Light your pet with a led

CATALOGUE

# Night collection

## Biothane LED Collar

The PettyItalia LED Biothane collar combines the practicality of an innovative material with a functional design. Made from Biothane, a lightweight yet incredibly durable fabric, this collar is designed to ensure maximum comfort for your pet. Its lightness does not compromise its strength, making it ideal for everyday use.

## Harness H Led

The "H" model LED harness is our flagship product, and over the years we have continuously worked to improve it making it extremely easy to put on while ensuring maximum comfort for the dog.

In our workshop in Italy, we've dedicated ourselves to creating a harness that truly stands out from others on the market.

## Nylon LED Collar

The LED collar is a versatile product suitable for all sizes, ensuring an optimal fit even as the dog grows. Thanks to its adjustable length, it can adapt to the dog's changing body over time.

An additional key advantage is the use of a breathable material between the nylon and the dog's fur, providing maximum comfort.

## Harness Norwegian Led

The Norwegian LED harness was our very first product to enter the market.

This harness is highly appreciated for its ease of use, the comfort it provides, and its ergonomic design.

Often made with soft materials, it ensures no skin irritation or damage to the dog's coat.

## Leash Led

The PettyItalia LED leash is a safe and practical accessory for evening walks with your dog. Made from durable and water-proof materials, it features high-visibility LED lights integrated along its entire length to ensure maximum safety and visibility in the dark.

## LED Type C

PettyItalia's LEDs are designed and engineered to ensure optimal brightness even from long distances.

Thanks to the extended silicone section, the LED remains visible up to 500 meters away.

# ***Day collection***

## **Collar Biothane**

Waterproof and ultra-durable Biothane collar, ideal for all weather conditions. It doesn't absorb odors or water, making it perfect for active and adventurous dogs. Extremely easy to clean with just a damp cloth, it ensures hygiene and convenience. Maximum flexibility and comfort even in low temperatures. Hypoallergenic and safe on your dog's skin, available in various colors and sizes for a personalized and stylish look.

## **Collar Rainbow**

The Rainbow collar is a truly unique accessory, designed for those who want to stand out in style without compromising on safety. Its standout feature is the color-shifting effect: an iridescent finish that changes hue depending on the angle and light, creating dazzling and everchanging reflections.

## **Leash Zero Shock**

Durable leash with Zero Shock technology, perfect for large dogs. Made of tough nylon, it absorbs sudden pulls to ensure both comfort and control. The dual padded handles provide a secure grip and protect your hand during more intense walks.

# Biothane LED Collar

The Pettyitalia LED collar is made of Biothane, an innovative material composed of a polyester core coated with thermoplastic polyurethane. This gives the collar the lightness and flexibility of leather, but with greater strength and durability. Biothane is waterproof, easy to clean, and wear-resistant, ensuring both comfort and safety for your dog.

**CERTIFICATION EUIPO**  
It guarantees exclusive design and protection of intellectual property at the European

**BIOTHANE MATERIAL**  
Extremely soft to the touch and lightweight, ideal for ensuring comfort and practicality
