DAMOVO

## DAMOVO SECURITY SERVICES

Security Check

What's the state of your IT security?
Get an accurate overview right now!

Use Damovo's Security Check to see where your gaps and risks are. Then take targeted action to protect yourself against security incidents.

Here's how it works:

- Talk to our security experts – who'll use well-established frameworks including NIST and ISO 27001 to understand your current reality

- Receive a management report – which sets out your current cyber security maturity level, identified and assessed risks and recommendations

- Presentation – our security experts go through the recommended measures with you and work with you to define a solution path and implementation plan

STEP 1 – Information Gathering

	IDENTIFY	PROTECT	DETECT	RESPOND	RECOVER
Devices	2,0	1,3	1,7	2,5	1,6
Applications	2,3	2,7	2,1	1,8	1,6
Network	1,8	1,6	1,6	1,7	1,3
Data	2,8	2,6	2,2	1,8	2,5
Users	2,7	2,6	1,8	1,6	2,5
Current State	2,3	2,2	1,9	1,8	1,9
Desired State					

STEP 2 – Analysis
