

Pala Horse Skin

Product description: Pala Horse Skin is a firm, single-ingredient chew made from 100% horse skin. Its tough texture makes it a lasting treat for dogs who enjoy a good chew, and it's a practical choice for those needing something different from the usual proteins. This product fits well into a varied diet and is suitable for dogs with sensitivities.

Pala Naturals is a range of fully air-dried chews for dogs. Each product is made from a single animal ingredient, with no additives or preservatives. These treats are suitable for activation and stimulation and can be used as part of a healthy diet or as an addition to regular feeding.

Analytical constituents: Crude protein: 74.7% | Crude fat: 9.3% | Crude ash: 5.72% | Moisture: 12.8%

Size: 160x265x80mm

Weight: 100g

Instructions: Feed as a treat. Not for human consumption.

Pala Naturals Collection

Pala Rabbit Feet

Product description: Pala Rabbit Feet are air-dried chews made from 100% rabbit feet. They offer a novel texture and flavour, making them a useful addition for dogs who benefit from variety in their treats. The natural shape encourages chewing, which can help keep dogs occupied and support dental care as part of their routine.

Pala Naturals is a range of fully air-dried chews for dogs. Each product is made from a single animal ingredient, with no additives or preservatives. These treats are suitable for activation and stimulation and can be used as part of a healthy diet or as an addition to regular feeding.

Analytical constituents: Crude protein: 54.8% | Crude fat: 14.8% | Crude ash: 21.31% | Moisture: 9.3%

Size: 160x265x80mm

Weight: 100g

Instructions: Feed as a treat. Not for human consumption.

Pala Naturals Collection

Pala Sprats

Product description: Pala Sprats are whole, air-dried fish treats suitable for all breeds. Their small size makes them easy to use for training or as a daily snack, and they're a straightforward way to add fish to your dog's diet. The natural composition means they're a reliable choice for owners looking for simple, single-ingredient options.

Pala Naturals is a range of fully air-dried chews for dogs. Each product is made from a single animal ingredient, with no additives or preservatives. These treats are suitable for activation and stimulation and can be used as part of a healthy diet or as an addition to regular feeding.

Analytical constituents: Crude protein: 53.2% | Crude fat: 33.7% | Crude ash: 5.78% | Moisture: 7.3%

Size: 160x265x80mm

Instructions: Feed as a treat. Not for human consumption.

Pala Naturals Collection

Pala Goose Neck

Product description: Pala Naturals Goose Neck is a robust, air-dried chew made from 100% goose necks. Its size and texture make it suitable for medium and large dogs who enjoy a substantial treat. Goose necks can be a useful addition for dogs who benefit from longer-lasting chews and a bit of variety in their routine.

Pala Naturals is a range of fully air-dried chews for dogs. Each product is made from a single animal ingredient, with no additives or preservatives. These treats are suitable for activation and stimulation and can be used as part of a healthy diet or as an addition to regular feeding.

Analytical constituents: Crude protein: 50.3% | Crude fat: 22.0% | Crude ash: 19.6% | Moisture: 7.1%

Size: 160x265x80mm

Weight: 170g

Instructions: Feed as a treat. Not for human consumption.

Pala Naturals Collection

Pala Cod Skin Braid

Product description: Pala Naturals Cod Skin Braid is a braided, air-dried treat made from 100% cod skin. It's naturally low in fat and high in protein, making it a sensible choice for dogs who enjoy fish-based snacks or need a leaner treat. The braid shape encourages longer chewing, which can help keep dogs engaged.

Pala Naturals is a range of fully air-dried chews for dogs. Each product is made from a single animal ingredient, with no additives or preservatives. These treats are suitable for activation and stimulation and can be used as part of a healthy diet or as an addition to regular feeding.

Analytical constituents: Crude protein: 90.6% | Crude fat: 1.73% | Crude ash: 4.84% | Moisture: 8.35%

Size: 160x265x80mm

Weight: 80g

Instructions: Feed as a treat. Not for human consumption.
