CHANGZHOU CANBO TRAVEL PRODUCTS CO.,LTD.

COMPANY PROFILE

About Canbo : Your Trusted Partner in Pet Product Manufacturing. Established in 2011, Canbo is a leading integrated manufacturer and trading company with over 14 years of expertise in the pet product industry. Strategically located near Shanghai Port, we benefit from a prime location that ensures efficient logistics and seamless global distribution.

PROFESSION OUR EXPERTISE >

We specialize in designing and producing high-quality pet products, including pet beds, pet ramps, pet carriers, and more. Our dedicated R&D team is at the heart of our innovation, allowing us to offer comprehensive OEM/ODM services to meet the unique needs of our clients. With numerous product patents under our belt, we pride ourselves on delivering cutting-edge solutions that stand out in the market.

ATTITUDE

COMMITMENT TO QUALITY & CUSTOMIZATION >

At Canbo, we are committed to excellence. From concept to production, we ensure every product meets the highest standards of quality and functionality. Our ability to provide customized solutions has made us a preferred partner for global brands and retailers. Whether you're looking for innovative designs or tailored product lines, we've got you covered.

STRENGTH

GLOBAL REACH & MARKET RECOGNITION >

Our products are exported worldwide and have earned a strong reputation for their durability, functionality, and style. We take pride in being a trusted name in the pet industry, recognized for our ability to deliver products that resonate with both pets and their owners.

PROMISE

OUR PROMISE >

At Canbo, we believe in building long-term partnerships. By combining our manufacturing expertise, innovative spirit, and customer-centric approach, we are dedicated to helping our global partners achieve mutual success. Together, we'll continue to set new standards in the pet product industry.

Monitoring systems report for Chengde Gas Grid Project Co., Ltd.

MONITORING ID: 24-024813

Client: ANFAI Technology Research Center
Project Name: Chengde Gas Grid Project
Project Location: Chengde, Hebei Province, China
Project Start: 2024-01-15
Project End: 2024-03-31

Overall Rating: ★★★★★

SECTION RATING:

| | |
|---|---|
| P1.1 Social Management System | C |
| P1.2 System Assessment and Protection | B |
| P1.3 The Safety of System Operation and Maintenance | A |
| P1.4 System Reliability and Availability | B |
| P1.5 Data Reliability | B |

Overall Rating Legend:
 ★★★★★: Excellent
 ★★★★: Good
 ★★★: Fair
 ★★: Satisfactory
 ★: Needs Improvement
 ☆: Poor

United States Design Patent

Patent No.: US 9,873,286 E

Date of Patent: Dec. 26, 2023

Applicant: Chengde Gas Grid Project Co., Ltd.

Inventor: Chengde Gas Grid Project Co., Ltd.

Attorney: Chengde Gas Grid Project Co., Ltd.

Abstract: A monitoring system for gas grid projects, comprising a gas grid, a monitoring device, and a monitoring system. The monitoring device is configured to monitor the gas grid and transmit monitoring data to the monitoring system. The monitoring system is configured to receive the monitoring data and generate a monitoring report.

Claims: 1. A monitoring system for gas grid projects, comprising a gas grid, a monitoring device, and a monitoring system. The monitoring device is configured to monitor the gas grid and transmit monitoring data to the monitoring system. The monitoring system is configured to receive the monitoring data and generate a monitoring report.

United States Design Patent

Patent No.: US 9,893,313 D

Date of Patent: Nov. 24, 2023

Applicant: Chengde Gas Grid Project Co., Ltd.

Inventor: Chengde Gas Grid Project Co., Ltd.

Attorney: Chengde Gas Grid Project Co., Ltd.

Abstract: A monitoring system for gas grid projects, comprising a gas grid, a monitoring device, and a monitoring system. The monitoring device is configured to monitor the gas grid and transmit monitoring data to the monitoring system. The monitoring system is configured to receive the monitoring data and generate a monitoring report.

Claims: 1. A monitoring system for gas grid projects, comprising a gas grid, a monitoring device, and a monitoring system. The monitoring device is configured to monitor the gas grid and transmit monitoring data to the monitoring system. The monitoring system is configured to receive the monitoring data and generate a monitoring report.
