

Established with a global vision, **Labthink** is a leading multinational technology company specializing in the development and manufacturing of **precision instruments and testing solutions for packaging materials analysis**. Labthink also provides expert **testing services** from its own state-of-the-art laboratory facilities.

With its operational heart in Jinan, China, and an international headquarters in Boston, USA, Labthink has strategically built a global presence to serve its diverse customer base. This network includes a crucial SAC IT Center in Hong Kong, a dedicated European branch in Germany, and an Asia-Pacific center in Malaysia, alongside a Middle East service center in Dubai. Supported by over 50 distributors and 30 service providers worldwide, Labthink is committed to **delivering high-quality testing instruments and exceptional services** that ensure the **quality and safety of packaging** across the globe.

The company provides high-performance [packaging material testing and quality control testing solutions](#). Labthink offers professional product R&D testing services, combining accuracy, reliability, and highly cost-effective. Labthink's instruments feature proprietary sensors, user-friendly tablets for data management and storage, and multifunction integration. A wide product range allows one-stop [packaging material testing solutions](#). Being a solutions provider dedicated to **quality control** and **innovation** across the **material testing** and food packaging sectors, Labthink empowers the clients by offering a comprehensive suite of resources: from **precision testing instruments for flexible packaging** and diverse industries, to **specialized package testing services** tailored for the food industry, and **consultative solutions** designed to optimize the business models of third-party laboratories.
