# JINHUA LANHI PHOTOELECTRICITY TECHNOLOGY CO.,LTD.

Measure with Precision, Achieve with Confidence!

# | About Us

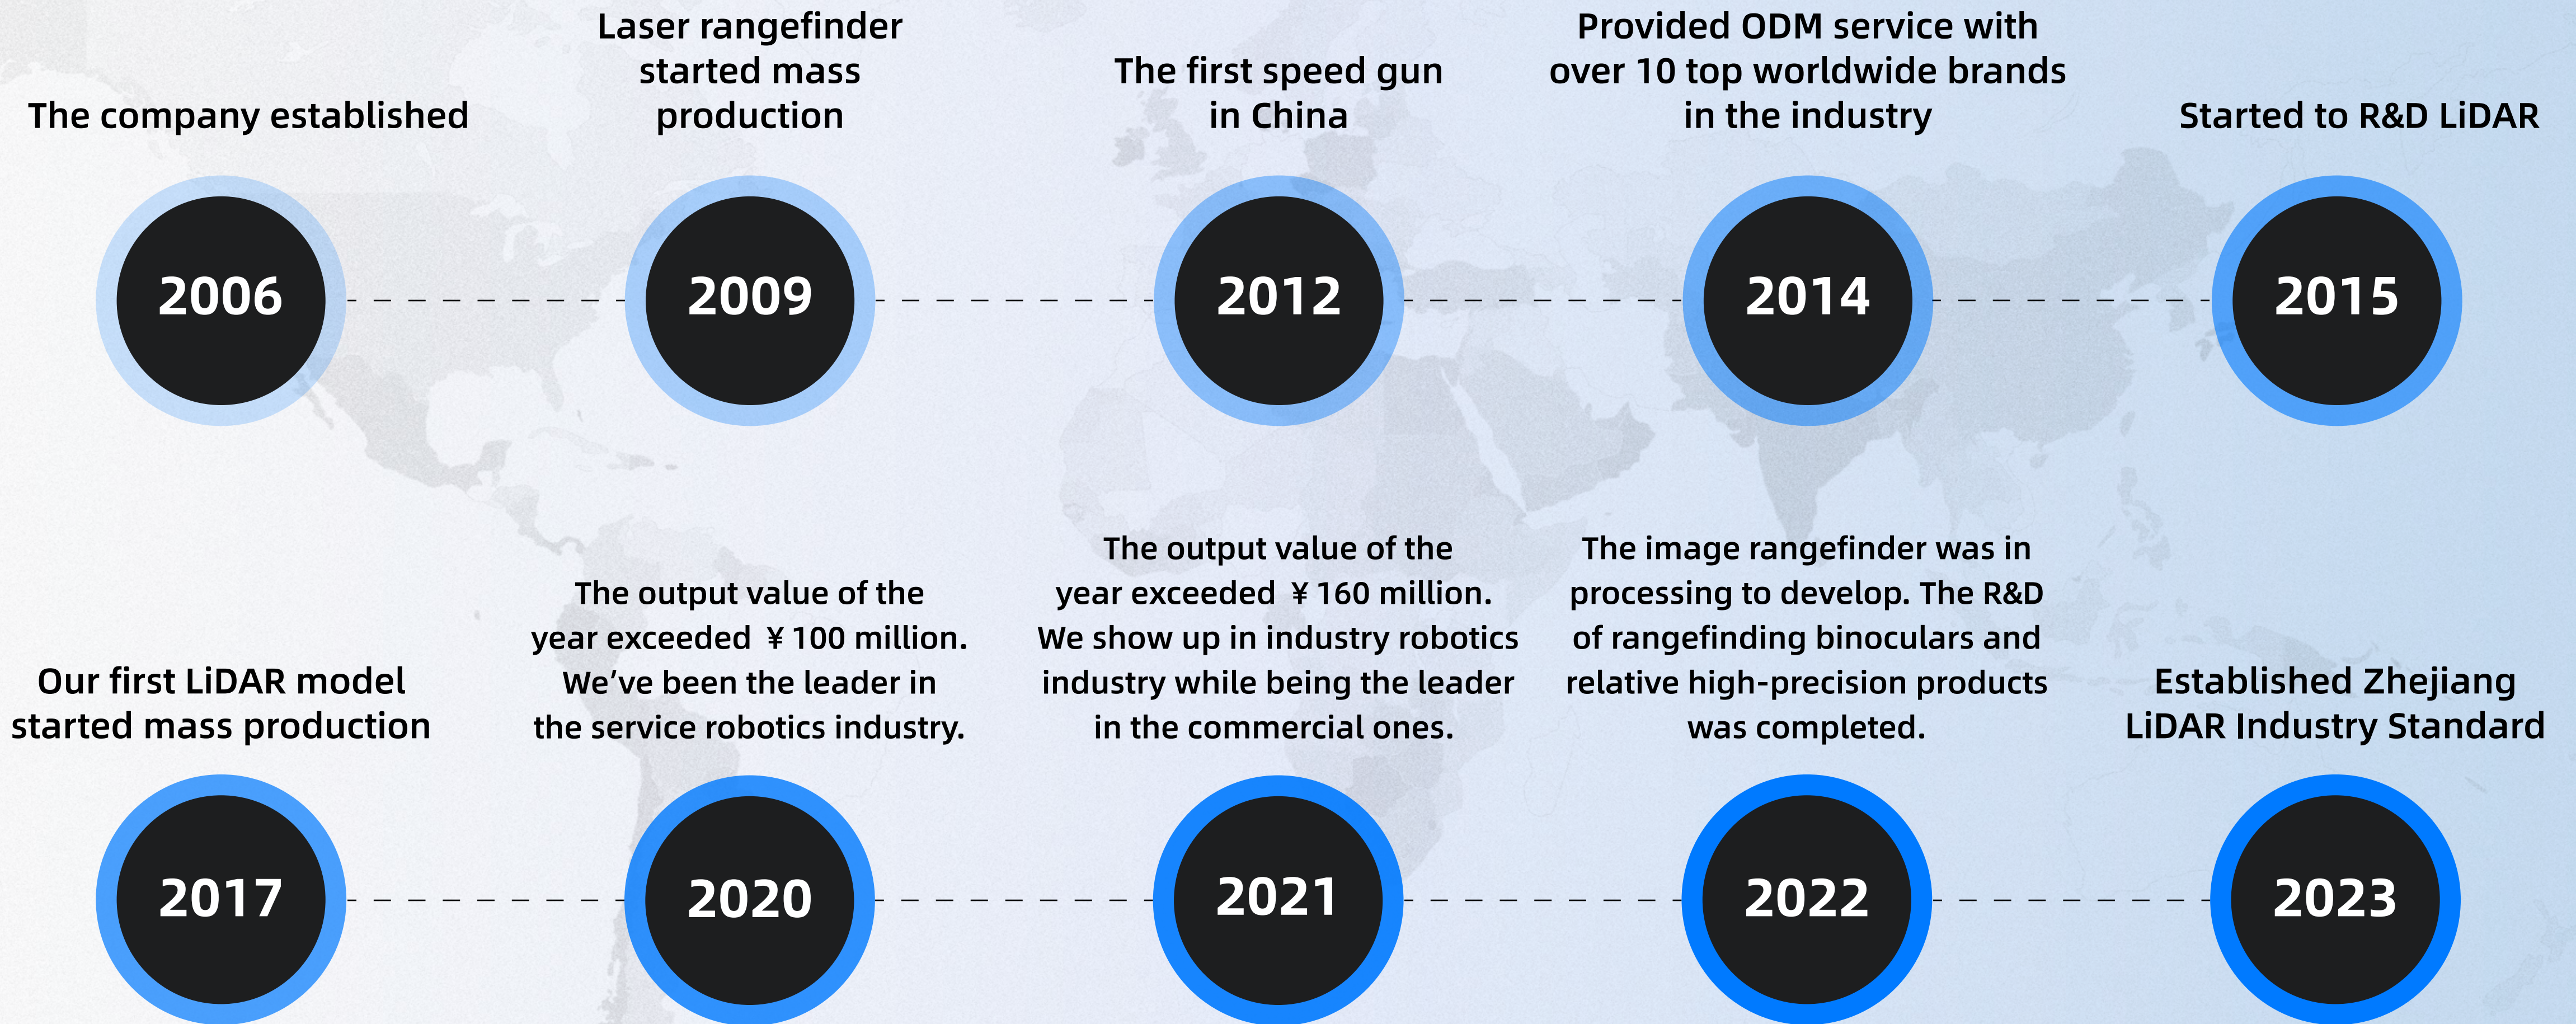

Jinhua Lanhai Photoelectricity Technology Co., Ltd. established in 2006, is a Chinese enterprise with its own brands Pacecat and BluNith. The company specializes in the research and manufacturing of high-tech fields such as laser ranging, LiDAR, thermal imaging, 3D scanning, and gas meters. It is committed to providing customers with high-quality products and solutions that are nearly perfect.

As one of the industry leaders, the company has over 18 years of professional technical experience, employs nearly 400 professionals, and holds more than 50 patents in technology. It has established cooperative relationships with more than a thousand customers worldwide, produces over 600,000 units of products annually, and has an annual output value exceeding 250 million RMB.

The company's large-scale factory in Vietnam is planned to commence operations in 2024, marking a further development in the company's internationalization strategy.

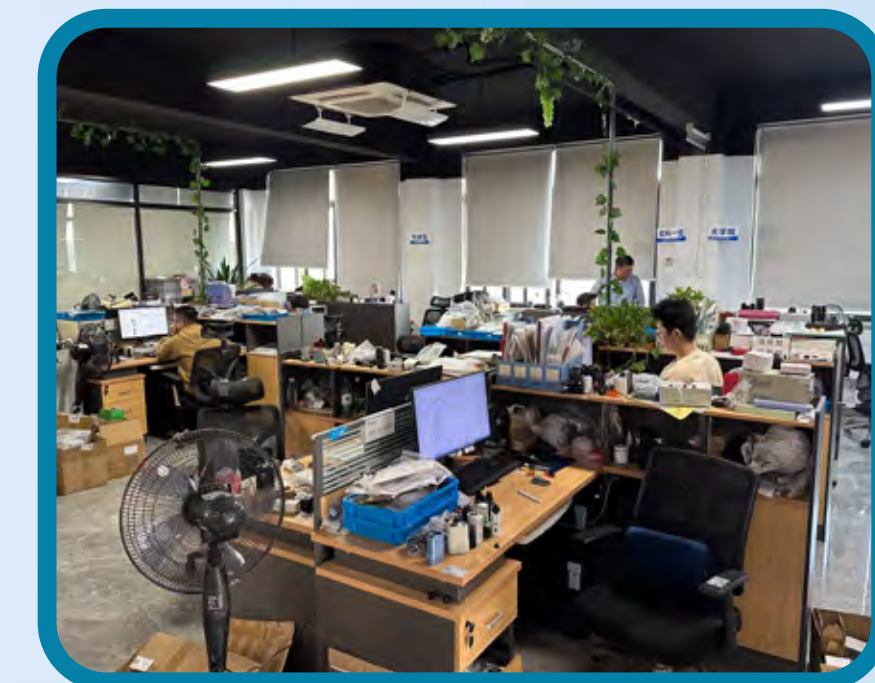

Jinhua Lanhai Photoelectricity Technology Co., Ltd. with its outstanding technological innovation and market competitiveness, continues to make new breakthroughs in the field of optoelectronics, providing excellent products and services to customers worldwide.

# | Our History

# | Our Team

We have a large team of over 300 people across the company. Our professional optoelectronic R&D team, consisting of engineers and designers, is dedicated to innovation and excellence, always keeping pace with cutting-edge technology to ensure that our rangefinders lead the industry in accuracy, reliability, and ease of use. We also have experienced sales personnel who provide high-quality services in business exports. Our production line workers form a highly specialized technical team; they not only possess solid production skills but have also undergone rigorous training in the manufacturing of high-precision instruments. Each worker is carefully selected and trained before joining the production line, ensuring they have a deep understanding of every component and process of the rangefinder.

# | About Overseas Factory “YUEHAI”

Yuehai Photoelectricity Technology Co., Ltd. is a leading manufacturer focused on producing golf rangefinders, hunting rangefinders, and binoculars. Located in the Hai Duong BW Industrial Park, our factory covers an area of approximately 2,000 square meters and is supported by a strong team of over 80 skilled employees.

Our factory is equipped with advanced production equipment and technology, ensuring that every product meets the highest quality standards. With a monthly production capacity of up to 10,000 units, we owe our efficiency to our streamlined manufacturing processes and strict quality control systems. Our product line includes a variety of golf rangefinders suitable for players of different skill levels, as well as hunting rangefinders designed for various outdoor activities. Additionally, our binoculars are favored by outdoor enthusiasts for their exceptional clarity and durability.

Our mission is to provide customers with the highest quality products and services through innovation and technological advancement. We are committed to continuously researching and improving our products to meet market demands. The establishment of Yuehai Technology was driven by our desire to better serve overseas customers, expand into international markets, and fulfill the needs of our diverse clientele.

By choosing Yuehai Photoelectricity Technology Co., Ltd., you will enjoy top-notch products and services. We look forward to collaborating with you to create a brighter future together.
