

## TEST SETS

### QUICK TEST

For quick and precise measurement of pH, KH, GH, NO<sub>3</sub>, NO<sub>2</sub> and Cl

- + **test strips** for pH value, carbonate hardness, total hardness, nitrate, nitrite, and chlorine
- + quick and easy checking of the **most important water parameters** in **aquariums, garden ponds, or pools**
- + ideal for **regular monitoring** of water quality

description	contents	order code	quant./ pkg.	product group
Quick Test	1 pc.	04960	6	W1

## SINGLE TESTS

### PH TEST

For precise and easy measurement of the pH value

- + **monitor the pH value** in aquariums and garden ponds according to scientific standards
- + if fish and invertebrates are showing signs of **stress and feeling unwell**
- + **easy and safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
pH Test	15 ml	04310	3	W1

### KH TEST

For precise and easy measurement of the carbonate hardness

- + **monitor the carbonate hardness (KH)** in aquariums and garden ponds according to scientific standards
- + in case of **unstable water parameters** and **pH fluctuations**
- + **easy and safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
KH Test	15 ml	04210	3	W1

precise

for 420° dGH

how to

## GH TEST

For precise and easy measurement of the total hardness

- + monitor the **total hardness (GH)** in aquariums and garden ponds according to scientific standards
- + in case of general **deficiencies** in fish, invertebrates, and plants
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
GH Test	15ml	04110	3	W1

precise

for 60 x

how to

## AMMONIA TEST

For precise and easy measurement of the ammonium and ammonia level

- + monitor the **total concentration** of **ammonium** (NH<sub>4</sub><sup>+</sup>) and **ammonia** (NH<sub>3</sub>) in aquariums and garden ponds according to scientific standards
- + important parameter **for controlling** the biological filter function
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Ammonia Test	15ml	04910	3	W1

precise

for 75 x

how to

## NITRITE TEST

For precise and easy measurement of the nitrite level

- + **monitor the nitrite level** in aquariums and garden ponds according to scientific standards
- + for **new aquarium setups** and after cleaning the filter
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Nitrite Test	15ml	04410	3	W1

## NITRATE TEST

For precise and easy measurement of the nitrate level

- + monitor the **nitrate level** in aquariums and garden ponds according to scientific standards
- + in case of **increased algae growth** or poor plant growth
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Nitrate Test	15ml	04510	3	W1

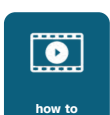

## PHOSPHATE TEST

For precise and easy measurement of the phosphate level

- + monitor the **phosphate level** in aquariums and garden ponds according to scientific standards
- + in case of **increased algae growth** or poor plant growth
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Phosphate Test	15ml	04930	3	W1

## IRON TEST

For precise and easy measurement of the iron level

- + monitor the **iron level** in aquariums and garden ponds according to scientific standards
- + in case of deficiency symptoms in plants, such as **yellow leaves**
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Iron Test	15ml	04610	3	W1

precise

for 60 x

how to

## OXYGEN TEST

For precise and easy measurement of the oxygen level

- + monitor the oxygen level in aquariums and garden ponds according to scientific standards
- + in case of **high water temperatures** or dense fish stocks
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Oxygen Test	15ml	04914	3	W1

precise

for 45 x

how to

## CHLORINE TEST

For easy and safe monitoring of chlorine

- + monitor the chlorine level in aquariums and garden ponds according to scientific standards
- + for **testing tap water**
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Chlorine Test	15ml	04810	3	W1

precise

for 7500mg

how to

## CALCIUM TEST

For precise measurement of the calcium level in 20 mg/l (ppm) steps

- + monitor the calcium level in aquariums according to scientific standards in **20 mg/l (ppm) steps**
- + in case of **poor coral growth**
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Calcium Test	15ml	04920	3	W1

## CO2 TEST

For permanently monitoring the CO<sub>2</sub> level

- + permanently monitors the CO<sub>2</sub> level in aquariums according to scientific standards
- + elegant glass container for **inconspicuous installation**
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
CO2 Test	15 ml	04320	3	W1

## MAGNESIUM TEST

For precise and easy measurement of the magnesium level

- + monitor the magnesium level in aquariums according to scientific standards
- + in case of **poor coral growth**
- + **easy** and **safe** to use for **precise water analysis**

description	contents	order code	quant./ pkg.	product group
Magnesium Test	15 ml	04714	3	W1
