

POLO Srl

- Moving and Dosing of Refrigerant Gases
- Established on 1998
- Manufacturing and Financial address in Italy at the doors of Florence

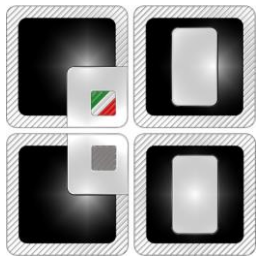

POLO Srl

Two main market Range of Products:

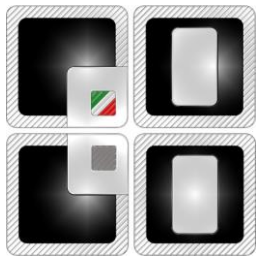

- Vacuum and filling of refrigerant gases for end user manufacturing lines as:
 - Domestic Refrigerators
 - Vending Machines
 - Air Conditioning
 - Car Automotive Fluid Filling
- Refrigerants gases moving and filling into:
 - Drums
 - Medium and Large Cylinder
 - Aerosol small bottle high production line

POLO Srl

Vacuum and filling of refrigerant gases for end user manufacturing lines, main Customers:

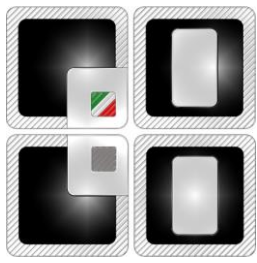

- **General Electric Appliances / USA**
- **Haier Appliances / USA**
- **Angelantoni Industries / Europe**
- **Husmann / USA**
- **Rheem / Mexico**
- **Carrier / Europe**
- **Lamborghini Automobili / Europe**
- **CNH Agricultural Machinery / Europe / South America**

POLO Srl

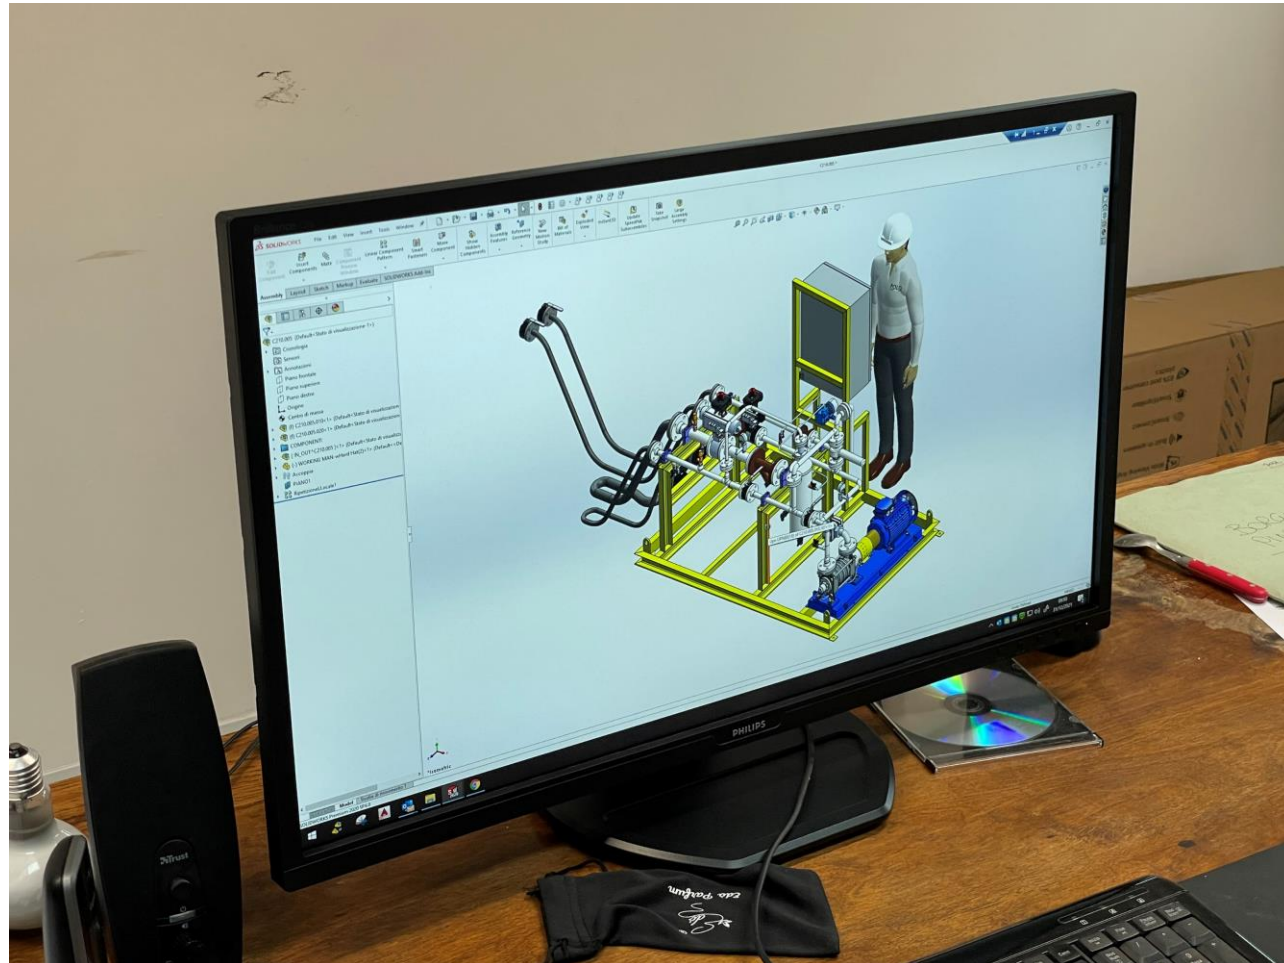

Refrigerant gases moving, dosing and filling into cylinders, main Customers:

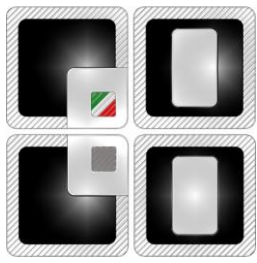

- **Rawabi Integrated Gas / Saudi Arabia**
- **Linde / Europe**
- **Nippon Gases / Europe**
- **EIS / Saudi Arabia**
- **Chempenn Group / USA**
- **Settala Gas / Europe**

POLO Srl

- In-house Electrical, Software and Mechanical Design
- 3D Mechanical Design by Solid Works Premium Software

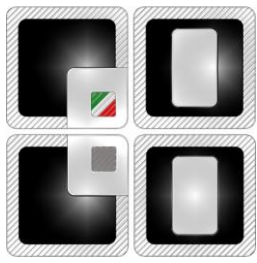

POLO Srl

- In-house Mechanical Workshop by Mazak CNC Work Centers

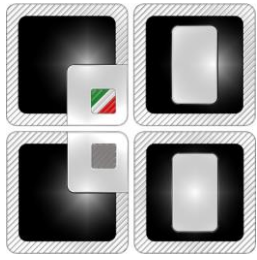

POLO Srl

- In-house high capability of Assembling and Testing for our Products

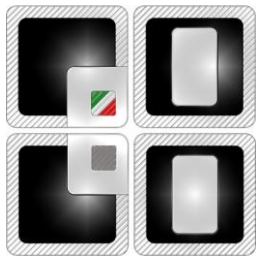

POLO Srl

- In-house PLC Software
