BE WITH PET

WHERE WE START?

Pet Marvel, founded in Shanghai, China, is a company with over 10 years of experience in the pet industry. Our mission is to redefine the pet ownership experience through technology.

All members of Pet Marvel are committed to creating pet-friendly products that enhance the well-being of pets. At Pet Marvel, we have our own independent R&D department specialized in pet behavior and psychology. Our R&D team continuously innovates and develops new products, offering a comprehensive range that includes everyday pet essentials, pet toys, and a series of smart products.

Since our inception, we have successfully developed 60 products with over 300 SKUs. These products feature innovative designs, structures, and functionalities. Our products are popular in the market, and Pet Marvel products have received good reviews from distributors and pets owners.

Creating An Innovative Lifestyle For Pet

We understand that pets are also family members. We aim to bring a high-tech, fun, and heartwarming experience to pet households through our products. From the very beginning, we have proactively pursued innovation, striving to provide the best products for pets. What sets us apart from other manufacturers is our dedicated in-house product development team, who are experts in pet behavior and psychology, and are focused on delivering exceptional user experiences for pet owners, enabling us to create superior products.

Our experienced team consists of researchers, designers, engineers, and scientists who provide strong support in advancing our products. We are confident in building products that earn consumer trust and delivering high-quality services. Our products will enhance the pet ownership experience in terms of health, convenience, and enjoyment for pet owners.

Over 10 years of Pet Industry Experience

Committed to creating a better pet ownership experience with state-of-the-art technology powered by our in-house R&D team.

Redefining Pet Ownership with Technology

Redefining the pet ownership experience through modern technology. Providing pet households with a new experience that combines technology, convenience, health, and safety.

Meeting the comprehensive needs of pet households

Our products provide the best solutions for pet households in terms of health, safety, aesthetics, and emotional connection. We are dedicated to delivering a superior two-way experience for both owners and pets.

Industry-Leading Design

We take pride in our independent product research and design, which strike a perfect balance between aesthetics and functionality.

Better details, Better Experience

Our self-build and self-operated supply chain allows us to effectively combine the advantages of low cost and high quality.

Connecting Pets and Owners

Our goal is to create products that provide an exceptional user experience and enable pets and their owners to connect at a deeper level.
