

# INTRODUCING THE DAGGER DISRUPTER

The CTS Dagger Disrupter is a compact and lightweight variant optimized for rapid manual deployment. It uses the same nozzles, breeches, cartridges and projectiles as its larger counterpart (the Lance Disrupter).

Water, Granular Water Shot and Projectiles all powered by the same 12ga Cartridges

The system comes with a Tactical Chest Rig and Backpack that securely packs the disrupter along with all accessories, projectiles and cartridges needed for a swift deployment.
