

SACCI PRO

SACCI PRO TACTICAL MEDICAL

For the mission ahead

We got your back.

A new range of tactical carrying products that is designed to meet modern demands for comfort, efficiency and flexibility in the field. Smart and reliable products with the user in focus - to support in critical moments where every second counts.

Infrared reflective and flame-retardant outer fabric made of UV-resistant Cordura with DWR (700D, 500D) and PU coating, for all-weather durability

Zippers:
IRR slider & tape – IR Compliant YKK® zippers for protected gear
Reversed coil – shielded construction for long-term durability
Non-lock slider – fast, unobstructed access without locking mechanisms

Laser-cut (PALS) molle system for lightweight modularity

IRR and flame-retardant buckles for uncompromised safety

TUNDRA Tactical Medical IFAK

A compact and highly functional IFAK - designed for rapid use in the field. With its versatile multi-component system it works both on its own and in combination with the sleeve.

Art.no	400901
Weight	290 g
Size (WxHxD)	130x190x65 mm

MYRRAND Tactical Medical Hip Pack

Myrrand is a compact and quick - access waist pack for tactical medical use, designed to be worn around the waist or function as a detachable module within our modular medical system (can be attached to the Ravin backpacks). Also easily adjustable for shoulder carry.

Art.no	400905
Weight	680 g
Size (WxH)	750x1900 mm

100 years of collaboration with the defense industry

For decades, we have carried those who carry responsibility. With roots deeply anchored in our long-standing collaboration with the armed forces and healthcare, we understand what it means to perform under pressure – in shifting terrain and unpredictable situations. That experience forms the foundation of every stitch, every choice of material, and every detail in our tactical range.

We create carrying equipment of the highest quality – built to endure when it truly matters, so you can feel confident in every step, in every situation. Sacci is with you all the way.
