ATEO is all about product development and sourcing

We help you find specific products by connecting you with our network of qualified suppliers in Asia. We take care of the quality, pricing and delivery requirements to offer you the best possible options. We help you find the best price products from our reliable suppliers. We cooperate with a network of factories in Asia and Europe, while taking care of factors like quality, cost savings, materials, on-time delivery, location, sustainability, innovation and logistics flows.

Our goal is to help you navigate the complexities of product sourcing, contract negotiating, product quality, payment terms and transportation costs.

We understand the importance of the product development services, category management and cooperation with suppliers to ensure the best procurement of profitability.

We specialize in the creation of innovative physical products, their personalization, arrangement of production forms, technological support, quality control and compliance.

Compliance and quality:

Quality is paramount, therefore we offer comprehensive quality control services throughout the whole production process.

ATEO provides quality control services to identify any problems during the production process to ensure the best product quality. We control the entire production process to ensure smooth execution.

Logistics:

We help you manage the entire cargo flow process. Our logistics partners' services optimize the costs of import and export, while providing maximum efficiency. We handle the documentation, consolidation of customs clearance and inspection of all services.

Streamlined communication and efficiency:

By eliminating middlemen, we establish direct purchasing and communication channels with suppliers, while ensuring optimization of our clients' benefits.

Language and cultural expertise:

We are fluent in multiple languages, as well as local languages in Asia. Our team bridges language and cultural differences, therefore we facilitate direct and smooth communication with suppliers.

Experience and knowledge:

Our team has 25 years of experience in sourcing in Asia as a result of many contacts and travels. We are well settled in local markets with reliable suppliers and best practices to ensure the success of your business.

Availability and transparency:

We are available to meet your needs and keep you informed at every stage of the procurement process. We provide transparent factory prices and use open calculations to keep them up to date.

We monitor the market for our products

both in Europe and Asia. Our regular visits to our suppliers and trade fairs allow us to find new opportunities for development, new sources of purchase and new alternative products.
