

BEST-IN-CLASS BACKUP. PURPOSE-BUILT FOR MSPs.

Market-leading restore reliability.
Full architectural control.
Profitable at scale.

Backup isn't just another service in your stack – it's the foundation of client trust. Comet Backup helps MSPs deliver dependable restores, maintain full architectural freedom, and scale their services profitably without vendor lock-in.

OUT OF THIS WORLD BACKUP. MADE FOR THE MSP COMMUNITY.

TRUST

Fast, best-in-class backup & restore

Win trust and save the day with predictable, fast backup and restore at scale—turning backup from a checkbox into a true differentiator.

Built-in security & sovereignty

Meet security, privacy, and compliance requirements head-on, while retaining full control over data, architecture, and jurisdiction.

CONTROL

Seamless service integration

Assemble, customize, and scale backup services quickly using an API-first, modular approach that fits seamlessly into your existing tech stack.

Flexible storage options

Architectural freedom without compromise. Choose your own cloud or on-prem storage, avoid proprietary lock-ins, and align infrastructure to each client's needs.

EFFICIENCY

Efficient, scalable backup operations

Make backup operations more efficient, productive and scalable through centralized management, workflow automation and fast deployment.

Clear usage-based pricing

Transparent, usage-based licensing helps to simplify billing, align cost to consumption, and support sustainable long-term growth.

PROTECT WORKLOADS SEAMLESSLY THROUGH A SINGLE PANE OF GLASS

Unify protection, management, monitoring, and recovery in one console.
Deploy Comet-Hosted or Self-Hosted on your terms.

PROTECT

Deliver resilient, policy-driven backup protection that safeguards every client environment.

MANAGE

Control every client, device, and workload from a single pane of glass built for MSP operations.

MONITOR

Gain real-time visibility across your entire backup estate to stay proactive, responsive, and accountable.

RESTORE

Recover data quickly and reliably, turning backup from a safety net into a strategic advantage.

LEADING MSPs CHOOSE COMET

Comet stands apart through recognized quality, relentless innovation, long-term partnerships, and product evolution shaped by MSPs.

Recognized quality

Highly rated by MSPs worldwide for reliability and restore performance.

Relentless innovation

Frequent releases deliver cutting-edge features that keep you ahead.

Partnerships that last

Long-term relationships built on trust, support, and shared success.

Community-driven development

Product evolution shaped directly by the Channel and MSP community.
