDD
Circular overpressure dampers.

RPCM
Constant flow rate membrane regulators.

RPVC RPVR
Air flow constant regulators for circular and rectangular ducts.

CVAV
Circular variable air volume control dampers.

RVAV
Circular variable air volume control dampers.

BBV
Single duct variable flow boxes.

SDG
Drop eliminator.

FIRE PROTECTION

MDF25L
Rectangular fire dampers with mechanical actuator, sizes 100 x 200 / 800 x 600 mm.

MDF30EURO
Rectangular fire dampers with mechanical actuator or servomotor, sizes from 200 x 200 to 1500 x 800 mm.

BTT25M
Circular fire dampers with servomotor, diameters from 100 to 315 mm.

BTT30EURO
Circular fire dampers with mechanical actuator or servomotor, diameters from 200 to 800 mm.

FDFC
But
