

Refworld Mechanical & Electrical Industries Co.,Ltd.

Company Profile

Refworld is world of Refrigeration,
Creating Value to your One-Stop Supply for All HVACR!

Company Profile

Refworld Mechanical & Electrical Industries Co.,Ltd. was established in 2006, which named Refworld Refrigeration Industry Co., Ltd. at that time. Refworld is a professional industry & trade company to supply all kinds of refrigeration parts and equipments. By now, Refworld has eight subsidiary factories:

1. Ningbo New Blue Energy Technology Co.,Ltd (www.blurefrigeration.com)
2. Hangzhou Abltek Intelligent Electrical Co., Ltd (www.abltek.com.cn)
3. Luther-Bach Heat Exchanger Co.,Ltd (www.luther-bach.com)
4. Hangzhou Comptek Compressor Manufacturing Co.,Ltd (www.comptek.com.cn)
5. ScrollTech Compressor Technology Co., Ltd (www.scrolltech.com.cn)
6. Refscrew Compressor Technology Co.,Ltd (www.refscrew.com.cn)
7. AirVent Fan Motor Industry Co.,Ltd (www.airvent.com.cn)
8. Hangzhou HETU Innovation Technology Co. Ltd (www.hetu-thermo.com)

1.Ningbo New Blue Energy Technology Co.,Ltd

Blue Refrigeration was established in 2013, located in Ningbo, Zhejiang province ,which has two production bases; Hangzhou Refworld Electromechanical Industry Co., Ltd. was established in 2017, covers an area of more than 30,000 square meters, mainly producing refrigeration pressure vessels like filter drier ,replaceable filter drier core shell ,oil separator,suction line accumulator,liquid receiver, oil receiver,etc . New Blue Energy Technology Co., Ltd., was established in 2020, covers an area of 6400 square meters, mainly producing refrigeration valves and controllers.The products are widely used in refrigeration, air conditioning heat pump, transportation refrigeration, home appliance refrigeration, kitchen refrigeration, laboratory equipment and other fields.

The company adheres to the concept of "Devoted to Delicate • Create the world-class quality", operates in strict accordance with ISO9001:2015 international quality management system, has a strict quality control process, and carefully arranges and manages every step of production. The company's products have passed the RoHS, REACH, TUV, CE and other certification.

At present, the products are sold to nearly 100 countries and regions around the world, and they are constantly recognized by customers and markets.The company adheres to the "all-round, high quality, fast speed" service standards, with customer satisfaction as the goal.The company is committed to becoming a top supplier of refrigeration and air conditioning accessories, providing domestic and foreign customers with better quality products, better service and better price.

2. Hangzhou Abltek Intelligent Electrical Co., Ltd

ABLTEK
Devoted to be Delicate · Create the World-Class Quality

CE CB RoHS

Hangzhou Abltek Intelligent Electrical Co., Ltd located in Hangzhou, China is a professional manufacturer of condenser drain pump, oil transport pump, manifold guage, charging hose, insulation tapes, AC bractek, refrigerant charge scale, embedded pre-installation box, anti-vibrations feet for wall support, outdoor air conditioner rubber ground base bracket, riser, A/C Cleaning Pump Etc.

Abltek have been developing, producing and marketing tools, machines and equipment for use in HVAC&R for over 10 years. Our constant commitment to research and design allows Abltek to produce world reknowned tools and machinery. Using advanced and sophisticated technology, we develop and manufacture high-quality products.

3.Luther-Bach Heat Exchanger Co.,Ltd

Luther-bach Heat Exchanger Co.,Ltd. established in 1990, is a comprehensive industrial company specializing in research,development, production and sales of refrigeration products in Commercial and Industrial refrigeration and air conditioning.

Our company passed the ISO9001:2008 international quality management system certification, was identified as a high-tech enterprises in 2011, participated in the setting and use of national standard <>GB/T25129-2010. After the examination, our products refrigeration units, air cooler and condenser respectively comply with standard GB/T21363-2008, GB/T25129-2010, JB/T7659.4-2013, get the national industrial production license and CE certification.

After 27 years' effort, our products have a very good reputation not just in China, also in many countries from Europe, America, South America, Asia, Oceanic, Africa etc. Our aim is to provide the good quality products with the reasonable price, to give you the best cooling solution for your project, to be your best partner in refrigeration field in China .

4. Hangzhou Comptek Compressor Manufacturing Co., Ltd

Hangzhou Comptek Compressor Manufacturing CO.,Ltd. located in the second district of Fengdu Industrial Zone, Pingyao town. Hangzhou City. It is 50kilometers away from Xiaoshan international airport. The 104 National Road gs through of our company.

Our company owns standard factory and office buildings covering an area of 17000 square meters. We have more than 20 years history of refrigeration Equipments manufactory. Our company specialize in the manufacturing of 1/10HP to 1/2HP refrigeration compressors.

Our main products include DW、DM、DF、DL、FN、DV and QD series hermetical compressor, compressor start relay.

Overload protector, and so on. Strictly implementing the ISO9001 syestem, in addition to the CCC and CE standards, these selling well in southeast Asia, Middle East, South America and Russia, in addition to the domestic markets

Our company specializes in manufactory L/M/HBP, M/HBP, L/MBP and LBP series compressor, these compressors are suitable for business refrigeration equipments, such as deepfreeze, display case, showcase, serve food case, and island showcase refrigerator etc.

Our enterprise tenet of "trial carve out, not satisfaction forever, be brave in competition, pursuing excellence". We insist on the working tenet of "blossom and flourish together, benefit together", our provide preferential choiceness price and choiceness service to our consumers wholeheartedly.

5.ScrollTech Compressor Technology Co., Ltd

Hangzhou ScrollTech compressor technology Co., Ltd. is an enterprise specializing in the research, design, manufacturing and sales of scroll compressor and unit. Our career was founded in 2016.ScrollTech headquarters is located in Suzhou City, Jiangsu Province which has many excellent chinese manufacturers. We have superior geographical location and convenient transportation to provide customers with satisfactory service. The engineers of ScrollTech have more than 30 years of compressor manufacturing experience and core technology, which makes ScrollTech products superior and reliable.

In 2016, ScrollTech invested heavily in the research and development of scroll compressor, which makes the company has the ability to produce large-scale production now. ScrollTech compressor can be widely used in heat pump, food refrigeration, cold chain logistics and other industries. The design of ScrollTech compressor has higher efficiency, lower sound level, excellent durability and unparalleled reliability. ScrollTech continues to set industry standards in providing innovative, reliable and high-performance compressors.In the future, we will also develop more excellent products to customers all over the world.

World Well-Known Refrigeration Compressor Manufacturer

6. Refscrew Compressor Technology Co., Ltd

Refscrew Compressor Technology Co., Ltd. is a technical private enterprise specialized in researching into designing, producing and marketing of semi-hermetic refrigeration compressor and units. It has a perfect technical team and 17 years' experience in compressor manufacturing. We are committed to providing semi-hermetic reciprocating compressors, screw compressors, condensing units, cold storage and engineering solutions in the field of commercial and industrial refrigeration. Our products are widely used in the food fresh keeping, commercial refrigeration, chemical, pharmaceutical and agriculture, and serve the manufacturing industry in many countries.

Refscrew has a leading level of refrigeration equipment manufacturing base and a nationwide marketing network. The company's main production equipment for Japan "OKUMA" horizontal machining center and CNC lathe, vertical lifting milling machine, compressor full performance testing center and other advanced equipment. Refscrew team aims to provide the world's most advanced refrigeration compressors, and constantly improve the product development, production management, sales network and after-sales service capabilities. After many years of deep ploughing, Refscrew compressors have excellent performance in service life, energy efficiency ratio and mechanical noise. It has obtained the National Compulsory Products CCC Certification, the National Industrial Products Manufacture License, and the ISO9001:2008 International Quality Supervision System Certification.

Refscrew is continuously importing talented people, advanced technologies and managing ideas with a positive posture to conduct the innovation and improve the quality. With the expansion of the scale of the enterprise, the producing capacity will be further released and more qualified products will be supplied to the market. The rule of "no defect, no complain" is the pursuit of every employee. We will, as always, carry out wide cooperation and advance together hand in hand with vast old and new friends from all walks of life for the purpose of jointly creating a splendid tomorrow

7. AirVent Fan Motor Industry Co., Ltd

Air Vent is a professional high-tech company specialized in development and production of various kinds of fans and motors. The factory was found in 1998 with an area of more than 20000m². Our products mainly include external rotor axial fans, centrifugal fans, and shade-pole motors. The products are extensively applied to refrigeration, ventilation, air conditioning, medical treatment, telecom and other equipments.

We have accomplished great achievements as we invested more resources and effort in new products, new crafts, new equipments and new management. Currently we own a large number of patents, and we have passed ISO9001:2008, CE, ROHS and CCC, UL, TUL certification.

Air Vent own a strong technical R&D team, and it has rich experience in optimization design of heating and ventilation axial fan, could offer the products testing service and fully technical supports to our customer! We own the leading equipment for heating and ventilation fan performance testing, Fan comprehensive performance laboratory which design according in ternational standard and pass GMPI certificate, Semi-anechoic Laboratory, Siemens LMS vibration and noise analyze system, fan life testing equipment, Material analyse testing equipment, salt spray test equipment and so on .

Look forward to the future, Continue to encourage innovation in the product research and development .Besides, we are devoted to pursuing development and innovation of products to provide high efficiency, energy-saving and low noise fans for customers, and look forward to future cooperation with you.

8. Hangzhou HETU Innovation Technology Co., Ltd

HE-TU produces equipment for transport refrigeration to the entire around world refrigeration market. They are high quality machines, with bold design, state-of-the-art raw materials, fast delivery, competitive prices and one year warranty. "Provide refrigeration equipment for transportation that meets the requirements of customers, the organization, and other requirements applicable to our business, through people management, continuous process improvement and effectiveness in quality management." HE-TU established high quality control standards to measure and make products technical specifications are strictly complied with them. The quality management system is based on the requirements of ISO 9001. Our products, besides being inspected during the process and finished product are 100% tested against leakage with pressure test always higher than the nominal duty, in order to ensure their reliability. HE-TU constantly seeks to ensure customer satisfaction. The conformity of products and the quality in attention and services is ensured through continuous improvement in processes and technological development, always supporting the investments requested by the company's Human Resources Department.

Refworld implemented with 5S management strongly for all the products line, we devote to provide best quality products with competitive price with the policy “credit is the basis, quality is the first”, try to be the one-stop supplier for customers around the world.

We conduct our business in over 30 countries and regions throughout Europe, Asia and the Americas and we have received many business awards and acknowledgements of our success. We take part in most of the refrigeration exhibition around the world, such as AHR EXPO MEXICO, CHILLVENTA IN GERMANY,MCE IN FRANCE, AHR EXPO USA, ACREX INDIA,BANGKOK RHVAC IN THAILAND,etc. This bring us a lot of chance to cooperation with some world class customers,and also gain more popularity for our company. Meanwhile,we use some E-Business Platform like alibaba to get more opportunities.

Refworld work diligently to satisfy the needs of our employees, suppliers, customers and society. We warmly welcome all refrigeration manufacturers and wholesalers to contact and discuss business with us ,we hope to create refrigeration industry of a better future with you all.
