

# Prevent your dog from overheating!

The DRY® Cooling Vest keeps your dog cool, dry and safe!

HAPPY PET,  
HAPPY LIFE!

**Suitical**  
Happy pet, happy life!

## When to use the DRY® Cooling Vest?

Summers can get (extremely) hot. While we always recommend keeping your dog indoors during heatwaves, the cooling vest can be a great solution for warmer days when you still need to go outside. It allows your furry friend to safely relieve themselves or enjoy some activity.

Hiking & outdoor activities

Road trips by car or train

Search, rescue and service dogs

Heat sensitive, older or sick dogs

Extra cooling at home

## Benefits of the DRY® Cooling Vest!

No pre-chilled water needed.

Not limited to 1 spot.

For indoor & outdoor use.

Ready in just one minute.

Direct cooling, up to 3 days.

100% Dry!

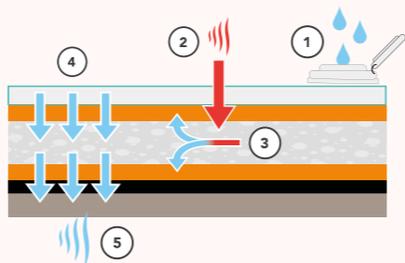

Refillable up to 800 times.

## Advanced cooling, summer ready!

The DRY® Cooling Vest uses a smart evaporation system. Just fill it with room temperature water, no electricity, no freezer, no mess! Thanks to its patented system, the vest cools up to 15°C/59°F below the surrounding air temperature, depending on humidity and airflow.

The vest won't cool below 15°C/59°F, so your dog stays cool, not cold.

### How it works:

- 1 Fill the vest with room temperature water.
- 2 Evaporation starts as warm air draws water from the vest\*.
- 3 The vest's surface cools naturally.
- 4 A special membrane transfers the cooling effect to your dog.
- 5 Your dog stays comfortable and cool.

No gels or chemicals needed!
