

MESHTEC TO SHOWCASE ADVANCED SECURITY INNOVATION TECHNOLOGY AT FENSTERBAU FRONTALE 2026 | NUREMBERG

Nuremberg, Germany —27 October 2025 — Meshtec, the global leader in barrier and vandal - resistant security solutions, proudly announces its participation in FENSTERBAU FRONTALE 2026, taking place 24–27 March 2026 at the Nuremberg Exhibition Centre. Visitors are invited to experience Meshtec’s cutting - edge security innovative products **at Hall 6, Stand 101.**

At this year’s exhibition, Meshtec will unveil its latest breakthrough technologies, including:

- JAWS™ Ultimate Security Vandal Protection Doors and Windows
- Emergency Egress Systems with Child Guard Protection
- Patio Security Sliding Doors

Engineered to deliver exceptional protection, durability, and aesthetic appeal, these advanced solutions are setting new benchmarks for both residential and commercial security applications.

Pioneering Innovation in High-Tensile Woven Mesh Technology Meshtec is globally recognized for developing the world’s largest high-tensile stainless steel woven mesh, a revolutionary technology first introduced in Australia. Every Meshtec product is meticulously manufactured to the highest standards, combining performance, sustainability, and design excellence.

Key product features include:

- **Cut Resistance:** High-tensile woven mesh engineered to withstand extreme pressure and force, delivering unmatched door and window security.
- **High Corrosion Resistance:** Designed for longevity, Meshtec products resist rust, corrosion, and wear even in harsh environments.
- **Versatile Applications:** Suitable for residential and commercial uses—from security doors and windows to fall prevention - screens, railings, and balustrades.
- **Sustainability Commitment:** Manufactured using eco-friendly raw materials and certified under ISO 14064-1 for environmental management. Industry-Leading Quality and Certification.
- Meshtec proudly holds the distinction of being the first and only Interpon D Platinum Approved Applicator on stainless steel substrates—a prestigious certification by AkzoNobel. This recognition underscores Meshtec’s commitment to superior quality, coating performance, and manufacturing excellence.

“We’re excited to present our latest innovations at FENSTERBAU FRONTALE 2026 and connect with professionals who share our commitment to security, durability, and design excellence,” said Jang Pichakarn Nutnatda, Marketing Manager at Meshtec.

“With complete in-house production—from design and material sourcing to weaving, coating, fabrication, and logistics—we guarantee uncompromising quality, precision, and performance in every product.”

Meshtec’s participation at FENSTERBAU FRONTALE 2026 presents an excellent opportunity for those seeking the best in high tensile woven mesh technology. Whether you’re looking for enhanced security solutions or innovative design options, Meshtec is the trusted name to provide products that stand the test of time.

We look forward to welcoming visitors to Hall 6, Stand 101, where they can experience firsthand how Meshtec’s advanced technology is redefining the standards of security, design, and performance.
