

WHEN EXCELLENCE
MATTERS

Protecting what counts

RKW PROVENT® SELF-VENTING BAGS

Environmental protection starts with product protection

The RKW ProVent® bag was developed over 20 years ago as an alternative to conventional paper bags and continues to set the industry standard for self-venting PE bags today. Thanks to its robustness and outstanding weatherability, damage and losses during filling, transportation, storage and distribution of moisture-sensitive goods are largely avoided. This leads to a significantly more positive environmental balance, especially for energy-intensive goods.

✓ **Reliable protection against product loss, even when stored outside**

Up to 40 times higher moisture barrier than paper bags, significantly greater tear and impact resistance

✓ **Integrated ventilation system ensures longer shelf life of the packaged goods**

Air can escape from the inside, while dust, dirt and moisture remain outside

✓ **Sustainable overall concept—from production to recycling**

Recyclable 100% mono material (PE), use of recycled material possible, energy-efficient, clean production processes

Choose the alternative to paper bags

Lower CO₂ footprint

Lower energy consumption

40% less packaging material than conventional paper bags

Customized bags (printing up to 10 colors, antistatic)

Recyclable mono material, available with recycled content

Clean overall process

Solutions

Maximum power at the point of sale thanks to attractive appearance

You can also benefit from the marketing power of the RKW ProVent®. RKW ProVent® stands for premium quality on the shelf, it is eye-catching and thus ensures a stronger purchase preference among your customers.

- ✓ **Strong brand presence thanks to outstanding printing properties**
RKW ProVent® can be printed in up to 10 colors, even seamlessly without design restrictions
- ✓ **Always a clean affair—for you and your customers**
The bags can be transported cleanly and stacked safely thanks to their antistatic properties and tailored surface grip

Efficient packaging system with full service support

Our experience and technological expertise is your advantage. No other company has carried out more start-ups for self-venting PE bags than the RKW Group. The RKW ProVent® is now the best-selling solution for packaging and marketing powdery goods in the building materials, construction, chemical and food industries.

- ✓ **Above-average machinability**
Ideal for automated filling processes and particularly high filling capacity of up to 2,000 bags/h
- ✓ **Advice and support from analysis to operation**
Our RKW experts are at your side—from the initial analysis and successful commissioning to the expansion of your requirements
- ✓ **Outstanding product quality and supply reliability**
Thanks to its long history supplying ventilated bags and a fully dedicated team, the RKW group symbolizes quality and reliability, from product manufacture to delivery to our customers
