Toughness: Gentle

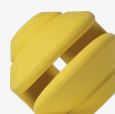

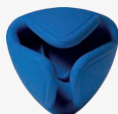

Fillables

NEW

Extra-large treat capacity for longer engagement

Toughness: Moderate

Made with REACH SVHC-compliant natural rubber

About Us

PetDreamHouse brings together four strengths behind a distinctive portfolio of pet brands for today's retail market.

● Enrichment-led Brands

Our brands are built around one clear idea: products should do more than serve a basic function. They should help pets eat better, feel calmer, stay stimulated, and enjoy richer daily routines. This enrichment-led focus gives our collections a clear position in the market.

● Design Expertise

With over 26 years of experience in the children's toy industry, we bring a fresh perspective to pet product design. Our products are created to be safe, engaging and distinctive, combining strong ideas, practical function and manufacturing know-how from the outset.

● UK Market Insight

By operating our own UK B2B pet wholesale marketplace, we stay close to the realities of the trade. This hands-on understanding helps us develop products that are not only innovative, but also relevant and easier for retailers to sell.

● Eco Attitude

Our approach to sustainability is based on practical improvement rather than broad claims. We focus on longer-lasting design, considered materials, smarter packaging and more efficient logistics to help reduce environmental impact.
