KLIMA FOR LIFE

KFL... a fusion of ideas and man

Knowledge and technology are our business philosophy.
Flexibility and willingness are our aims.
Each production stage is targeted in order to ensure
performance, safety and quality.

PRODUCTION

Our production line covers the entire range of heat exchangers: water coils, evaporators, condensers, free cooling, air coolers, remote condensers, NH3 Coils and special coils upon request.

DESCRIPTION

We can optimize each heat exchanger according to its application thanks to four available copper tube diameters in different geometries and three available on stainless steel tube.
