About us

ALCON is a Brazilian manufacturer with 44 years of experience in the production of complete food and supplements for small pets such as ornamental fish, wild and exotic birds, reptiles, small rodents and rabbits.

Our products are sold in Brazil under the brand Alcon and abroad under the brand Labcon, both brands offering the same quality and using the same technology and selected ingredients.

Our factory is located in the state of Santa Catarina, south of Brazil, strategically near the ports of Itajaí and Itapoá and Navegantes airport.

labcon[®]

State-of-the-art Technology

Alcon is using extruders of latest generation able to produce granules of any texture, shape, density and format. A streamlined process of extruding, filling, sealing and labeling guarantees the full respect of expiration dates and traceability. The entire production process follows strict quality controls and good manufacturing practices (GMP), guaranteeing security, reliability and consistency.

High Quality Products

The brands Alcon/Labcon are recognized by veterinarians and breeders as an institutional reference in Brazil and in many countries. Our commitment is to offer high digestible food that contains carefully selected ingredients. We constantly develop new balanced nutritional solutions adapted to each species, promoting health, vitality, beauty and longevity for our pets friends.

Permanent Innovation

Our own team of animal scientists and veterinarians works continuously on the research and development of innovative products, aligned with the real needs of each species and with the international market trends.

A Lasting Commitment With Sustainability

Sustainability is an integral part of our operating model. We are applying responsible environmental practices like recycling programs, efficient use of resources, waste reduction and incorporation of renewable energies, including the generation of solar energy, leading to the reduction of the solar footprint and the responsible use of resources.

Long Term Partnership With Our Distributors

We look for exclusive distributors in each country to build up a long term partnership. We offer complete technical and commercial support, periodical training and direct communication for the joint development of the market.

A Full Range Of Communication Tools

Through its website and other social networks (Instagram, Facebook, TikTok and YouTube), Alcon maintains communication with its customers, answering questions and sharing practical information and advices oriented to the animal welfare. Additionally, we offer a complete series of videos showing the interaction between the product and the animal, informative contents, technical files and videos in English under the brand Labcon, thus facilitating the training of sales teams and the communication with the end consumer.

International Network

Our products are labeled in several languages, including English, and comply with the labeling regulations of each market. We currently export to 15 countries and continue expanding our international network.

A Solid Experience In Export Technics

Our Export Team, fluent in five languages, has a solid experience in documentation, customs procedures, international regulations and logistical challenges, ensuring safe and efficient operations.

Ornamental Fish

• Food for community aquariums	06

# 1488	140 g (4.94 oz.)	X 36

Food For Betta And Other Small Fish

LABCON MINI BETTA

A complete floating and balanced food in granulates that enhances colors and brightness of **Bettas, Tetras, Guppies and other small fish**. Contains **40 % of crude protein**, spirulina, vitamins and chelated minerals that provide a high digestibility.

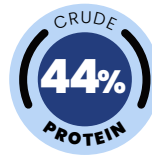

- **Fish meal** | high digestibility
- **Yeast** | natural source of nucleotides
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance

1147 25 g (0.88 oz.) X 72

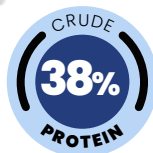

LABCON BETTAMIX FLAKES

A complete and balanced flaked food especially designed for demanding **Bettas**. Contains a high level of **protein (44%)** and a highly digestible formula to boost fish vitality and vigor while enhancing the brightness of its colors.

- **Spirulina** | immunomodulator
- **Astaxanthin** | intense coloring
- **Prebiotic** | stable microbiota
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | more natural and safe

1145 10 g (0.35 oz.) X 72

1144 10 g (0.35 oz.) X 72

LABCON GOLD NEON

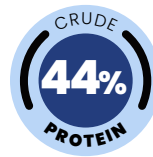

A complete and balanced food in small granulates that contains all essential nutrients for the healthy growth of **small fish** such as **Neon Cardinal, Platy, Rummy-nose Tetra, Zebra fish, White Cloud Minnow, Serpae Tetra, Cherry Barb, Rosy Barb, Tiger Barb**. Contains vitamins, minerals, Spirulina, Astaxanthin as well as prebiotic and enzymatic additive that ensure a high digestibility.

- **Astaxanthin** | intense color
- **Prebiotic** | stable microbiota
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | more natural and safe

LABCON BABY FRY ALEVINOS

Complete micro flaked food for **baby fry**. Contains a high level of **proteins (44%)** that promotes a rapid and healthy growth. Its nutrient balance provides vitality and great development since the first days. Prebiotic, enzymatic additive and chelated minerals provide high digestibility. Only natural colorings.

- **Spirulina** | immunomodulator
- **Astaxanthin** | intense color
- **Prebiotic** | stable microbiota
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | more natural and safe

1324 10 g (0.35 oz.) X 72

Carnivorous Fish Food

Super Premium

1477 80 g (2.82 oz.) X 36
1478 280 g (9.87 oz.) X 6

LABCON CARNIVOROUS SURFACE

Complete extruded Super Premium food with **44 % of crude protein** for **large and medium-sized carnivorous fish**. Its special format stimulates capture at the surface. Prebiotic and digestive enzymes provide high digestibility while selected ingredients such as Gammarus, Squid and Garlic ensure a great palatability.

- **Squid and Gammarus** | noble proteins, high digestibility
- **Dehydrated Garlic and Spirulina** | immunomodulators
- **Astaxanthin** | intense color
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | more natural and safe

LABCON CARNIVOROUS MID-WATER

Complete extruded Super Premium food with **44 % crude protein** for **mid-water carnivorous fish**. Its density and format make the granules swelling slowly, promoting its capture at all water levels. Prebiotic and digestive enzymes provide high digestibility while selected ingredients such as Gammarus, Squid and Garlic ensure a great palatability.

- **Squid and Gammarus** | noble proteins, high digestibility
- **Dehydrated Garlic and Spirulina** | immunomodulators
- **Astaxanthin** | intense color
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | more natural and safe

Super Premium

1479 140 g (4.94 oz.) X 36
1480 480 g (1 lb 0.92 oz.) X 6

Bottom Fish Food

Super Premium

1481 145 g (5.12 oz.) X 36
1482 500 g (1 lb 1.62 oz.) X 6

LABCON CARNIVOROUS BOTTOM

Complete extruded Super Premium food with **44 % crude protein** for **Carnivorous fish dwelling and feeding at the bottom** of the aquarium. Its density and format make the food sinking quickly enough to the bottom, encouraging its capture by fish. Prebiotic and digestive enzymes provide high digestibility. Selected ingredients such as Gammarus, squid and garlic ensure a great palatability.

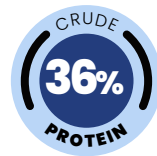

- **Squid and Gammarus** | noble proteins, high digestibility
- **Dehydrated Garlic and Spirulina** | immunomodulators
- **Astaxanthin** | intense color
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | more natural and safe

Labcon[®]

LABCON BOTTOM FISH

Complete balanced food for bottom fish and fresh water **invertebrates living at the bottom of the aquarium like Pleco, Clown Loach, Three Stripe Cory, Dojo Loach, Dwarf Otto or Coolie Loach.** Its high density nuggets quickly sink down to the bottom of the aquarium where these species are used to live and feed.

- **Fish meal** | high digestibility
- **Yeast** | natural source of nucleotides
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

# 1151	150 g (5.29 oz.)	X 6

LABCON KOI

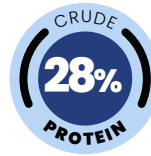

Complete flaked food for cold water **fishes such as Koi and Goldfish.** Contains **35 % crude protein and high- quality** ingredients that promote good digestibility , healthy growth, good absorption of nutrients, vitality and well-being.

- **Squid** | noble protein, high digestibility
- **Spirulina** | immunomodulator
- **Vitamins** | better absorption
- **Chelated minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colors** | safer and more natural

LABCON GOLDFISH COLOUR

Complete extruded food for **cold water fish such as Goldfish and Carp (Koi)**. Contains **28% crude protein** and high-quality ingredients that provide good digestibility, better use of ingredients and greater vitality. The presence of Spirulina and Astaxanthin enhances the brightness of their natural colors.

- **Spirulina** | immunomodulator
- **Astaxanthin** | intense coloring
- **Squid** | noble protein, high digestibility
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

1154 40 g (1.41 oz.) X 72

# 1152	30 g	(1.06 oz.)	X 72
#1153	120 g	(4.23 oz.)	X 36
# 1138	110 g	(3.88 oz.)	X 12
# 1139	220 g	(5.29 oz.)	X 12

LABCON GOLDFISH COLOUR BITS

Complete floating food in granulates with **32 % of crude protein for cold water fish, such as Goldfish and Carp (Koi)**. Contains astaxanthin and spirulina that enhance colors and increase immune defenses. Enriched with vitamins and minerals

- **Spirulina** | immunomodulator
- **Astaxanthin** | intense coloring
- **Yeast** | natural source of nucleotides
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

Vacation Fish Food

LABCON WEEKEND

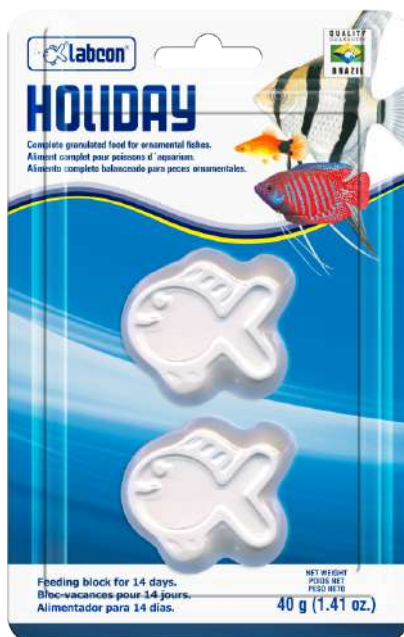

A food reserve when the owner stays away for vacation.

These feeding blocks are made of calcium sulfate that slowly dissolves in the water, gradually releasing food granulates.

- Contains food enough to feed 10 small-medium sized fish during 2-4 days in a water with neutral pH (around 6.8/7.2).

#1156 32 g (1.13 oz.) X64

#1157 40 g (1.41 oz.) X64

LABCON HOLIDAY

A food reserve when the owner stays away for vacation. These feeding blocks are made of calcium sulfate that slowly dissolves in the water, gradually releasing food granulates.

- Contains food enough to feed 10 small-medium sized fish during 10-15 days in a water with neutral pH (around 6.8/7.2).

Pond Fish Food

LABCON GARDEN BASIC STICKS

A food specially designed to enhance **colors brightness of Garden Pond fish**. Very appreciated by **ornamental carps or Nishikigoi**, it is a highly digestible complete food. Its outstanding buoyancy allows to observe fish while they are eating and to adjust the right quantity of food.

- **Bovine blood plasma** | proteins of high biological value and excellent digestibility
- **Astaxanthin** | intense color
- **Salmon oil** | source of fatty acids
- **Yeast** | natural source of nucleotides
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

1579 300 g (10.58 oz.) X 6

LABCON GARDEN KOI COLOURS

A food specially designed to enhance **colors brightness of Garden Pond fish**. Very appreciated by **ornamental carps or Nishikigoi**, it is a highly digestible complete food. Its outstanding buoyancy allows to observe fish while they are eating and to adjust the right quantity of food.

- **Bovine blood plasma** | proteins of high biological value and excellent digestibility
- **Spirulina** | immunomodulator
- **B• eet** | natural energy
- **Astaxanthin** | intense color
- **Salmon oil** | source of fatty acids
- **Yeast** | natural source of nucleotides
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

1580 300 g (10.58 oz.) X 6

Aquarium Water Tests, Conditioners & Correctors

LABCON CLOROTEST

For checking the presence of **chlorine in the water.**

Importance: Make sure the water is Chlorine-free, preventing damage to fish.

2000 15 ml (0,51 fl. oz.) X 144

2002 15 ML X 144

LABCON TEST pH TROPICAL

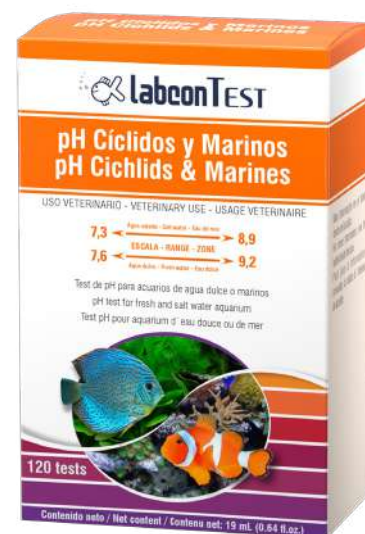

To quickly measure pH in freshwater aquarium or pond (**range 6.2 - 7.5**).

Importance: allows monitoring the pH of water at an adequate and safe level for tropical fish.

LABCON TEST pH CICHLID & MARINE

To quickly measure pH in freshwater (**range of 7.6 - 9.2**) or saltwater aquarium (**range of 7.3 - 8.9**).

Importance: Allows monitoring the water pH at an adequate and safe level for African Cichlids or saltwater fish.

1211 19 ml (0,67 fl. oz.) X 144

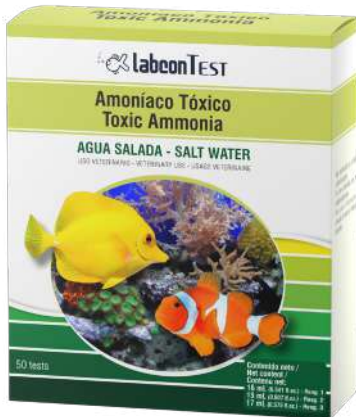

LABCON TEST AMMONIA FRESHWATER

Detects the **toxic ammonia fraction (NH₃)** in freshwater aquarium.

Importance: Allows to identify toxic concentration of NH₃ responsible for biological stress, gill damage and fish mortality.

9162 32 ml (1,08 fl. oz.) X 72

9161 48 ml (1,62 fl. oz.) X 72

LABCON TEST AMMONIA SALT WATER

Detects the toxic **ammonia fraction (NH₃)** in saltwater aquarium.

Importance: Allows to identify toxic concentration of NH₃ responsible for biological stress, gill damage and fish mortality.

LABCON TEST NITRITE NO₂⁻

To check the presence of toxic nitrites (NO₂⁻) in fresh- or saltwater aquarium.

Importance: Allows to identify toxic concentration of NO₂⁻, responsible for blood hypoxia, physiological stress and risk of mortality.

2005 24 ml (0,81 fl. oz.) X 72

LABCON TEST HARDNESS KH

To measure **carbonate and bicarbonate hardness (KH)** in fresh- or saltwater aquarium.

Importancia: Evaluate the buffering capacity of the water, reducing abrupt pH variations that can cause physiological stress and metabolic disturbances.

2007 10 ml (0,34 fl. oz.) X 144

Water Conditioners & Correctives

2104 15 ml (0,51 fl. oz.) X 144

LABCON ACID

To lower water pH in fresh - or saltwater aquarium.

Importancia: Allows to adjust the pH at different levels for specific species that prefer more acidic water.

LABCON ALCALI

To raise water pH in fresh - or saltwater aquarium.

Importancia: Importance: Allows to adjust the pH at different levels for specific species that prefer more alkaline water.

2102 15 ml (0,51 fl. oz.) X 144

LABCON ANTI ALGAS

Prevents the **growth and eliminates algae** in freshwater aquarium without harming fish or plants.

Importancia: Keep the water clean and the aquarium free from unwanted algae.

2106 15 ml (0,51 fl. oz.) X 144

2404 15 ml (0,51 fl. oz.) X 144

LABCON CRISTAL

To **restore water transparency** in freshwater aquarium.

Importancia: To restore water transparency in freshwater aquarium.

LABCON PROTECT PLUS

Water conditioner for fresh - or saltwater aquarium. Neutralizes harmful components to fish like chlorine and heavy metals, being essential when setting up the aquarium, making partial changes of water or transporting the fish.

Importancia: Eliminate toxic chemicals that harm gills and mucous membranes, reduces the stress and guarantees a safe and stable aquatic environment.

1032 30 ml (1.02 fl. oz.) X 120
 # 1033 100 ml (3.38 fl. oz.) X 72
 # 1034 500 ml (16.91 fl. oz.) X 12

LABCON GARDEN ALGAE-FREE

Algaecide in granules for use in garden ponds. **Eliminates immediately filamentous and green water algae.** Harmless to fish and aquatic plants and fully biodegradable. Environment eco-friendly.

Importancia: Controls algae growth, improves water clarity and promotes a more balanced and healthy environment for fish and plants.

1107 1 kg (2 lb 3.25 oz.) X 6
1108 5 kg (11 lb 0.21 oz.) X 1

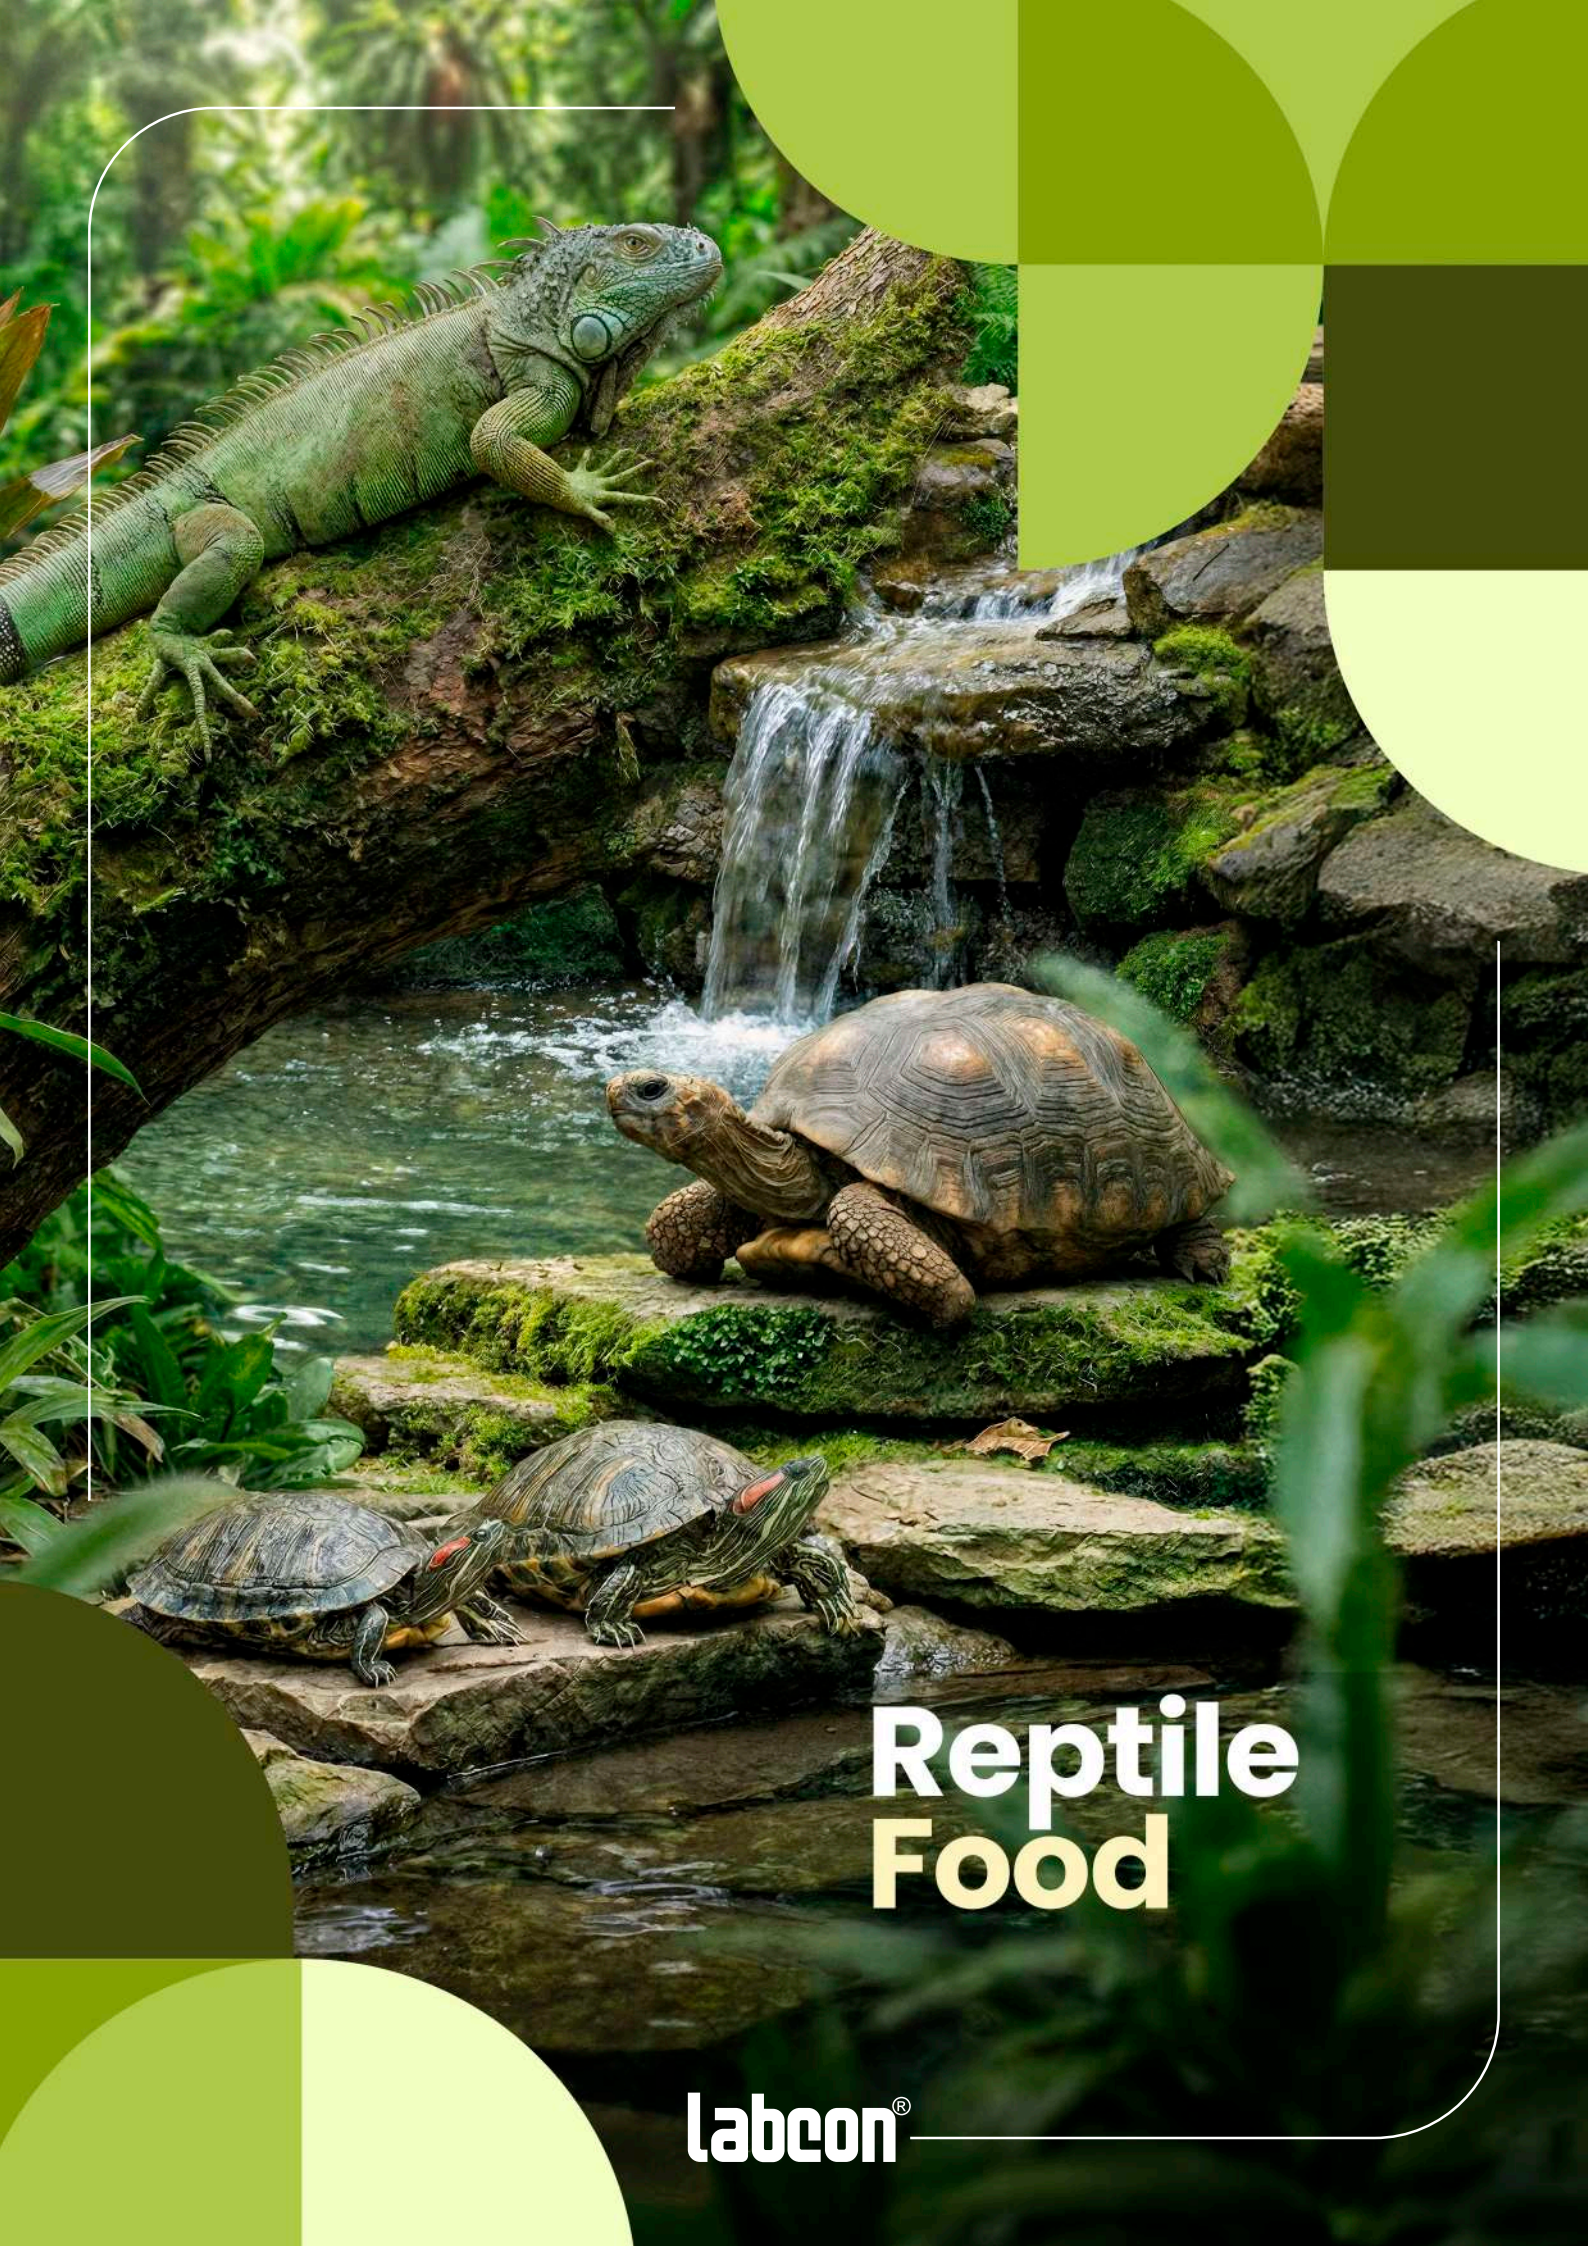

LABCON GARDEN CRISTAL

1109 1 L (33.8 fl. oz.) X 6
1120 5 L (169.07 fl. oz.) X 1

To **restore the transparency of pond water troubled** by algae overgrowth, excess of food or filtering problems. The product agglutinates the floating particles in suspension building clusters that make mechanical filtration much easier.

Importancia: Restores water clarity after algae blooming, overfeeding, or filtration failures, improving the visual quality and balance of the pond.

Reptile Food

labeon[®]

Aquatic Turtle Food

LABCON TURTLE

Complete balanced **diet food in floating sticks for freshwater turtles**. Enriched with vitamins and minerals that provide healthy growth and great vitality.

- **Noble ingredients** | High digestibility
- **Outstanding flavor** | Excellent palatability
- **Yeast** | natural source of nucleotides
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

# 1189	30 g (1.06 oz.)	X 72

CRUDE
37,5%
PROTEIN

# 1489	78 g (2.75 oz.)	X 36
# 1490	280 g (9.88 oz.)	X 6

LABCON REPTOMIX PRO

Complete **Super Premium** food for aquatic turtle. A very palatable and attractive food with **37.5 % protein** that meets their daily nutritional needs.

- **Squid** | highly digestible protein
- **Gammarus lacustris** | Natural source of calcium
- **High palatability** | greater acceptance
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance
- **Enzyme additive** | efficient digestion
- **No artificial colours** | more natural and safe
Harmless to aquatic environment

LABCON BABY TURTLE

Complete balanced diet food for **freshwater baby-turtles and juveniles with shell less than 10 cm (4 inches)**. Contains natural ingredients and is enriched with vitamins and minerals that provide healthy growth and great vitality at this crucial time of their life.

- **Squid** | noble protein
- **Yeast** | natural source of nucleotides
- **High digestibility** | Better absorption of nutrients
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance
- **Complete nutrition** | Healthy and uniform growth
- **No artificial colors** | more natural and safe

1198 25 g (0.88 oz.) X 72

Land Tortoise Food

Super Premium

1573 300 g (10.58 oz.) X 6

LABCON CLUB TORTOISE

Complete **Super Premium** extruded food for **land tortoises**. Contains natural ingredients like carrot and alfalfa with vitamins and minerals that provide healthy growth and great vitality.

- **Carrot** | antioxidant support
- **Yeast** | natural source of nucleotides
- **Fish flour** | high digestibility
- **Alfalfa** | natural fiber
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

LABCON CLUB BABY TORTOISE

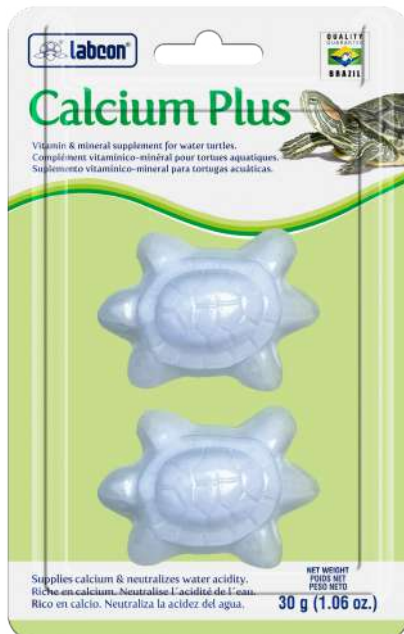

Complete **Super Premium** food for babies and juveniles land tortoises. Its appropriate grain size and texture and its composition rich in fibers, vitamins and minerals ensure vitality and healthy development. Selected natural ingredients such as alfalfa and carrot provide an irresistible flavor.

- **Carrot** | antioxidant support
- **Insect biomass (BSF)** | sustainable protein
- **Functional fibers** | healthy digestion
- **Alfalfa** | natural fiber
- **Spirulina** | immunomodulator
- **Vitamins and minerals** | nutritional balance
- **No artificial colors** | more natural and safe

1572 100 g (3.53 oz.) X 8

Supplements For Reptiles

1573 30 g (1.06 oz.) X 48

LABCON CALCIUM PLUS

Vitamin & mineral supplement for aquatic reptiles. Contains calcium and sodium to prevent shell softening and vitamin B1 that is missing in turtles kept in captivity. Once introduced into the aqua terrarium water, the block slowly dissolves, releasing **calcium, sodium and vitamin B1**. Helps eliminating the excess of acidity due to animal feces.

- **Calcium (21.5%)** | stronger shell
- **Sodium** | mineral balance
- **Vitamin B1** | metabolic support
- **Gradual release** | constant absorption
- **Buffer action** | reduces water acidity

Supplement For Reptiles

LABCON REPTOVIT

Vitamin supplement for aquatic and land reptiles **like turtles tortoises, iguanas, snakes and others**. Provides essential vitamins to complete unbalanced diets. Support the animal during periods of stress or recovery.

- **High acceptance** | easy administration
- **Versatile use** | multiple species of reptiles
- **Accelerated recovery** | support during stress and illness

1395 15 mL (0.51 fl. oz.) X 144

Bird Food

labeon[®]

Maintenance Daily Diet

LABCON CLUB COCKATIEL & PARAKEET

Complete extruded food, highly digestible and palatable, specially formulated to meet the daily nutritional needs of **budgies, lovebirds, cockatiels, and other small psittacines.**

- **Dehydrated egg** | essential amino acids
- **Prebiotic** | intestinal health
- **Carrot** | natural carotenoids
- **Yeast** | natural source of nucleotides
- **Vitamins and minerals** | nutritional balance
- **Excellent palatability** | high acceptance
- **No shells** | Maximum use of the food
- **No artificial colors** | more natural and safe

# 1173	150 g (5.29 oz.)	X 12
