## Pro-Shot Expands Its Family of Brands with Acquisition of Borka Tools

**Leading gun care innovators and firearms maintenance tools unite under one vision ahead of SHOT Show 2026**

**Taylorville, IL — October 2025 —** Pro-Shot Products, a leader in American-made gun cleaning and maintenance solutions, proudly announces the acquisition of **Borka Tools**, a superior manufacturer of precision torque tools for firearms and optics. This strategic acquisition further strengthens Pro-Shot's expanding family of trusted brands — including **KleenBore**, **Pro-Shot Defense**, **SplatterShot Targets**, **LockOn Targets**, and now **Borka Tools** — ahead of their unified showcase at SHOT Show 2026 in Las Vegas.

Founded in the early 1990s, **Borka Tools** has earned a reputation among professionals and enthusiasts alike for producing compact, military-grade torque adjustable torque driver systems—renowned for accuracy, reliability, and innovative design. The addition of Borka Tools to the Pro-Shot family reflects a shared commitment to precision, performance, and accuracy with its Made-in-America adjustable torque driver craftsmanship.

"Borka Tools brings unmatched engineering and innovation to our portfolio," said **John Damarin**, President of Pro-Shot Products. "By combining Pro-Shot's legacy of American manufacturing, KleenBore's trusted cleaning technology, Pro-Shot Defense's mission-driven focus, and Borka's elite torque systems, we're offering the industry's most complete, professional-grade American made firearm maintenance and support solution under one roof."

### Pro-Shot Family of Brands — SHOT Show 2026 Highlights

Dealers, distributors, and defense professionals will have the opportunity to explore the complete Pro-Shot family at **Booth #70339** in Las Vegas, featuring:

- **Pro-Shot Products:** Premium gun cleaning systems, cleaning components, reactive SplatterShot targets, and superior cleaning rods and accessories.
- **NEW for 2026:** *Pro-Shot's Next-Generation Cleaning Kits* — redesigned with enhanced packaging, modular system options, and an updated logo that reflects Pro-Shot's modern precision heritage.
- **KleenBore:** Quality cleaning kits and components made in America for new firearm owners, competition shooters, and law enforcement professionals.
- **Pro-Shot Defense:** Advanced weapon cleaning systems from small caliber to 155mm — care and maintenance solutions engineered specifically for defense, military, and professional applications.
- **Borka Tools:** Precision torque systems engineered for rifles, optics, and armorer applications.

Together, these brands represent a unified vision — to deliver world-class firearm maintenance, precision, and reliability from bore to bolt.

“Our combined expertise allows us to support every level of the shooting community — from the field operator to the competitive marksman,” added Damarin. “We’re excited to show the industry what’s next for precision gun care.” **Visit the Pro-Shot Family at SHOT Show 2026**
