AFTER SALES

SCHEUCH LIGNO SERVICE PORTFOLIO

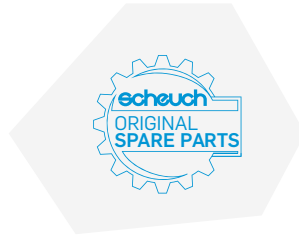

YOUR SUCCESS, OUR SERVICE.

With our after-sales services, we help ensure **your system runs reliably**—today and for the long term. Whether you need spare parts, retrofits, maintenance, or fast remote support, our services are designed to minimize downtime, **maximize system availability**, and give you confidence in day-to-day operations.

That way, you stay in control of performance, costs, and the service life of your Scheuch system—so you can focus on what matters most.

SPARE PARTS:

- Fast & easy parts identification
- Worldwide spare parts supply
- Long-term availability
- Attractive, market-based pricing
- High system availability thanks to premium quality and perfect fit
- Maximum service life through high-quality materials

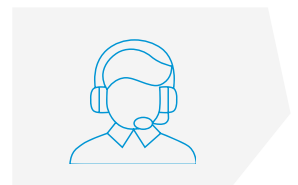

RETROFIT:

- Modernization of the existing system
- Spare parts supply secured for the long term again
- Clearer, more user-friendly data visualization
- Extended system service life
- A sustainable, resource-efficient upgrade

MAINTENANCE & SYSTEM CHECK:

- Long system service life
- Officially recognized inspections (GKV / ATEX / VdS certification)
- High system availability
- Early detection of malfunctions and faults (downtime is minimized)
- System training for your team

REMOTE ASSISTANCE:

- Fast support in case of a malfunction
- Cost-effective to implement
- Quick live access by Scheuch technicians
- Software updates possible without an on-site technician
- Secure data connection to your system

CONTACT

For more information about our service offerings, please contact our After-Sales team.

To prepare a specific quotation, we kindly ask you to provide the manufacturing or order number(s) of your respective system(s), which can be found on the nameplate of each component.
