PFEIFER

Benefits, ROI & OEE

Improve your die handling

Greenfield

- automation-ready concepts
- early integration in factory layout
- standardized interfaces

Brownfield

- retrofit solutions
- semi-automation
- fast ROI

From risky crane handling to automated die change – for a measurable improvement in your overall equipment effectiveness (OEE).

Achieve quick changeovers
with PFEIFER solutions for:

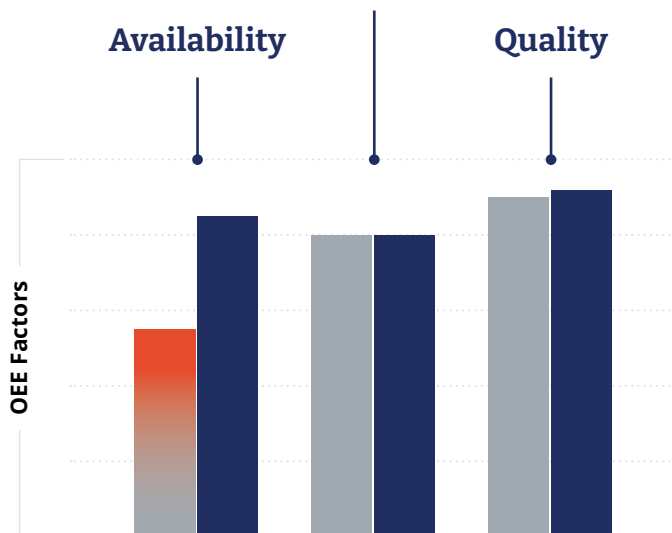

- + Handling
- + Separating
- + Turning

Performance

Quality

OEE Impact of Optimized Die Handling

Today, large
downtime losses

with PFEIFER, minimized
downtime losses

Reduced downtime losses. Enabling higher OEE.

Time savings

less downtime, higher efficiency

Productivity gains

more output in shorter time

Cost savings

fewer manual steps, less rework

Independence

less reliance on scarce skilled labor

Ready to optimize your die handling?

Let's start the conversation and create the solution
that fits your needs. Faster. Safer. Proven.
