Zepo.

The **next attack** on your company could **sound exactly like your CEO**

Vishing and deepfake attacks are evolving fast. Zepo helps your team practice **spotting them**, from **suspicious emails and SMS to AI-cloned voices.**

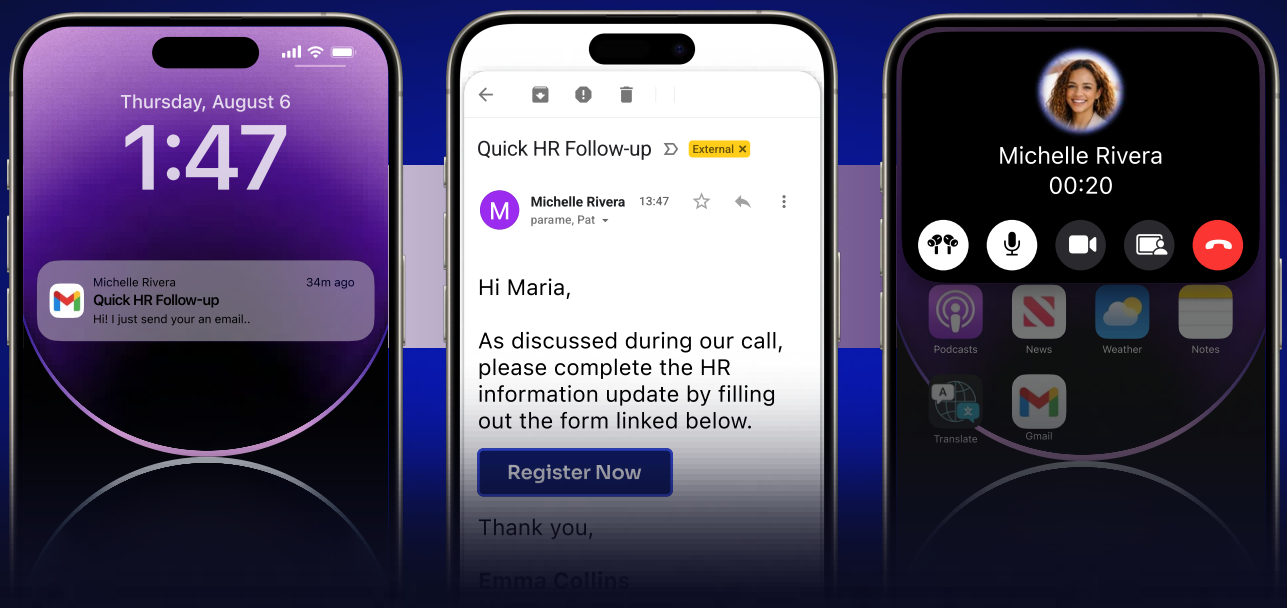

THE SHIFT

One attack. Multiple channels.

A **phishing email** can be just the **beginning**. Attackers combine **messages**, **emails** and **phone calls** to build trust and make their **next move more convincing.**

09:00 am 09:30 am 10:30 am

The **numbers** reveal the **scale of the threat.**

Vishing attacks

Doubled in H1 2026 vs. H2 2025[1]

x2

Organizations hit by deepfakes

In the past 12 months[2]

62%

AI-enabled fraud losses

Projected annual losses in the US by 2027[3]

$42B

WHY ZEPO

The new face of social engineering.

From **cloned voices to convincing deepfakes**, give your team **hands-on experience** with the attacks **traditional training misses.**

	Others	Zepo.
Channels	Email	**Email, SMS, voice, QR and deepfake**
Voice	Recorded	**Live AI calls in 20+ languages**
Deepfakes	Not simulated	**Interactive** with a known voice or face
Training	Annual, generic	**Personal, triggered the moment someone slips**

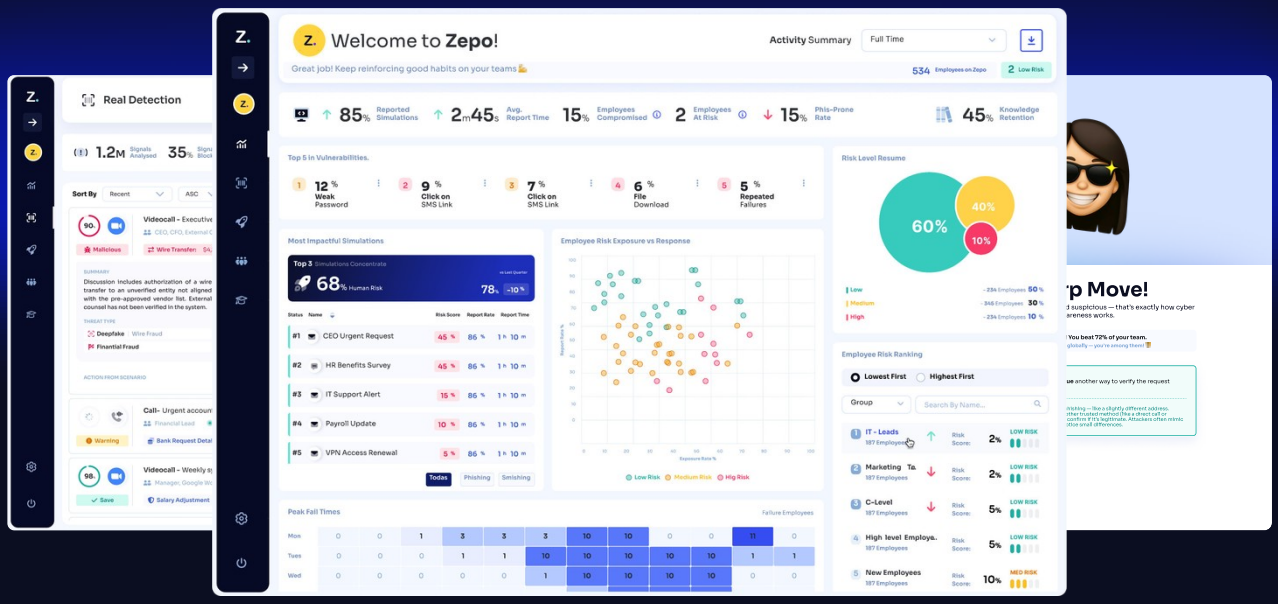

DEEPFAKE DETECTION

Stop real deepfakes before they join your meetings.

1. **One-time code**
   Sent through a trusted channel.
2. **Live challenge**
   A physical action a deepfake can't fake.
3. **Voice check**
   Audio scanned for signs of a cloned voice.

NEXT-GEN WORKFORCE SECURITY

See and manage risk across your entire organization, all in one place

Simulation

Email, SMS, voice, QR and deepfake.

Training

Short lessons, triggered by real behavior.

Human Risk Index

One risk score per employee.

Threat Detection

Real attacks blocked and turned into training.
