

SHORT SUMMARY

*Competence in the processing of
technical textiles*

www.lanz-anliker.com

**LANZ-
ANLIKER AG**

A large number of our own mono/multi-filter textile qualities made of PA, PP, PES, Teflon, ECTFE, ETFE, PTFE and needle feltings are available to us for manufacturing cheaply using our modern online machine park - from individual tailor-made articles to small or large batches. Each article receives its own production number from us and can therefore be reproduced at any time quickly and in the exact shape.
