

[grip taper]

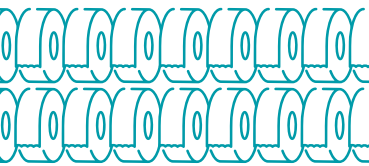

grip SYSTEMS®

“First to market, **GRIP® TAPER** is the automatic, water activated, tape dispenser...”

800m
OF WATER ACTIVATED
TAPE APPLICATION
PER BATTERY

...enabling biodegradable reinforced paper tape to be used by operators anywhere. Many operations globally turned to the multifunctional tape dispenser to improve their carbon footprint. Reinforced paper tape provides high security and protection to your parcels, without putting a damper on your environmental efforts”

TOTAL CONTROL

SEAMLESS INTEGRATION

GO ANYWHERE SOLUTION

LIGHTWEIGHT & PORTABLE

Handheld and battery operated, there are no limits to where the taper can go, overcoming the limitations of desktop machines.

GRIP® TAPER has multiple tape length and speed settings, enabling the user to adjust as required.

GRIP® TAPER may be compact and mobile but is designed to work just as effectively as desktop machines, only taking up half the space of traditional machines.

As part of the Grip Stack system, the elevated **GRIP® TAPER** clears messy and disorganized packing benches, making the packing processes much more efficient and less stressful.

Loaded Unit Weight
2.19kg
(includes tape and water)

Unit Length
26cm

Roll Change Time
10 secs
