

**bluetest**  
Testservice GmbH

Supreme Semiconductor Test Services  
**Automotive · Industrial · Aerospace**

# Streamline your semiconductor tests now

## Why you benefit from us

**BLUETEST IS YOUR GERMAN TEST SERVICE PROVIDER WITH MORE THAN 30 YEARS OF EXPERIENCE AND AN UNMATCHED SERVICE PHILOSOPHY**

We offer our services where quality is essential. Our test services go along with the customer's semiconductor development process and supply chain. We cultivate close cooperation with our customers whether fabless design houses, semiconductor manufacturers or users.

### **QUALITY IS THE BASE OF SUSTAINABLE SUCCESS**

The idea of customer orientation and continuous improvement is part of all our business processes. Continuously high performance in processes and services, even under heavy load and deadline pressure.

We strive to establish fair and long lasting cooperations with customers, partners and suppliers, founded on reliability and competence.

ISO 9001:2015 certified quality management

# Bluetest test services in detail

## Our experience – your success

### BLUETEST'S SERVICES COVER WHOLE PRODUCT LIFE CYCLES

Electrical measurements and electrical tests are stalwart companions for your product – beginning at the concept stage and reaching far beyond series. They provide indispensable information on properties and production processes.

ASIC development and test development go hand in hand. In the series production, ideal test conditions ensure optimal delivery quality. Successful, durable products require reliable, long-lasting test solutions. Bluetest is your competent partner.

#### SEMICONDUCTOR TEST

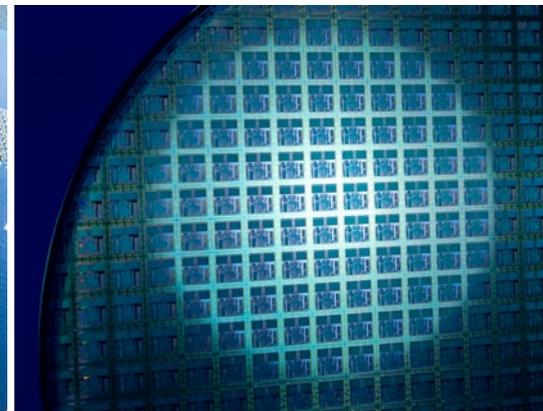

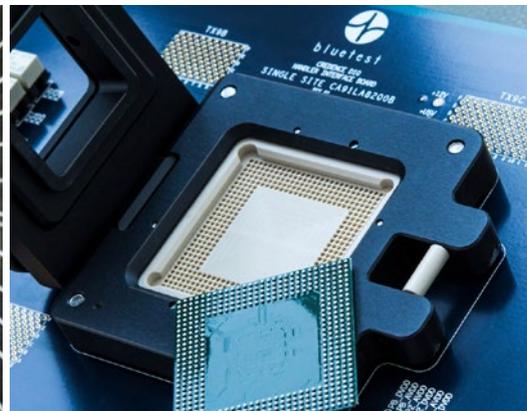

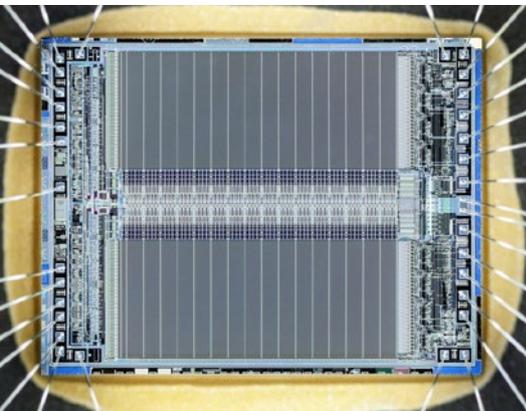

- Wafer test and final test
- Test data recording
- Electrical measurements
- Ramp up tests

#### TEST SUPPORT ENGINEERING

- Test software
- Test hardware
- Test concept
- Test specification

#### PRODUCT SUPPORT ENGINEERING

- Quality assurance
- Project management
- Supply chain support
- Test data
- Documentation

## Get in touch with test experts

Boost your next project with Bluetest's experience

Our team members are happy to hear from you and are committed to upcoming projects for high-quality products.
