ABOUT SMP PARTS

SMP Parts is a leading innovator and producer of tiltrotators and other high-quality attachments for excavators.

The company has over 100 employees and produces majority of its products at the factory in Ilsbo, Sweden. A factory with over 100 year legacy.

**BLUE
MEANS
QUALITY**

MANUFACTURING HIGH-QUALITY PRODUCTS FOR EXCAVATORS

We design and manufacture our products in our own factory in Ilsbo, Sweden. Here, we develop new products to ensure those of you working in the field that your machinery gets the best the market has to offer.

TILTROTATORS

For excavators and backhoe loaders, available in the 2-30 ton weight class.

A tiltrotator from SMP increases the flexibility of your machine, enabling you to do a greater number of tasks.

BUCKETS

High quality buckets suitable for all types of ground conditions.

We have been developing and manufacturing buckets in Sweden for almost 40 years. Our buckets are well-known for their quality and long service life.

QUICK COUPLERS

Quick couplers allow your excavator to quickly transition between tasks.

Our quick couplers have a simple, yet safe design, with a long service life, even after harsh use.

Open-S - the open industry standard for fully automatic quick couplers for excavators. The purpose of Open-S is to provide global interchangeability between quick couplers, tiltrotators and work tools from different manufacturers.
