SOLUTIONS
FOR INDUSTRIES

A close-up photograph of a bicycle's handlebar and seat area. The handlebar is black with a textured grip. The seat is covered in a bright blue, textured material. The bicycle frame is white. The background is dark and out of focus.

ENSURE YOUR **VALUABLE GOODS**
ARRIVE IN **PERFECT CONDITION**

ABOUT US

We, the NMC Group, are an internationally active and leading company in the development, production and marketing of synthetic foams that offer people comfort and protection in everyday life.

Founded as a family owned and run business in 1950, the NMC Group today employs more than 1,600 people at 25 sites worldwide. Together we strive to develop innovative, reliable and high-quality products. Moreover, the idea of service plays an important role for us: our service package has always included individual advice to find the best possible solutions for our customers.

With NOMAPACK® you have bespoke protecting solutions at your disposal to optimally equip your bikes for storage and transport.

Let us convince you too!

WHY NOMAPACK®

„Why NOMAPACK®?“ You may well ask yourself? The answer is simple – whether road, mountain or e-bike, carbon, aluminium or even bamboo, every bike should reach its destination damage free. We keep true to our guiding principle of „ENSURE YOUR VALUABLE GOODS ARRIVE IN PERFECT CONDITION“ precisely in order to make it possible. Furthermore, our profiles can be easily integrated into existing assembly lines.

Often, however, only custom-made products offer optimal protection. Thanks to our manufacturing processes, we can also offer technically high-quality components for your specific use. We would therefore be delighted

to develop, together with you, customized protection solutions that meet your specific needs.

Whatever solution you decide on, our engineers and employees in development and production are constantly working to meet NMC's quality standards. Over 70 years of experience plus a distinct spirit of innovation make for NOMAPACK® profiles of unique quality.

We pro-actively shape change

We challenge the Status Quo, working every day on improving and renewing, and aim to contribute to a better quality of life.

A close-up photograph of a bicycle's front end. The image shows a silver-colored frame, a black handlebar, and a blue fender. A black tire with a yellow sidewall is visible. The background is dark and out of focus.

We communicate openly and honestly

*Successful partnerships rely on mutual
understanding and trust. That is why we listen
to understand and communicate responsibly.*

A close-up photograph of a bicycle handlebar against a dark background. The handlebar is silver and has two bright blue, textured foam grips. The grips are shaped to fit the hand and are positioned on either side of the handlebar. The background is dark and out of focus, showing parts of the bicycle frame and a black tire with a yellow stripe.

We deserve to be trusted

*We act self-determined and with integrity,
are absolutely reliable and respecting
agreements and commitments.*

NOMAPACK® AT A GLANCE

FEATURES

- › Reliable protection against shocks and scratches during storage or transport
- › Freely selectable foam hardness grade
- › Profile with your brand name
- › Perfectly pre-cut for optimal surface contact on all types of shapes
- › Water repellent

ADVANTAGES

- › Reduction of packaging material
- › Ultra-light
- › Better product handling
- › 100% recyclable and contains recycled material
- › The multi-shock feature makes NOMAPACK® profiles repeatedly reusable

ALL-ROUND PROTECTION

Whether for complete bikes, frames or components, NOMAPACK® profiles offer the right protection for every part. In addition, our solutions can be easily integrated into existing assembly line production. Therefore: maximum protection and guaranteed product quality from production to delivery to the end customer.

NOMAPACK® U

The proven range consists of edge protection profiles for corners and curves of all kinds. With NOMAPACK® U you will always find the right protection for your product.

NOMAPACK® O

NOMAPACK® O offers a wide range of round profiles specially designed to protect round bodies or elongated objects.

NOMAPACK® WS

NOMAPACK® WS profiles offer ideal transport protection for chain rings. The additional inner hole reinforcement prevents gear wheels from piercing the profile.

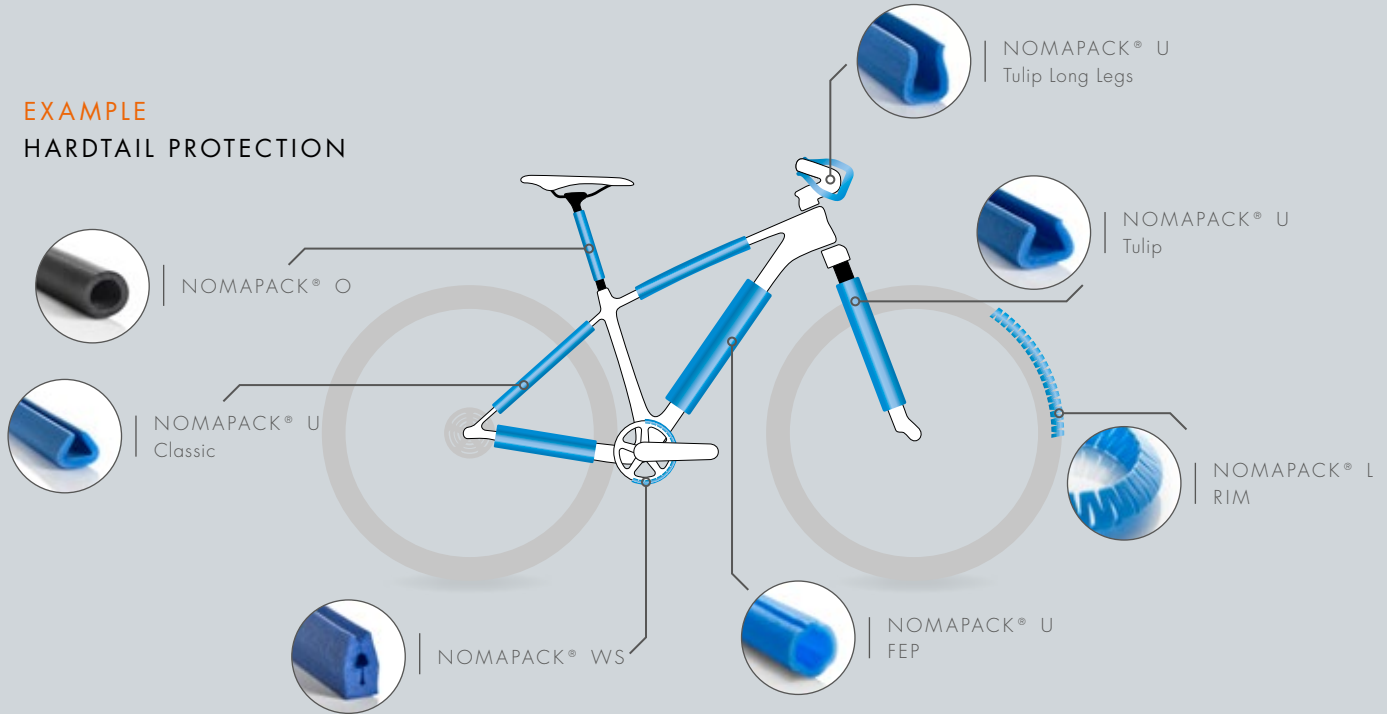

NOMAPACK® L

The specially developed NOMAPACK® L profile adapts to any rim to provide reliable protection against impacts of any kind.

HARDTAIL PROTECTION

CUSTOM-MADE

If standard will not suffice, if the suitable profile does not exist or you just want optimal protection, you can count on us. Together with you, we will develop the ideal solution for your application which can be adapted to the respective production process in your company.

Thanks to our engineers and project specialists, we offer you the advantage of short development times with comprehensive know-how for specific solutions to your needs and requirements. Our specialists will be in constant contact with you, during the joint development on site, regular feasibility checks, and the joint implementation of our components in your production. With NMC you not only get first-class products and components, but also all-round support from the idea in your development department to the finished product of your brand in your logistics centre.

WE ACT RESPONSIBLY

As a family owned and run business, NMC has always been aware of its responsibility for future generations. This awareness of energy efficiency, sustainability and climate protection in turn means that every single step in the development, production and distribution of NOMAPACK® is checked and optimized for environmental compatibility:

- › Energy consumption from own photovoltaic system covering 21 % of the site's electricity needs and based on 100 % green energy
- › In house recycling, where thanks to clever solutions almost 100 % of production waste is reused in a closed cycle
- › Minimised water consumption generated by closed circuits
- › Certified by ISO 14001 – the international standard for environmental management systems

*We consider sustainability in the long run
as the basic principle of our actions*

*We work for future generations and
encourage others, business partners and
collaborators, to do the same.*

INTERESTED

Please do not hesitate to contact us without any obligation, so that we can help you to bring your bikes safely to their destination.
