FORM ENDUSTRI URUNLERI

Specializing in commercial and industrial central air conditioning solutions, the company manufactures fan coils, heat recovery units, air handling units, water-source heat pumps and rooftop packaged units (under license agreement with Lennox company) at its 20,000 m2 production facility in İzmir. Also representing globally recognized brands such as Clivet, Dunham-Bush, Climate Master, and Montair; the company's main product portfolio includes rooftop units, chillers, fan coils, heat pumps, air handling units, cooling towers and other commercial HVAC equipment. It is one of the leading manufacturers, distributors and after sales service providers in the Turkish HVAC market.
