ABOUT

US

BB madencilik

With a quarter-century of experience in the bentonite mining industry, BB Madencilik has identified 50 million tons of high-quality calcium white bentonite in its fields, located 19 km from Ünye Port and 24 km from Fatsa Port, as a result of drilling operations. The bentonite soil, whose reserves have been confirmed, has undergone extensive testing at MTA, MAM, TÜBİTAK, by our export customers, and in our own facility's state-of-the-art laboratory – one of the most comprehensive in the sector. These tests have proven its suitability for use in many industries such as detergents, cosmetics, paper, pharmaceuticals, paints, desiccants, ceramics, bleaching earth, and cat litter. In addition to our calcium bentonite reserves in the Ünye and Fatsa regions, our company also owns approximately 2,000 hectares of sodium bentonite fields in Tokat, recognized as the highest-quality source in the region.

WHAT MAKES US SPECIAL?

What truly defines us is that we produce our cat litter entirely from our own natural resources.

We extract white calcium bentonite directly from our own mines and process it with the highest quality standards in our own facilities.

With a potential reserve area of approximately 50 million square meters, we proudly own one of the largest bentonite mining sites in Türkiye. This enables us to guarantee natural consistency, sustainability, and superior quality at every stage of production.

From every grain we extract, we create products that deliver maximum hygiene and comfort for cats, and trust and quality for their owners.

PRIVATE LABEL

We offer tailored Private Label production to meet the unique needs of our partners. From custom packaging design to precise filling and labeling, we ensure that each product reflects your brand identity while maintaining our high standards of quality.

With full control over our own bentonite mines and production facilities, we guarantee consistent purity, top performance, and reliability in every batch. Partner with us to deliver cat litter products that combine your brand's vision with our expertise and premium quality.

LAVENDER
SCENTED

LAVENDER
SCENTED

ENRICHED WITH LAVENDER EXTRACTS, ITS SPECIAL FORMULA INSTANTLY TRAPS UNWANTED ODORS WHILE RELEASING A REFRESHING LAVENDER SCENT INTO THE AIR. WITH HIGH CLUMPING POWER AND MINIMAL DUST, IT IS DESIGNED FOR THE COMFORT OF BOTH YOU AND YOUR CAT.
