*Press Release: November 26, 2024*

## **WIŚNIEWSKI: Polish Quality Fences at Perimeter Protection 2025**

**From January 14 to 16, 2025, WIŚNIEWSKI will participate in the international trade fair Perimeter Protection at the Nuremberg Exhibition Center. This prestigious event brings together professionals in perimeter security and fencing technologies, offering WIŚNIEWSKI the opportunity to showcase its latest solutions: products designed for solar park protection and modern aluminum fences.**

On a 156 m<sup>2</sup> booth, WIŚNIEWSKI will present a wide range of innovative products. Highlights include:

- New aluminum fences – lightweight, durable, and aesthetically pleasing solutions. Recently launched on the Polish market, they are now introduced to German customers.
- Vega 2D and 3D wire panels – robust, easy-to-install solutions ideal for securing large areas, including increasingly popular solar parks.
- Omega system posts – designed for functional and secure fencing solutions.
- Bastion and Gardia gates – reliable, durable elements that seamlessly integrate into modern fencing systems.
- Industrial fencing, such as the V-KING rapid-fold gate – the perfect solution for industrial sites like airports and commercial facilities.

WIŚNIEWSKI will also display its proven steel systems, including the signature folding gate with the Sommer Twist drive in HI Modern Graphite color, the V-King rapid-fold gate, the PI200 sliding gate, and the Gardia gate. Visitors are welcome to Booth 232 in Hall 1, where attractive special offers on selected products await!

Participation in Perimeter Protection aligns with WIŚNIEWSKI's expansion strategy for the German market. The company is currently recruiting field sales representatives in the region. Don't miss the chance to connect with us at the booth!

Perimeter Protection is the only trade fair combining the latest technologies and innovations in electronic and mechanical products, perimeter protection, and building security systems. The 2023 edition featured exhibits from 198 exhibitors from 22 countries, attracting a total of 5,389 visitors.

## ABOUT THE COMPANY\*

WIŚNIEWSKI is a market leader in gates, windows, doors, and fences, fulfilling customer needs for nearly 35 years. Founded in 1989 by Andrzej Wiśniowski, the company revolutionized the construction industry by automating the Polish garage door. This milestone marked the beginning of a technological evolution. Today, WIŚNIEWSKI products are available in over 30 countries worldwide.

The company operates on a 40-hectare site, employing over 2,200 industry experts and pioneers in Polish automation, working in the spirit of Industry 4.0. With 4,000 meters of cutting-edge production lines, WIŚNIEWSKI guarantees 100% production consistency.
