#### **TR-1upgrade®: Driving Innovation and Precision in Firearm Components**

*February 2026 – Rome, Italy –* **TR-1upgrade®**, a dynamic and fast-growing company, reaffirms its dedication to innovation and excellence in the development of technical components and accessories for sporting and defensive firearms.

Operating as a **Custom Shop**, TR-1upgrade® combines advanced engineering with real-world field expertise to deliver **precision-engineered trigger kits and firearm upgrades**. Designed for some of the most widely used platforms—including **Beretta, Glock, CZ, Sig Sauer**, and many **other leading international brands**—each TR-1upgrade® component undergoes extensive field testing to ensure **maximum safety, reliability, and top-level performance**.

The company's flagship line, the **TR-1 Series Trigger Kits**, has become a global benchmark, trusted by competitive shooters across disciplines. With their unique blend of speed, smoothness, and control, these kits redefine the synergy between shooter and firearm—empowering professionals and enthusiasts alike.

**"Our mission is clear: to deliver components that provide absolute reliability, rapid performance, and full confidence in every scenario,"** said Antonio Bruno – e.g. *CEO of TR-1upgrade®*. **"While our legacy is tied to renowned platforms like Beretta and Glock, our vision extends across many other brands to meet the evolving demands of the global shooting community."**

Looking ahead, TR-1upgrade® is set to expand its portfolio with **innovative accessories and advanced upgrades**—continuing to set new standards for performance-driven firearm components worldwide.
