

# shapes

Advanced patented technology for law enforcement, military, and tactical professionals who spend hours on their feet.

The difference  
between endurance  
and exhaustion is  
"SHAPES."

- Reduce fatigue - Advanced pressure distribution reduces strain on feet and knees during long missions.
- Boost performance - Improved stability and posture enhance readiness and endurance.
- Designed for gear - Perfect fit for tactical, combat, and duty footwear.
- German-engineered - Developed and tested in collaboration with orthopedic experts.

# “WHY SHAPES?”

Every step counts in your mission.

SHAPES combine medical expertise with tactical durability – engineered and patented to support those who protect and serve. Whether on patrol, deployment, or training, SHAPES keeps you aligned, strong, and focused.

- Ergonomic Design – supports natural foot alignment to reduce pain and knee stress.
- Shock Absorption Technology – absorbs impact from running and jumping in tactical environments.
- TPE HYBRID CORE – maximum flexibility and energy return.
- Red Light & Heat Finishing - optimized Grip, Increased Durability, Maximum Hygiene
- Adaptable Fit – adapts to your need automatically in every situation new

## Available as specialized Shapes Tactical Edition
