

EMS opportunity in France

Veoneer, your trusted EMS partner for high-quality and fast-launch production, tailored to meet the highest standards

Who we are

- As the world leader in Automotive Electronic Safety Systems, we bring **30+ years of experience in the manufacturing of high standard and complex PCBs**
- We offer available capacity to new clients following the recent carve-out of Active Safety business, with **last-generation SMT lines in France**

1 in 4 car built worldwide today is equipped with Veoneer's systems

24.8m Units manufactured in 2024 in France

0.32 ppm delivered on avg. to clients in 2024

What we do

- Product types:** ECUs, Pressure sensors, Pressure Tubes, IMU¹
- Main specs:** double sided PCBs, various formats & size of components
- High-end features:** EDR², cyber-security protection, night vision
- Special treatments:** varnishing, X-Ray inspection, etc.
- Veoneer Lab for in-depth testing:** EMC, environment, penetration tests

Are you...

What we can offer you

...seeking a **European partner** for independence and de-risked supply chain?

30+ years of experience in **manufacturing PCBs in France**

... demanding **high-quality products** that meet strict industry standards?

High-quality PCBs on last generation SMT lines

... requiring **products that perform reliably in harsh environments?**

Products manufactured to **excel in the toughest conditions**, ensuring reliability when it matters

... seeking robust **cyber-security** environment?

Cyber-secured processes and end products ensure total protection

... looking for **additional or "spot" capacity**, or for **flexibility in volume?**

Experts at managing vastly different production volumes and regular equipment changes

... **requiring assembly** in addition to PCBs?

We have several **running assembly lines** for multiple applications

... needing **rapid delivery**, timing is key for you?

As an EMS, rapid production readiness to reduce your time to market

... looking for a partner who can handle everything with **FSS in the long term?**

From Build-to-Print to FSS with Veoneer Labs we are able to offer comprehensive services
