

Company and products

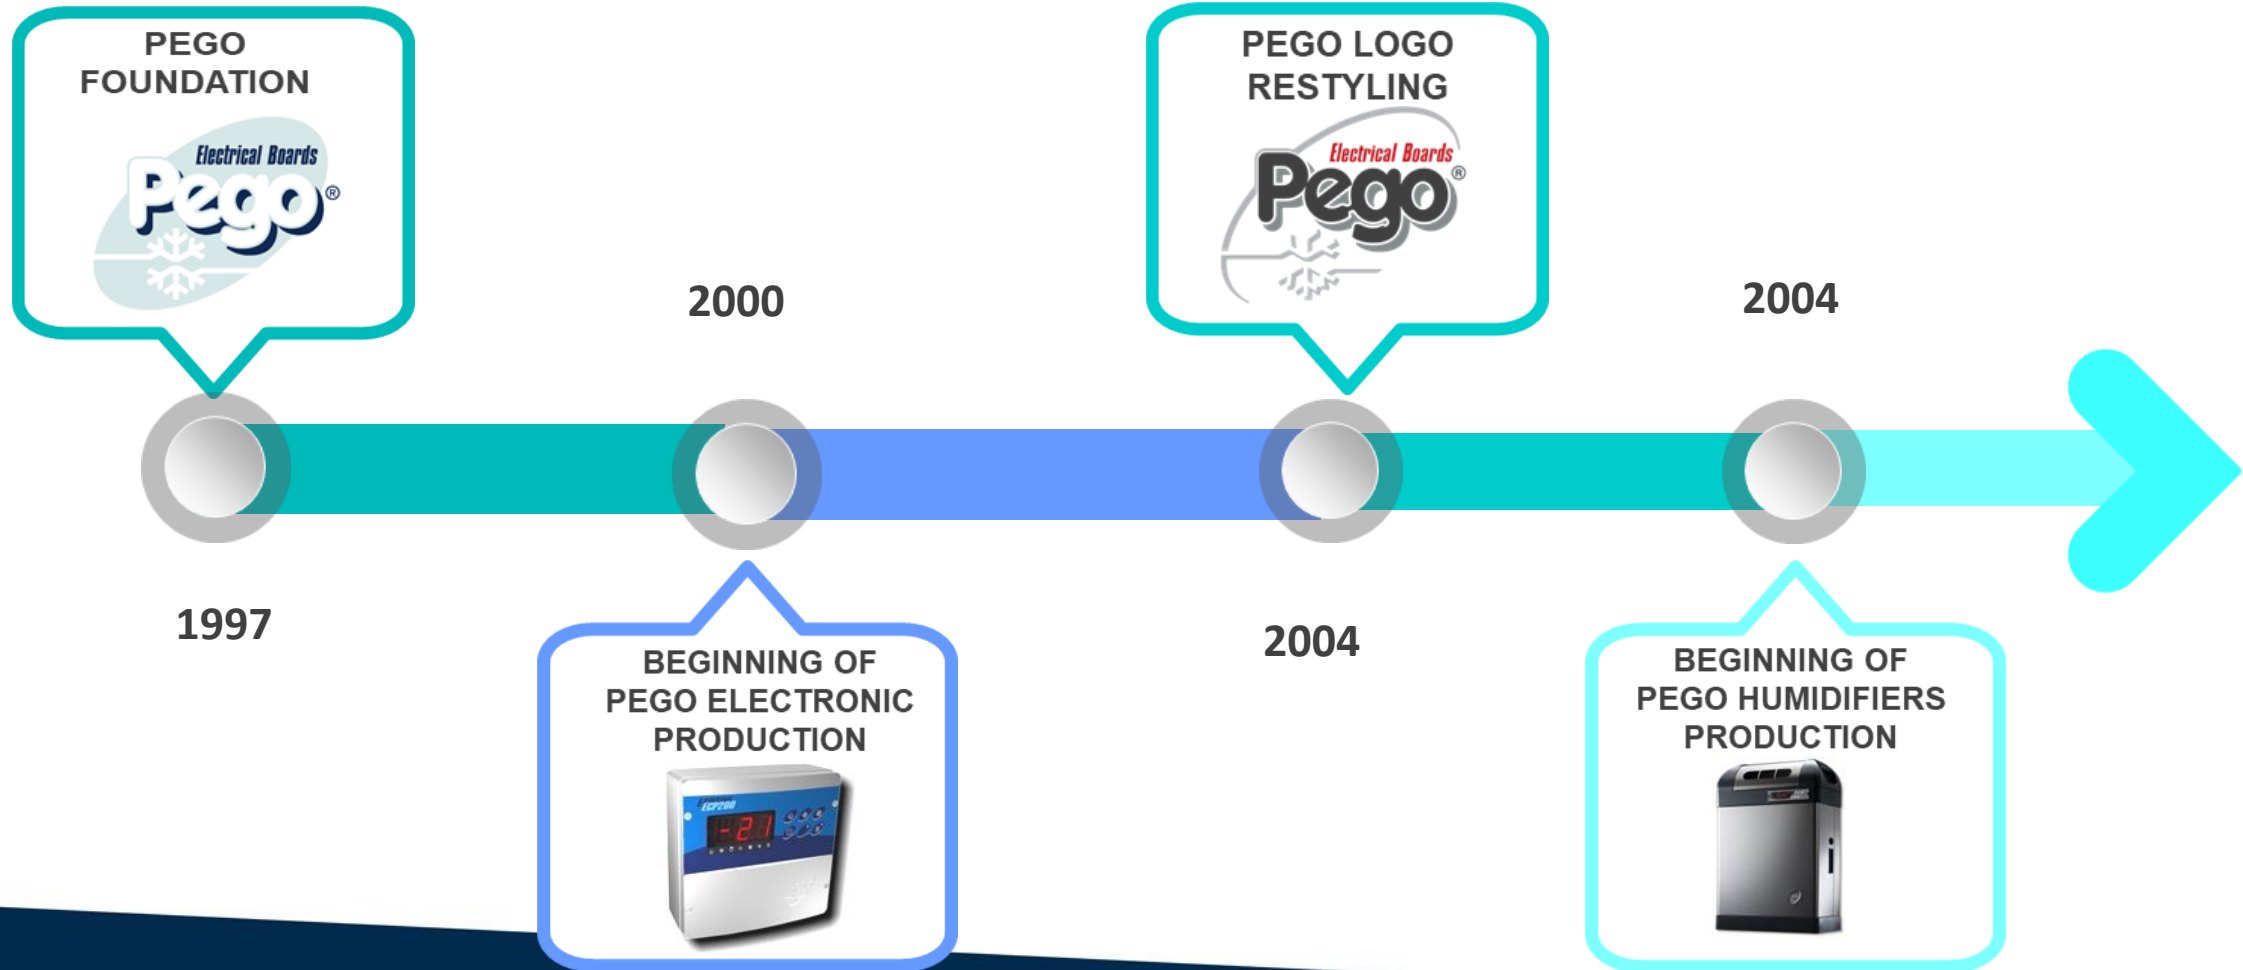

PEGO COMPANY

Pego was **founded on 1997** as production company of panels for refrigeration. During the last 25 years it has reached a **leading position** in the **electrical boards** for refrigeration plants production and in the last 15 years also in the **steam humidifiers** production. Affirmed on the national market, with always cutting-edge solutions, Pego expanded then on European and international level, supported by an efficient net of distributors. Pego is also recognized for its **strong focus on customer needs and excellent after-sales service.**
